GODZILLA® FINAL WARS

In what may be the greatest episode of this legendary series, Godzilla® celebrates his 50th birthday with the world's most ferocious monsters crashing the party, turning the entire globe into a mega-destructive birthday bash. The Earth Defense Force has a little surprise gift for their green nemesis too, they intend to finish him off once and for all.

Reaching beyond the environs of Tokyo; Rodan™, Gigan™, Mothra® and more of their nefarious friends attack the Statue of Liberty, the Eiffel Tower and other premier tourist destinations. But before you can say "run for your life," a superior alien force appears to save Earth — or so it seems.
