United States Patent and Trademark Office

# SEALEY

**Reg. No. 5,563,057**

**Registered Sep. 18, 2018**

**Int. Cl.: 1, 2, 3, 4, 5, 6, 7,  
8, 9, 10, 11, 12, 20, 21, 22,  
25**

**Trademark**

**Principal Register**

Jack Sealey Limited (UNITED KINGDOM Registered Company )  
Kempson Way,  
Suffolk Business Park Bury St Edmunds, Suffolk IP32 7ar  
UNITED KINGDOM

CLASS 1: Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; fire extinguishing compositions; tempering and soldering preparations; acetates as chemicals; acetate of cellulose, unprocessed; acetone; acetylene; acetylene tetrachloride; inorganic, mixed acids; acidulated water for recharging accumulators; acidulated water for recharging batteries; adhesives for industrial purposes; adhesives for paperhanging; adhesives for wallpaper; adhesives for wall tiles; anti-boil preparations for engine coolants; agricultural chemicals, except fungicides, herbicides, insecticides and parasiticides; anti-incrustants; antifreeze; anti-frothing solutions for accumulators; anti-frothing solutions for batteries; anti-knock substances for internal combustion engines; antistatic preparations, other than for household purposes; argon; automobile body fillers; auxiliary fluids for use with abrasives; barium compounds; chemical preparations in the nature of polymer base compositions used in the manufacture of commercial, industrial and domestic goods; bicarbonate of soda for chemical purposes; blueprint cloth; blueprint paper; brake fluid; brazing fluxes; brazing chemical preparations; brickwork preservatives, except paints and oils; calcined soda; car body fillers; carbon for filters; catalysts for use in the manufacture of industrial chemicals; caustics for industrial purposes; caustic soda for industrial purposes; cellulose; cellulose derivatives as chemicals; cellulose esters for industrial purposes; contact cement for mending broken articles; rubber cement for pneumatic tires; metallurgy cement for industrial use; cement preservatives, except paints and oils; cement-waterproofing chemicals, except paints; ceramic materials in particulate form, for use as filtering media; chemical additives for oils; chemical additives to motor fuel; chemical preparations for decarbonising engines; chemical preparations for facilitating the alloying of metals; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical preparations to prevent mildew; chemical reagents, other than for medical or veterinary purposes; chimney cleaners, chemical; clarification preparations in the nature of chemicals for use in clarification of waste water; color-brightening chemicals for industrial purposes; combusting preparations, namely, chemical additives to motor fuel; chemical compositions for repairing inner tubes of tires; chemical compositions for repairing tires; chemical metal-working compositions for threading; condensation-preventing chemicals; coolants for vehicle engines; chemical corrosive preparations for use as corrosion inhibitors on automobile exhaust systems used in biodiesel, biodiesel blends, and biorefined fuels; creosote for chemical purposes; damp-proofing chemicals, except paints, for masonry; degumming preparations for industrial purposes; degreasing preparations for use in manufacturing processes; dehydrating preparations for industrial purposes; detergent additives to petrol gasoline; detergents for use in manufacturing processes; diagnostic preparations, other than for medical or veterinary purposes; diastase for industrial purposes; disincrustants for industrial purposes; dispersions of plastics for industrial purposes; distilled water; leather dressing chemicals, except oils, for skins; carbon dioxide, namely, dry ice; ethyl alcohol; emulsifiers for industrial purposes; enamel-staining chemicals; engine-decarbonising chemicals; enzymes for industrial purposes; enzyme preparations for industrial purposes; epoxy resins, unprocessed; ether, namely, methyl ether; sulfuric ether; ethyl ether; glycol ether; cellulose ethers for industrial purposes;

*Andrei Ivanov*

Director of the United States  
Patent and Trademark Office

fat-bleaching chemicals; ferments for chemical purposes; fillers for automobile bodies; fillers for car bodies; fire extinguishing compositions; fireproofing preparations; flashlight preparations, namely, photographic fixers; fluids for hydraulic circuits; chemical fuel-saving preparations; galvanizing preparations; chemical gas purifying preparations; glass-frosting chemicals; glaziers' putty; glue for industrial purposes; gluten glue, other than for stationery or household purposes, namely, for industrial purposes; glycol; glycol ether; graphite for industrial purposes; grease-removing chemical preparations for use in manufacturing processes; gum arabic for industrial purposes; gums adhesives, other than for stationery or household purposes, namely, for industrial purposes; gum solvents; helium; horticultural chemicals, except fungicides, herbicides, insecticides and parasiticides; industrial chemicals; iodized salts; ion exchangers chemicals; iron salts; krypton; leather-dressing chemicals; leather glues for industrial use; leather-impregnating chemicals; leather-waterproofing chemicals; leather-renovating chemicals; liquids for hydraulic circuits; liquids for removing sulfates from accumulators; liquids for removing sulfates from batteries; lithium; litmus paper; masonry preservatives, except paints and oils; mastic for leather; mastic for tires; mercury; mercury salts; metal annealing preparations; metal hardening preparations; mineral acids; mould-release preparations; oil-bleaching chemicals; oil cement putty; oil dispersants; oil-purifying chemicals; oil-separating chemicals; opacifiers for glass; oxygen; perborate of soda; petroleum dispersants; plasticizers; plastics, unprocessed; polish removing substances for industrial purposes; power steering fluid; chemical preparations for preventing the tarnishing of lenses; chemical preparations for the separation of greases; chemical preparations for the purification of gas; propellant gases for aerosols; preservatives for tiles, except paints and oils; protective gases for welding; purification chemical preparations for industrial purposes; radiator flushing chemicals; reagent paper, other than for medical or veterinary purposes; refrigerants; rock salt for deicing; rubber preservatives; salt for preserving, other than for foodstuffs; raw salt, namely, salts from rare earth metals; salts chemical preparations; salts for galvanic batteries; salts for galvanic cells; salts for industrial purposes; salts of precious metals for industrial purposes; scale removing preparations, other than for household purposes; separating and unsticking ungluing preparations for industrial purposes; silicates; silicon; silicones; size for finishing and priming; metallic soap for industrial purposes; sodium salts chemical compounds; soldering chemicals; soldering fluxes; solidified gases for industrial purposes; solvents for varnishes; spirits of vinegar in the nature of dilute acetic acid; stain-preventing chemicals for use on fabrics; surface-active chemical agents; synthetic materials for absorbing oil; test paper, chemical; textile-impregnating chemicals; textile-waterproofing chemicals; tire repairing compositions, namely, rubber cement for repairing pneumatic tires; transmission fluid; ungluing preparations for industrial purposes; unsticking and separating preparations for industrial purposes; viscose chemicals for use in manufacturing; vulcanisation accelerators; wallpaper removing preparations; water-purifying chemicals; welding chemicals; zirconia; chemicals used in industry; chemical preparations for diagnostic purposes, other than for medical use; hydraulic oil; welding gases; adhesives used in industry

