CLASS 7: machines for manufacturing solar batteries

CLASS 9: Probe cards for use in inspection of liquid crystal panels; apparatus for measuring the electrical properties of liquid crystal display panels; electric contacts for measuring or testing machines and instruments; testing machines for integrated circuits; testing machines for flat panel displays; probe cards for use in testing of integrated circuits or flat panel displays; batteries, electric; accumulators, electric; batteries and cells; equipment for inspection of electrical characteristics of solar batteries and cells for solar batteries; measuring or testing machines and instruments for use in appearance inspection of wafers for solar batteries and cells for solar batteries; measuring or testing machines and instruments for use in inspection of solar batteries; probe cards for use in inspection of semi-conductors; probe cards for use in inspection of liquid crystal display panels; testing apparatus for testing of electrical characteristics of semi-conductors; semiconductor wafer probers; semiconductor testing apparatus comprising a master controller computer and a mass interconnect connector interface for connection to a plurality of test instruments for testing electrical characteristics of semi-conductors and measuring semiconductor integrated circuits; liquid crystal display testing equipment, namely, automated optical inspection (AOI) systems comprised of an automated camera and computerized controller connected to the camera, probe units, blade-type probes, film type probes, manual probers for organic light-emitting diodes (OLEDs), and lighting units for light-up testing for OLEDs

CLASS 37: Repair and maintenance of electronic machines and apparatus; repair and maintenance of telecommunication machines and apparatus; installation, repair and maintenance of solar batteries; installation, maintenance and repair of electric batteries; installation, maintenance and repair of electric accumulators; repair and maintenance of probe cards for use in inspection of semi-conductors; repair and maintenance of apparatus for inspection of probe cards; repair and maintenance of apparatus for inspection of electrical characteristics of semi-conductors; repair and maintenance of apparatus for measuring integrated circuits; repair and maintenance of apparatus for inspecting liquid crystal display panels; repair and maintenance of measuring and testing machines and instruments; repair and maintenance of electric or magnetic meters and testers

CLASS 42: design and development of computer programs designed to the specifications of others

The mark consists of the design of a circle in the corner of a square to the left of the lettering "MJC".

PRIORITY DATE OF 12-24-2013 IS CLAIMED

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
