INOX Stainless Steel Finishes

- Satin Stainless Steel - US32D
- Bright Polished Stainless Steel - US32
- Oil Rubbed Bronze on Stainless Steel - US10B

Satin and Bright Polish Stainless Steel are the primary INOX finishes.

The Satin Stainless Steel finish brings out the natural beauty of nickel, as nickel is the essence of stainless steel. Refined hand polishing reveals an elegant color and smooth texture. The Bright Polish finish reflects the other natural substance of stainless steel which is chrome, a finish that always stylish and refreshing. These finishes are guaranteed for life, whereas a plated finish does not have the same longevity.

INOX has a new finish – INOX Oil Rubbed Bronze on Stainless Steel.

Contemporary design and material with a classic finish has been in ever increasing demand in the world of interior design. INOX ORB offers a beautiful, dark satin finish with a metallic bronze undertone that can be seen with natural light reflection. Aging highlights have also been carefully handcrafted by master craftsmen.

Why Stainless Steel?

Sustainability, the use of recycled and sustainable materials requiring minimal manufacturing waste and maintenance are a must in today's avant garde world of knowledgeable designers, architects, and 21st century consumers.

Stainless steel has a stellar environmental track record due to the steel industries sparing use of primary energy which reduces waste streams and saves non-renewable resources. Due to its self-sustaining qualities there is as much as a 28% reduction in CO^2 emissions captured through the use of 100% raw stainless steel and each ton of stainless steel recycled scrap replaces one ton of raw material. INOX stainless steel hardware consists of 60%~80% recycled material.

Unison

We Believe . . .

These premises have no complexity
If you feel your conceptualizations, when flexible and fashion your dreams,
Unlimitness possibilities advanced
Utilities are formed from and fully conventional thinking
We feel which has longstanding thoughts are exceptional values
The artist's hands utilities work of an as show to reflect your individuality
Conceptional engineering and innovative design are nothing without Passion and Soul