CLASS 2: Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants for use in the building or automotive industry; anti-corrosive preparations in the nature of coatings, oils, papers and paints; wood mordant dyes; wood stains; bronzing lacquers; paints as coatings for roofing felt; paints as coatings for tarred felt; ceramic paints; undercoating for vehicle chassis; undersealing for vehicle chassis; wood preservatives; thinners for paints; thinners for lacquers; thickeners for paints; creosote for wood preservation; dyestuffs; distempers; enamel varnishes; enamels for painting; enamel paints; siccatives for use as drying agents for paints; clear and pigmented coatings in the nature of paint; fixatives in the nature of varnishes; glazes in the nature of paints, lacquers; gum resins, namely, gamboge for painting; anti-rust greases; oils for the preservation of wood; preservative oils for wood; anti-rust oils; fireproof paints; binding agents for paints; agglutinants for paints; metals in powder form for painters, decorators, printers and artists; mastic raw natural resin; anti-tarnishing preparations for coating metals; protective preparations for coating metals; anti-rust preparations for preservation in the nature of a coating; primers; whitewash; dyewood; preparations for coloring wood; dye-wood; carbonyl wood preservative; lacquers; anti-fouling paints; turpentine thinner for paints

CLASS 3: Cleaning and polishing preparations; automotive care products, namely, cleaning and polishing preparations; automotive waxes; degreasing preparations, other than used in

manufacturing processes

CLASS 4: Industrial oils and greases; lubricants, namely, all-purpose lubricants, automotive lubricants; dust absorbing, wetting and binding compositions; fuels including motor spirit and illuminants; candles and wicks for lighting; beeswax for use in further manufacture; methylated spirit for fuel; alcohol fuel; fuel with an alcoholic base; firelighters in the nature of kindling woods; firewood; charcoal for fuel; candles; tapers; coal briquettes; peat briquettes as fuel; wood briquettes; combustible briquettes; vaporized fuel mixtures; coal; blocks of peat as fuel; industrial grease; tallow; dust removing preparations; illuminating grease; gas for lighting; lighting fuel; lubricating oil; petrol; diesel oil; gas oil; fuel gas; oil-gas, namely, liquefied petroleum; gasoline; lubricating graphite; moistening oil in the nature of lubricating oils; kerosene; lubricating grease; paraffin; petroleum, raw or refined; nightlight candles; dust laying and absorbing compositions for use on unpaved roads; non-chemical additives for fuels, namely, carburants; motor fuel; benzene fuel; benzol fuel; combustible oil; additives, non-chemical, to motor-fuel; oils and greases for use as preservatives for leather; industrial oil; solidified gases being fuel; solidified gas being fuel; cutting fluids; oils for paints, namely, mineral, vegetable, soybean oil for use in the manufacture of paint; motor oil; perfumed candles; ethanol fuels; tinder; fuel oil

CLASS 5: Materials for dressings, namely, plasters for medical purposes; disinfectants; preparations for destroying vermin; fungicides, herbicides; adhesive plasters for medical purposes; sticking plasters for medical purposes; antiseptic cotton; aseptic cotton; bandages for dressings; preparations for the treatment of burns; cotton for medical purposes; medical dressings; gauze for dressings; absorbent cotton for medical purposes; rat poison; first-aid boxes, filled; filled first aid kits; adhesive tapes for medical purposes; adhesive bands for medical purposes; eyepatches for medical purposes; cooling sprays for medical purposes; medicated eye-washes; cotton swabs for medical purposes; cotton sticks for medical purposes

CLASS 6: Metal building materials, namely, cladding boards, ceiling boards and floor boards; transportable buildings of metal; nonelectric cables and wires of common metal; ironmongery, small items of metal hardware, namely, springs, washers, nuts; pipes and tubes of metal; metal safes; steel alloys; steel wire; steel sheets; steel tubes; steel pipes; nozzles of metal, namely, metal non-automatic fueling nozzles, metal wash down spray nozzles for commercial and industrial use; aluminum; aluminum wire; anchor plates of metal; tie plates, not being parts of machines; latch bars of metal; poles of metal; traps for wild animals; braces of metal for handling loads; harness of metal for handling loads; braces of metal for load handling; harness of metal for load handling; cashboxes of metal; silver solder; silver-plated tin alloys; safes, namely, metal strong boxes; door stops of metal; gate stops of metal; washers of metal; screw rings of metal; strap-hinges of metal; barbed wire; box fasteners of metal, namely, bolts, nails, rivets, screws; bolts of metal; bottles, namely, metal containers for compressed gas or liquid air; brazing alloys; cable joints of metal, non-electric; cable linkages of metal, non-electric; padlocks; shims; containers of metal for storing acids; safety cashboxes; chains of metal; safety chains of metal; couplings of metal for chains; ducts and pipes of metal for central heating installations; pegs of metal; cotter pins of metal; metal keys for locks; nails; tacks nails; metal brads; wall plugs of metal; tin cans, sold empty; containers of metal for the storage and transportation of goods; guard rails of metal; anvils; elbows of metal for pipes; cramps of metal, namely, crampons; crampons of metal, namely, cramps; pot hooks of metal; metal hardware, namely, hooks; wire of common metal; copper, unwrought or semi-wrought; copper rings; tubing of metal; containers of metal for compressed gas or liquid air; door scrapers in the nature of metal foot scrapers for attaching to doors; metal foot scrapers; iron, unwrought or semi-wrought; screws of metal; brackets of metal for building; rails of metal; iron wire; fittings of metal for building, namely, stair nosing of metal; hardware, namely, white metal pins; eye bolts; metal screw rings; locks of metal, other than electric; crampons climbing irons; grease nipples; gratings of metal; grilles of metal; spring locks of metal, other than electric; name badges of metal for vehicles; filings of metal; latches of metal; buildings, transportable, of metal; tool handles of metal; ferrules of metal for handles; pipe muffs of metal; handling pallets of metal; transport pallets of metal; steps ladders of metal; porches of metal for building; wire cloth; wire gauze; vice claws of metal; baskets of common metal; signaling panels, non-luminous and non-mechanical, of metal; clothes hooks of metal; metal lock bolts; posts of metal; metal hardware, namely, springs; pulleys of metal, other than for machines; rivets of metal; gates of metal; door bolts of metal; rings of common metal for keys; platforms, prefabricated, of metal; hardware of metal, small,

