PLEXUS

Reg. No. 5,024,473

Registered Aug. 23, 2016

Int. Cl.: 10

Trademark

Principal Register

Vascutek Limited (UNITED KINGDOM A Private Limited Company)
Newmains Avenue
Inchinnan, Renfrewshire PA4 9RR
UNITED KINGDOM

CLASS 10: Surgical apparatus and instruments for use in endovascular procedures and for treating cardiovascular disease, namely, thoracic stents; synthetic thoracic stent grafts; synthetic stent grafts; synthetic stent graft systems comprised of synthetic stent grafts, stent delivery systems, and stent graft delivery systems; stent graft systems comprising more than one component comprised of synthetic stent grafts, stent delivery systems, and stent graft delivery systems; stent graft systems and devices comprising components of more than one type of stent graft comprised of synthetic stent grafts, stent delivery systems, and stent graft delivery systems; thoracic synthetic stent graft systems comprised of synthetic stent grafts, stent delivery systems, and stent graft delivery systems; thoracic stent graft devices; prosthetic systemic vascular grafts; prosthetic vascular straight grafts; prosthetic vascular abdominal grafts; prosthetic vascular thoracic grafts; prosthetic vascular branched grafts; prosthetic vascular pre-curved grafts; prosthetic vascular aortic arch grafts; prosthetic vascular branched arch grafts; delivery systems for synthetic stent graft systems comprised of medical instruments for intraluminal emplacement of stents or of synthetic stent grafts, namely, stent or synthetic stent graft delivery systems; aneurysm repair systems comprised of catheter delivered stent grafts, medical instruments for intraluminal emplacement of stents or stent systems or of synthetic stent grafts, namely, stent delivery systems or stent graft delivery systems or synthetic stent graft delivery systems; cardiac valves for surgical prostheses; cardiac valve replacement systems, namely, prosthetic cardiac valves; heart valves, namely, prosthetic heart valves; heart valve conduits, namely, catheters for implanting heart valves; cardiac patches, namely, cardiovascular patches, pericardial patches, and carotid patches, namely, surgical mesh comprised primarily of prosthetic materials; vascular patches, namely, cardiovascular patches, pericardial patches, and carotid patches, namely, namely, surgical mesh comprised primarily of prosthetic materials; medical apparatus and instruments for use in endovascular procedures and for treating cardiovascular disease; grafts, namely, prosthetic vascular grafts, prosthetic endovascular grafts, stents, and vascular prostheses; prosthetic vascular woven grafts; surgical implants comprising prosthetic materials; stents, patches, namely, patches for repair and reconstruction of internal tissue, namely, cardiovascular patches, pericardial patches, and carotid patches, namely, surgical mesh comprised primarily of prosthetic materials; prostheses, namely, artificial surgical prostheses; surgical implants comprising artificial material; suture materials; patches for repair and reconstruction of internal tissue, namely, surgical mesh comprised primarily of prosthetic materials; implantable medical devices, namely, implants consisting of prosthetic materials, synthetic vascular prostheses, prosthetic vascular grafts, synthetic heart valve conduits, cardiac valves for surgical prostheses, stents, prosthetic vascular grafts, vascular prostheses, prosthetic vascular grafts, prosthetic endovascular grafts, and catheters; artificial vascular grafts; artificial endovascular grafts; surgical graft materials, namely, prosthetic vascular grafts, vascular prostheses for the treatment of aneurysmal or occlusive arterial disease medical devices for use in endovascular procedures for treating cardiovascular disease; stents; thoracic stents; artificial thoracic stent grafts; thoracic stent graft systems comprising synthetic stent grafts and stent delivery systems; delivery systems for stent graft

Michelle K. Lee

Director of the United States
Patent and Trademark Office

systems comprising stent delivery systems; aneurysm repair systems comprised of catheter delivered artificial stent grafts and stent delivery systems; cardiac valves for surgical prostheses; cardiac valve replacement systems comprised of artificial cardiac valves; artificial heart valves; heart valve conduits namely, catheters for implanting heart valves; cardiac patches and vascular patches, namely, surgical mesh comprised primarily of prosthetic materials; parts and fittings for all of the aforementioned goods

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 07-14-2014 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1262889 DATED 12-22-2014, EXPIRES 12-22-2024

SER. NO. 79-171,662, FILED 12-22-2014
KELLY F BOULTON, EXAMINING ATTORNEY

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