namely, bolts, nails, rivets, screws; signs, non-luminous and non-mechanical, of metal, for roads; junctions of metal for pipes; wire stretchers metal tension links; packaging containers of metal; storage tanks of metal; reservoirs of metal; window sills of metal; signs, non-luminous and nonmechanical, of metal; locks of metal for vehicles; gate, window, door stops of metal; soldering wire of metal; valves of metal, other than parts of machines; metal flat bolts; anvils portable; tension links of metal; titanium, latticework of metal; trellis of metal; tungsten iron and ores; pipework of metal; vanadium; ferrules of metal for canes and walking sticks; zirconium; balls of steel; fittings of metal for compressed air ducts; wire of common metal alloys, except fuse wire; anchors; reinforcing materials of metal for pipes; troughs of metal for mixing mortar; bird baths structures of metal; broom handles of metal; beacons of metal, nonluminous; vice benches of metal; bands of metal for tying-up purposes; wrapping or binding bands of metal; thread of metal for tying-up purposes; barrels of metal; casks of metal; building materials of metal, namely, metal countertops for further installation; bicycle parking installations of metal; boxes of common metal; plugs of metal; bungs of metal; sealing caps of metal; buckles of common metal hardware; bottle closures of metal; bottle fasteners of metal; knobs of metal; rods of metal for brazing; rods of metal for brazing and welding; rods of metal for welding; straps of metal for handling loads; belts of metal for handling loads; straps of metal for load handling; slings of metal for handling loads; paint spraying booths of metal; booths of metal for spraying paint; collars of metal for fastening pipes; clips of metal for cables and pipes; binding screws of metal for cables; greenhouse frames of metal; door openers, non-electric; hinges of metal; drain traps valves of metal; partitions of metal for building; casings of metal for oil wells; containers of metal for liquid fuel; ropes of metal; knife handles of metal; angle irons of metal; metal hardware, namely, hooks for slate; copper wire, not insulated; reels of metal, non-mechanical, for flexible hoses; towel dispensers, fixed, of metal; water-pipe valves of metal; scaffolding of metal; ladders of metal; binding bands of metal; nuts of metal; branching pipes of metal; fences of metal; winding spools of metal, non-mechanical, for flexible hoses; signboards of metal; props of metal for buildings; sheets and plates of metal for buildings; scythe handles of metal; locks of metal for bags; stretchers for metal bands, namely, tension links of metal; furnace fireguards of metal; closures of metal for containers; crash barriers of metal for roads; tool chests of metal; bins of metal; identity plates of metal; registration plates of metal; number plates of metal; advertisement columns of metal; hoppers of metal, non-mechanical; letters and numerals of common metal, except type; tool boxes of metal, empty; tool chests of metal, empty; boots, namely, metal wheel clamps; wire rope; insect screens of metal; common metals in powder form; refractory construction materials of metal; prefabricated houses kits of metal; trays of metal, namely, metal packaging trays, tool and tool accessory trays made of metal sold empty and parts and fittings therefor, metal cable trays used in building construction; screw tops of metal for bottles; metal window openers, nonelectric; metal window closers, non-electric; step stools of metal; common metals and their alloys, unwrought or semi-wrought; goods of common metal not included in other classes, namely, door knobs, works of art; metal hand-operated air hose reels; cotter pins of metal; lock cylinders of metal for gas; fire safe cabinets of metal; fuel cans of metal; hose clips of metal; key cabinets not furniture of metal; ladder hooks of metal; lockable boxes metal for cash and valuables; metal crash barriers; metal ladders; mobile steps ladders of metal; nails; oil drainage containers of metal; metal padlocks; platforms of metal; pulleys of metal, other than for machines; racks other than furniture in the nature of metal structures for bicycle storage; ramps of metal; metal scaffolding; metal-security cabinets other than furniture; general purpose storage units of metal; empty tool storage containers of metal; vehicle axle stands of metal, support stands; waste bins large of metal for industrial use; welding wire of metal; metal working platforms structures; fitted tool storage boxes of metal, sold empty

CLASS 7: Machine tools for compacting powder materials, crushing rock, crushing or compacting metals; agricultural implements other than hand-operated, namely, cultivators, harvesters, disk harrows, seeders; machines for automotive, building, vehicle recovery, cleaning, woodwork and home improvement and maintenance purposes; machine tools for compacting powder materials, crushing rock, crushing or compacting metals; air compressors; Air-operated power tools, namely, jacks for lifting loads; air filters for mechanical purposes; mechanical air hose reels; air powered tools, namely, impact wrenches, ratchet wrenches, drills, grinders, orbital sanders; compressed air pumps; apparatus for clamping workpieces parts of machines, namely, clamps for use in the precision clamping of work pieces; apparatus for cleaning and degreasing, namely, spray chambers for cleaning and degreasing surfaces

and workpieces; electric arc welding apparatus; machines for inserting automobile chassis fasteners and for straightening automobile body parts; band saw blades for machines; power band saws; power operated saws; bench grinders; grinders; Industrial machine bench press, other than exercise apparatus; body straighteners, namely vehicle body and frame alignment machines; brushes being parts of motors, generators and dynamos; power-operated tools, namely, electric cable cutters; machine parts namely, couplings for pneumatic hoisting apparatus; cranes; crushers machines for industrial purposes; metal working machines, namely cutters; dies for machine tools; discs for cutting for use with power tools; drill bits for rotary power tools; drill chucks for power drills; drilling machines; power-operated tools, namely, drills; drum handling machines; electric jacks; electric power tools, namely, drills, routers, circular saws; electric pumps; electric vacuum cleaners; electric welding machines; electrically powered hand tools, namely, drills, routers, circular saws; electronic starters for engines; cleaning machines for gas turbine and combustion engines; electric fluid pumps; combustion engine fuel nozzles; fuel pumps for land vehicles; gas-operated blow torches; gas welding apparatus; gas welding machines; wind-powered, electricity, Steam-operated power generators; grinding discs being parts of machines; hand held cordless power tools, namely, drills, screwdrivers, routers, circular saws, sanders; hand-held tools, other than hand-operated, namely, drills, routers, screwdrivers, circular saws, sanders; high pressure washers; hoists; hydraulic machines for use in the repair of vehicle bodies; hydraulic power tools, namely, lifting jacks; hydraulically operated benches for the repair of vehicle bodies; power jacks; lathes; lifting jacks other than hand-operated; lifting work platforms; power lifting ramps; power-operated lifts for moving, parking and storing land vehicles; power ramps for loading luggage on to airplanes, freight into vehicles; lubricators, namely, power-operated lubricant dispensers for machines; machine stands; machines for changing tires; machines for the maintenance and repair of vehicles; manual chain block hoists; mechanical presses for industrial use; mechanical tools, namely, mechanical spreaders, mechanical lifters and joists sold as a unit; mechanically operated hand tools, namely, drills, screwdrivers, routers, circular saws, orbital sanders; mechanically operated tools, namely, mechanical discharging hoppers; milling machines; mortising machines; nailing machines; paint spraying guns; plasma cutting machines; plasma welding machines; plastics welding machines; platform truck lifts; pneumatic air tools, namely, drills, screwdrivers, rivet hammers, saws; pneumatic jacks; pneumatic power tools, namely, drills, screwdrivers, rivet hammers; portable air tools, namely, drills, screwdrivers, rivet hammers, saws; portable electric meat, coffee grinders; power operated jacks; power operated tools for use in vehicle maintenance; power tools, namely, drills, routers, circular saws, screwdrivers; pulleys being parts of machines; rammers being machines; riveter as air powered tools; rotary tools, namely, brushes for machines; sand blasting machines; electric sanders; power saw blades; electric screw extractors; dust, oil, centrifugal separators; shot blasting machines; gas-operated soldering apparatus; submersible pumps; electric tile cutters; tool bits for machines; tool bits for use in power operated hand tools; machine tools for oiling motor vehicles; machine-tools for use in the maintenance of electrical installations; electronically and power-operated tools, namely, torque spanners; power-operated torque wrenches incorporating apparatus for sensing; power-operated torque wrenches incorporating electronic apparatus, namely, torque converters; pneumatically operated tire inflating machines for garage installations; vehicle trolley lifting jacks other than hand-operated; welding apparatus operated by oxyacetylene; winches; wire welding machines; welding apparatus, gas-operated; woodworking machines; work clamping machine tools; powered polishers; engraving machines; hot air guns, electric; electric staplers being parts of machines; conduit pipe benders machines; power-operated spray guns; spot welding apparatus electric; electric soldering apparatus

CLASS 8: Hand-operated hand tools and implements, namely, screwdrivers, shovels, wrenches, hammers; abrading tools being hand instruments; sharpening stones; needle files; leather strops; awls; cutter bars being hand tools; reamers; reamer sockets; extension pieces for braces for screw taps; palette knives; spatulas being hand tools; bits being parts of hand tools; squares being hand tools; annular screw plates; bow saws; hand-operated nail extractors; lifting jacks, hand-operated; hand drills being hand tools; mortise chisels; holing axes; mortise axes; nail drawers being hand tools; pick hammers; bush hammers; sharpening steels; knife steels; riveting hammers being hand tools; paring irons being hand tools; scissors; tweezers; pickaxes; caulking irons; penknives; stone hammers; jig-saws; drawing knives; nail punches; hunting knives; frames for handsaws; saws being hand tools; shears; shear blades; perforating tools being hand tools; tap wrenches; spanners being hand tools;

wrenches being hand tools; ratchets being hand tools; dies being hand tools; screw stocks being hand tools; screw-thread cutters being hand tools; borers; whetstone holders; axes; planes; hand tools, hand-operated, namely, screwdrivers, shovels, wrenches, hammers; tube cutters being hand tools; cutters; cleavers; razor strops; stamping-out tools being hand tools; stamps being hand tools; milling cutters being hand tools; trowels for gardening; trowels; expanders being hand tools; hand-operated sharpening instruments; Manually-operated blade sharpening instruments; hand tools, namely, drills; secateurs; hand tools, namely, carpenters' augers; embossers being hand tools; razor cases; hollowing bits being parts of hand tools; rakes being hand tools; shovels being hand tools; spades being hand tools; border shears; scythes; hand tools, namely, scythe rings; hand tools, namely, scythe stones; whetstones; irons non-electric being hand tools; glazing irons; replacement parts for hand-operated planes, namely, blades; moulding irons; molding irons; crimping irons; branding irons; gimlets being hand tools; gouges being hand tools; engraving needles; paring knives; grafting tools being hand tools; rabbeting planes; hatchets; choppers knives; hoop cutters being hand tools; adzes being hand tools; insecticide vaporizers being hand tools; insecticide atomizers being hand tools; insecticide sprayers being hand tools; garden tools, hand-operated, namely, trowels, weeding forks, spades, hoes; pruning knives; clamps for carpenters or cooperers; razor blades; blades being hand tools; saw blades being parts of hand tools; levers being hand tools; machetes; mallets being hand tools; hammers being hand tools; sledgehammers; masons' hammers; chisels; metal band stretchers being hand tools; braiders being hand tools; mortars for pounding being hand tools; numbering punches being hand tools; picks being hand tools; rammers being hand tools; hand-operated caulking, grease, staple, ear-piercing guns; centre punches being hand tools; rasps being hand tools; razors, electric or non-electric; pin punches; fire irons; riveters being hand tools; weeding forks being hand tools; hoes being hand tools; saw holders; hackles being hand tools; sickles; edge tools being hand tools; taps being hand tools; augers being hand tools; screwdrivers; priming irons being hand tools; bits for hand drills; tube cutting instruments being hand tools; agricultural implements, hand-operated, namely, broadforks; grindstones being hand tools; sharpening wheels being hand tools; Hand-operated syringes for spraying insecticides; diggers being hand tools; knives; pliers; pincers; nippers; tongs; rams being hand tools; drill holders being hand tools; hand tools, namely, manually operated emery grinding wheels; files being hand tools; punch pliers being hand tools; punches being hand tools; cutting tools being hand tools; guns, hand-operated, for the extrusion of mastics; ditchers being hand tools; scrapers being hand tools; scraping tools being hand tools; vices; hand tools, namely, hand-operated pumps; tool belts being hand tool holders; crow bars; miter boxes being hand tools; fish tapes being hand tools; draw wires being hand tools; wire strippers being hand tools; bench vices being hand implements; non-electric caulking guns; metal wire stretchers being hand tools; scalpels, namely, hobby knives; air pumps, hand-operated; ceramic knives; hand-operated abrasive tools, namely, manually-operated grinding wheels; adaptors for tool bits for hand operated tools; band saw blades for hand operated tools; hand tools, namely, cable cutters; conduit pipe benders hand-operated; hand-operated pipe cutting tools; crowbars; hand-operated cutting tools, namely, box, safety, tile cutters; hand tools, namely, dies; hand-operated cutting tools, namely, discs for cutting; hand-operated abrading tools, namely, discs made of abrasive materials; hand tools for use with drainage rods; parts of hand-operated tools in the nature of drill chucks; electricians' pliers; pliers; folding knives; utility knives; grease guns; hand tools for use with motor vehicles, namely, screwdrivers, spanners, torque wrenches, wrenches; hand-operated jacks; hex keys; jigsaw blades; hand-operated jigsaws; hand-operated log splitters; blades for hand saws; hand tools, namely, tile cutters; tools for use in the maintenance of electrical installations, namely, pliers, wire strippers, wire crimpers, wire cutters, sheath strippers, soldering irons; tools for use in the repair of motor vehicles, namely, pliers, wire strippers, wire crimpers, wire cutters, sheath strippers, soldering irons, hammers; hand-operated vehicle trolley jacks; wrenches; hand tools, namely, engravers in the name of engraving pens; sockets parts for hand operated tools; hand tools, namely, scrapers; hand-operated riveters; saws; handsaws; hammers; hand-operated chisels; hand-operated tools in the nature of staplers, other than for office use; hand-operated pumps for use in emptying drums; hand-operated pumps for use in filling drums

CLASS 9: apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers, recording discs; fire-extinguishing apparatus; reflecting discs for wear, for the prevention of traffic accidents; protection devices for

personal use against accidents, namely, inflatable floatation devices; clothing for protection against accidents, irradiation and fire; batteries, electric, for vehicles; accumulators, electric, for vehicles; battery boxes; accumulator boxes; acidimeters for batteries; hydrometers; plates for batteries; whistle alarms; acoustic sound alarms; sound alarms; acoustic conduits; aerometers; magnets; electromagnetic coils; alarms; alcoholmeters; igniting apparatus, electric, for igniting at a distance; electric apparatus for remote ignition; batteries for lighting; asbestos gloves for protection against accidents; asbestos clothing for protection against fire; ammeters; calibrating rings; fire extinguishers; fire extinguishing apparatus; anodes; anode batteries; high tension batteries; aerials; antennas; anti-glare glasses; anti-dazzle shades; anti-glare visors, namely, anti-glare filters for televisions and computer monitors; electric transformers for electricity; calipers as rules for measuring nuts, lock nuts, and the separation distance between the two measuring points therewithin; fire alarms; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tires; alarm bells, electric; scales; barometers; weighing machines; fire beaters, namely, fire-extinguishing blankets; chargers for electric batteries; electric terminals; pressure indicator plugs for valves; spirit levels; sheaths for electric cables; circular slide rules; calculating machines; slide calipers; jigs measuring instruments; capillary tubes; protective helmets; respiratory masks, other than for artificial respiration; solderers' helmets; heat regulating apparatus; luminous signals in the nature of flashing safety lights; blinkers in the nature of signaling lights; signal bells; thread counters; pedometers; Geiger counters; meters; metronomes; electricity conduits; electricity connectors; electricity junction boxes; contacts, electric; regulating apparatus, electric; monitoring apparatus, electric; converters, electric; retorts for use in high temperature chemical reactions; retorts' stands for scientific or laboratory use; electricity limiters; sockets, plugs and other contacts electric connections; smoke and radon detectors; distance measuring apparatus; range finders; measuring apparatus, namely, clamp meters for measuring electricity; water level indicators; workmen's protective face-shields; electronic distance measuring devices; cables, electric; ducts for holding and spacing electricity conduits; connections for electric lines; couplings, electric; connections, electric; relays, electric; transmitters of electronic signals; transmitting sets for telecommunication; mechanical signs; thermostats; steam, pressure gauges; gasoline gauges; petrol gauges; spark-guards for protection against fire; refractometers; light meters, namely, exposure meters for photographic devices; wires, electric; magnetic wires; plumb bobs; plumb lines; filters for respiratory masks; battery chargers; fuses; radios; galvanic batteries; gloves for protection against accidents; gas testing instruments; gasometers measuring instruments; rulers measuring instruments; grids for batteries; clothing for protection against fire; garments for protection against fire; audio- and video-receivers; identification threads for electric wires; identification sheaths for electric wires; slope indicators; gradient indicators; inclinometers; quantity indicators; vacuum gauges; data processing apparatus; mirrors for inspecting work; inverters electricity; optical lanterns; optical lamps; signal lanterns; lasers, not for medical purposes; logs measuring instruments; magnifying glasses optics; signs, luminous; spectacles; instruments containing eyepieces; surveyors' levels; pressure gauges; protective masks; carpenters' rules; precision measuring apparatus, namely depth and distance gauges, digital ammeters and voltmeters, current and charge meters; measuring instruments, namely depth and distance gauges, digital ammeters and voltmeters, current and charge meters; meteorological instruments; rules as measuring instruments; scientific and technical apparatus, namely optical mirrors; navigational instruments for vehicles and boat; batteries, electric; accumulators, electric; levels instruments for determining the horizontal; levelling instruments; observation instruments, namely, cameras; ohmmeters; optical apparatus and instruments, namely, optical mirrors; computers; oscillographs; micrometers; micrometer gauges; signaling panels, luminous or mechanical; weighing apparatus and instruments; steering apparatus, automatic, for vehicles; eyeglasses; pipettes; ear plugs for divers; bells warning devices; weights; pressure measuring apparatus; pressure indicators; vehicle radios; protractors as measuring instruments; telephone apparatus; refractors; respirators for filtering air; rheostats; wire connectors electricity; locks, electric; vehicle breakdown warning triangles; sirens; sound transmitting apparatus; screw-tapping gauges; remote control apparatus for radios, televisions, stereos; binoculars; telescopes; temperature indicators; time recording apparatus; thermostats for vehicles; revolution counters; telecommunication transmitters; marking gauges for joinery purposes; verniers calipers; viscosimeters; theft prevention installations, electric; voltage regulators for vehicles; voltmeters; fuse wire; wires of metal alloys fuse wire; anticathodes; dog whistles; anti-theft warning apparatus specially adapted to personal electronic devices, namely, laptops, PC

tablets; luminous beacons; electric buzzers; directional compasses; cathodes; solar batteries; copper wire, insulated; tripods for cameras; knee-pads for workers; readers data processing equipment; safety restraints, other than for vehicle seats and sports equipment; scanners data processing equipment; smoke detectors; junction sleeves for electric cables; diagnostic apparatus, not for medical purposes; electronic tags for goods; fire blankets; shoes for protection against accidents, irradiation and fire; starter cables for motors; sunglasses; time clocks time recording devices; goggles for sports; protective helmets for sports; downloadable electronic publications in the nature of books, brochures, and catalogues in the field of garage and workshop tools and equipment, body shop tools and equipment, agricultural tools and equipment, janitorial tools and equipment, engineering tools and equipment, and vehicle service tools and equipment; downloadable computer software in the nature of applications for mobile phones, smart phones, and tablets, namely, software that enables users to purchase garage and workshop tools and equipment, body shop tools and equipment, agricultural tools and equipment, janitorial tools and equipment, engineering tools and equipment, and vehicle service tools and equipment; navigation apparatus for vehicles on-board computers; coaxial cables; fiber optic cables; covers for electric outlets; headphones; radio pagers; satellite navigational apparatus; voltage surge protectors; walkie-talkies; light-emitting electronic pointers; hourglasses; hands free kits for phones; Global Positioning System GPS apparatus; light-emitting diodes LED; traffic cones; temperature indicator labels, not for medical purposes; electrical adapters; solar panels for the production of electricity; digital signs; ammeters; articles of clothing for protection against accident; automotive electric batteries; automotive performance testing apparatus; battery charging equipment; battery starters; battery testing apparatus; beacons; bore testing instruments; electric buffers, namely, computer buffers; cable reels nonmechanical incorporating electrical sockets; spring calipers measuring instruments; locking calipers measuring instruments; sliding calipers measuring instruments; diagnostic apparatus for use in vehicle repair; diesel injector testers; digital multimeters; ear plugs for divers; electric phone extension leads; electric inverters; electronic transformers; engine diagnostic apparatus for identifying refrigerant type and purity in automobile air conditioning systems, for identifying engine faults; protective eyeglass shields; spark plug feeler gauges; fire blankets; fire extinguishers; angle, depth, fuel, gasoline, pressure gauges; gloves for protection against accidents; diving, sports, safety goggles; knee pads for protection against injury not adapted for use in playing sports; lenses for use by welders; levels; light pens; magnifying glasses; electric mains testers, namely, circuit testers; manually operated electric cable reels being electric connections; masks for protecting the face other than sporting apparatus; measuring tapes; micrometers; moisture meters; optical headlamp adjustment apparatus; protective eye shields for welders; protective hats for the prevention of accident or injury; refractometers; respiratory masks other than for artificial respiration; safety face protection shields for use in industry; solar panels for electricity generation; spring calipers, namely, electronic sliding calipers; electronic, magnetic, non-electronic stud detectors; surge protectors; vehicle fuses; welding helmets; wheel alignment measuring apparatus; stethoscopes for use by motor mechanics; protective work clothing, footwear and headgear; protective work gloves

CLASS 10: Surgical, medical, dental and veterinary apparatus and instruments, namely, scalpels, blades, staplers; scalpels; syringes for injections; thermal packs for first aid purposes; supporting bandages, namely, slings; ear protection devices, namely, ear plugs for sleeping, swimming and noise reduction; temperature indicator labels for medical purposes; compression garments; first aid medical apparatus for sale in kit form comprising thermometers, scissors, plasters for medical purposes, dressings for medical purposes, disinfectants, supporting bandages, namely, slings, medicated eye washes and sprays, eye baths; ear defenders, namely, hearing protectors without the ability to reproduce or transmit sound

CLASS 11: heat accumulators; acetylene burners; acetylene generators; ventilation hoods; air deodorizing apparatus, namely, electric air deodorizers; air cooling apparatus; filters for air conditioning; air reheaters, namely, heat generators; electric hot air dryers; air conditioning installations; air filtering installations; gas lighters, namely, friction lighters for igniting gas; lighters, namely, utility lighters for lighting grills, fireplaces, and candles; light bulbs; electric light bulbs; arc lamps; electric lamps; refrigerating cabinets; lights for vehicles; headlights for automobiles; lamps; lanterns for lighting; lamp mantles; lamp casings; incandescent burners for lamps; burners for lamps; bicycle lights; kilns; hydrants; radiator caps; electric pocket

torches for lighting; pocket searchlights; anti-splash tap nozzles; fans for air-conditioning apparatus; heating apparatus, namely, work area heating apparatus; plumbing fittings, namely, cocks; spigots for pipes; faucets for pipes; heating installations, namely, heat regenerators; light bulbs for directional signals for vehicles; carbon for arc lamps, namely, filaments for electric lamps; heating installations; air conditioners for vehicles; heaters for vehicles; electric heating apparatus, namely, space heating apparatus; humidifiers for central heating radiators; heating elements; immersion heaters; drying apparatus for use in air drying for flooded buildings; air conditioning apparatus; cycle lights; defrosting apparatus for vehicles; light diffusers; sockets for electric lights; water purification installations; water filtering apparatus; cooling installations for water; water sterilizers; heat exchangers, not parts of machines; lighting apparatus and installations; ceiling lights; radiators, electric; cooking stoves; forage drying apparatus; evaporators for air conditioners; filaments for electric lamps; portable forge furnaces; fire bars, namely, fireplaces; refrigerating apparatus and machines; gas burners; gas lamps; ice boxes; ice chests; lamp globes; globes for lamps; hot plates; grills for cooking food, namely, multi-purpose, electric countertop food preparation apparatus for cooking, baking, broiling, roasting, toasting, searing, browning, barbecuing and grilling food; oil lamps; LED safety lamps; lamp reflectors; fairy lights for festive decoration; hand-washing bowls as parts of sanitary installations; luminous tubes for lighting; magnesium filaments for lighting; miners' lamps, namely, safety lamps for underground use; electric lights for Christmas trees; electric radiators for heating buildings; oil burners for industrial and commercial use; vehicle headlights; heating plates, namely, hot plates; electric torches for lighting; flashlights torches; searchlights; cooling installations and machines for cooling rooms and the people therein; water heaters; vehicle reflectors; refrigerating appliances and installations; cooling appliances and installations; washers for water taps; drying apparatus and installations for use in air drying for flooded buildings; sterilizers; lighting apparatus for vehicles; ventilation air-conditioning installations and apparatus; ventilation air-conditioning installations for vehicles; heating apparatus for defrosting windows of vehicles; light bulbs for directional signals of automobiles; lights for automobiles; automobile lights; street lamps; standard lamps; barbecues; heat pumps; solar thermal collectors for heating; refrigerators; heating filaments for electric lamps; electric fans for personal use; disposable sterilization pouches, not for medical use; fabric steamers; light-emitting diodes (LED) lighting apparatus, namely, LED lighting fixtures; apparatus for air cooling purposes; air conditioning apparatus; electric air dryers; dehumidifiers; electric lamps; electric torches for lighting; floodlights; fluorescent lighting fixtures; fume extractor in the nature of range hood for air breathing; hand torches, namely, flashlights; electric space heaters for people; lighting apparatus, namely, lighting installations; radiators; electric room fans; welding fume extraction installations, namely, air filtering machines; light reflectors

CLASS 12: Bicycle stands; bicycle racks for vehicles; car mechanics' creepers for use in inspecting the underneath of cars; fitted seat covers for vehicles; fitted covers shaped for vehicles; fitted caravan covers; fitted motorcycle covers; covers for spare tires; cycle carriers for use on vehicles; pallet transfer trucks; platform trucks; protecting covers fitted for vehicles; sack trucks; torque converters for land vehicles; towing apparatus for vehicles, namely, vehicle tow bars; trailers; vehicle covers fitted; fitted vehicle covers shaped; vehicle foot tire and air pumps; anti-theft wheel clamps for vehicle in the nature of steering wheel locks; anti-theft wheel clamps for vehicle wheels in the nature of wheel locks; wheel covers; anti-theft locks for use on automobile steering wheels; apparatus for towing vehicles, namely, tow balls, tow hooks, tow bars

CLASS 20: clips, not of metal, for cables and pipes; hinges, not of metal; display stands; containers, not of metal, for liquid fuel; non-modular containers, not of metal, for use in transportation and storage for commercial or industrial use; tool and tool accessory trays, not of metal, sold empty and parts and fittings therefor; knife handles, not of metal; towel dispensers, fixed, not of metal; towel dispensers, not of metal, fixed; ladders of wood or plastics; packaging containers of plastic; reels, not of metal, non-mechanical, for flexible hoses; winding spools, not of metal, non-mechanical, for flexible hoses; work benches; scythe handles, not of metal; closures, not of metal, for containers; wall-mounted gun racks; free-standing portable gun racks; crates; number plates, not of metal, for sporting purposes; registration plates, not of metal; latches, not of metal; tool handles, not of metal; steps ladders, not of metal; identity plates, not of metal; clothes hooks, not of metal; locks, not of metal, for vehicles; shelves for storage; lockers; keyboards for hanging keys; wickerwork;

troughs, not of metal, for mixing mortar; bins, not of metal; broom handles, not of metal; vice benches, not of metal; barrels, not of metal; plugs, not of metal, namely, non-metallic closures for containers; bungs, not of metal, namely, locking plastic cap that covers bung openings in plastic and metal containers for tamper evidence; bottle stoppers, not of metal; sealing caps, not of metal; screws, not of metal; rivets, not of metal; dowels, not of metal; pegs pins, not of metal, namely, cotter pins; pins pegs, not of metal, namely, cotter pins; bolts, not of metal; bins of wood or plastic; boxes of wood or plastic; drain traps valves of plastic being other than machine parts; plugs, namely, dowels, not of metal; wall plugs, not of metal; water-pipe valves of plastic; locks, other than electric, not of metal; baskets, not of metal, for transporting goods for commercial purposes; signboards of wood or plastics; plastic key cards, not encoded and not magnetic; saw horses; knobs, not of metal; door bolts, not of metal; step stools, not of metal; split rings, not of metal, for keys; non-metallic bins; metal cabinets being storage units for use on work sites; cable ties not of metal; non-metallic fuel cans; non-metallic hose clips for securing hoses; non-metallic ladders; non-metallic oil drainage containers; plastic inserts in the nature of trays for tool boxes; non-metallic stands for barrels; non-metallic tool storage containers; work benches; non-metallic fire safe cabinets; lockable boxes non-metallic for cash and valuables; fitted tool boxes, not of metal, sold empty; none of the aforesaid being beds, mattresses, pillows, headboards, bases for beds or mattress foundations or parts and fittings thereof

CLASS 21: Household or kitchen utensils and containers, namely, kitchen tongs; combs and sponges for household purposes; brushes, except paintbrushes, namely, clothes, hair, nail and tooth brushes; brush-making materials; articles for cleaning purposes, namely, cleaning cotton; steel wool; glassware, porcelain and earthenware, namely, beverage glassware, jars for jams and jellies of earthenware, porcelain and glass; nozzles for watering hose; watering devices, namely watering pots and funnels; sprinkling devices, namely, watering pots, sprinkling trucks; sprinklers for watering grass, flowers and plants; watering cans; brooms; non-electric carpet sweepers; glass flasks containers; buckets; pails; glass bowls; bottles sold empty; insulating flasks; vacuum bottles; bottle openers, electric and non-electric; brush goods, namely, cleaning brushes for household use, brushes for pets; fly swatters; rags cloth for cleaning; cloths for cleaning; rags for cleaning; apparatus for wax-polishing, non-electric, namely, floor polish applicators mounted on mop handles; glasses receptacles, namely, glass mugs, trays for domestic purposes, glass carafes; polishing leather; cleaning instruments, hand-operated, namely, cleaning mitts of fabric; dusting apparatus, non-electric, namely dusting brushes and cloths; funnels; buckets made of woven fabrics; mops; scrubbing brushes; insect traps; scouring pads; pads for cleaning; strainers for household purposes; nozzles for watering cans; roses for watering cans; polishing apparatus and machines, for household purposes, non-electric, namely, non-electric carpet sweepers; garbage cans; refuse bins; trash cans; coolers, namely, ice pails; rat traps; containers for household or kitchen use; mouse traps; aerosol dispensers, not for medical purposes; abrasive pads for kitchen purposes; non-electric portable cold boxes; non-electric portable coolers; chamois leather for cleaning; buckskin for cleaning; skins of chamois for cleaning; non-electric wax-polishing appliances for shoes, namely, shoe polish applicators not containing shoe polish, shoe polishing mitts; cotton waste for cleaning; jugs; feather-dusters; dusting cloths rags; flasks; gloves for household purposes; polishing gloves; cloth for washing floors; gardening gloves; mop wringers; waste paper baskets; electric devices for attracting and killing insects; fly traps; car washing mitts, cleaning, dusting and polishing cloths; cleaning brushes for household use; brooms; household gloves for cleaning; waste bins for household use; wire brushes, not being machine parts

CLASS 22: Ropes and string; commercial nets; tents, awnings of textile or synthetic materials and tarpaulins; sacks, namely, sacks for the transportation or storage of material in bulk; ropes, not of metal; rope ladders; awnings of textile; vehicle covers, not fitted; wrapping or binding bands, not of metal; braces, not of metal, for handling loads; harness, not of metal, for handling loads; straps, not of metal, for handling loads; belts, not of metal, for handling loads; slings, not of metal, for handling loads; cables, not of metal; packing rope; awnings of synthetic materials; bindings bands, not of metal; heavy duty bags for recycling and disposal of building materials; covers not shaped for vehicles, namely, tarpaulins; vehicle covers not fitted; devices in form of elasticated rope for securing goods on vehicles; car towing ropes

CLASS 25: Clothing, namely, overalls, working overalls and coveralls, footwear, headgear, namely, hats; non-slipping soles for footwear; overalls; caps being headwear; boots; tips for

footwear; lace boots; belts as clothing; sweaters; pullovers; jumpers pullovers; shirts; shirt fronts; short-sleeve shirts; hats; headgear for wear by adults; fittings of metal for footwear; ear muffs as clothing; gaiters; trousers; pants; cyclists' clothing, namely, jerseys; gloves as clothing; scarves; scarfs; galoshes; coats; waterproof clothing, namely, jackets and pants; aprons as clothing; wooden shoes; uniforms; paper clothing in the nature of hats for use as clothing items; bibs, not of paper; shoes; clothing of imitations of leather, namely, jackets, pants and aprons; clothing of leather, namely, jackets, pants, aprons; visors being headwear; articles of weather-resistant clothing, namely, rainwear and windbreakers and headgear, namely caps, hats for use in adverse weather conditions; waterproof clothing, namely, jackets and pants; waterproof coveralls; coveralls; waterproof jackets

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 04-01-2016 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1334206 DATED 09-29-2016, EXPIRES 09-29-2026

SEC.2(F)

SER. NO. 79-202,997, FILED 09-29-2016

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**
