SAMSUNG

Reg. No. 5,899,721

Registered Nov. 05, 2019

Corrected May 05, 2020

Int. Cl.: 5, 10, 12, 44

Service Mark

Trademark

Principal Register

Samsung C&T Corporation (KOREA, REPUBLIC OF CORPORATION)
123, Olympic-ro 35-gil,
Songpa-gu Seoul
REPUBLIC OF KOREA

CLASS 5: Pharmaceutical products for the treatment of colorectal cancer; biopharmaceuticals for the treatment of cancer; antibodies for medical purposes; pharmaceutical preparations for the treatment of autoimmune diseases; pharmaceutical preparations for the treatment of arthritis; pharmaceutical preparations for the treatment of diseases of the metabolic system; pharmaceutical preparations for the treatment of cancer; pharmaceutical preparations for the treatment of inflammatory diseases; pharmaceuticals, biosimilars and biological preparations for medical purposes for treatment of cancer, immunologic disorders, autoimmune diseases, arthritis, inflammatory diseases, central nervous system disorders, and metabolic diseases; pharmaceutical preparations for the treatment of leukemia; vaccines against pneumococcal infections; pharmaceutical preparations for ocular use; pharmaceutical drug, namely, pharmaceutical preparations for the treatment of anemia; biochemical preparations for medical purpose for the treatment of cancer, immunologic disorders, autoimmune diseases, arthritis, inflammatory diseases, central nervous system disorders, and metabolic diseases; nutraceutical preparations for therapeutic or medical purposes for the treatment of cancer, immunologic disorders, autoimmune diseases, arthritis, inflammatory diseases, central nervous system disorders, and metabolic diseases; nutraceuticals for use as dietary supplements

CLASS 10: Respiration monitors; apparatus for monitoring patients and analyzing arrhythmias, namely, medical apparatus for monitoring vital signs of patients; equipment for respiratory technology, namely, respiratory masks for medical purposes; apparatus for the treatment of deafness for hearing-impaired children, namely, cochlear implants; medical hearing and speaking equipment for the hearing-impaired children, namely, hearing aids, assistive listening devices for the hearing impaired, transmitters and receivers for use with hearing aids for the deaf and hard of hearing; medical equipment for the hard of hearing, for diagnosis and therapy purposes, namely, audiometers, hearing aids for the deaf, therapeutic instruments in the nature of hearing aids for the hearing impaired, assistive listening devices for the hearing impaired, and hearing amplifiers for medical use; equipment for the localization of tumours, namely, mammography apparatus in the nature of medical image processors, linear accelerators for tumor radiotherapy, tumor localization devices for medical purposes, and dosage planning devices being drug delivery devices and systems for tumor radiotherapy; apparatus, namely, drug delivery devices and systems for dosage planning and the documentation of tumour radiotherapy; radiotherapy apparatus, namely, linear accelerators for tumour radiotherapy; medical apparatus and equipment for recording, processing, storing and reproducing medical images, namely, medical imaging apparatus, medical x-ray apparatus medical ultrasound apparatus, medical imaging transducers; point-of-care diagnostic apparatus, equipment and instruments for medical purposes, namely, portable health monitoring devices comprised of monitors, sensors, and detectors that detect health conditions and diseases in the nature of cancers, blood abnormalities, immune diseases, neurological diseases, cardiovascular diseases, infectious diseases, viral diseases and genetic diseases; protective devices and protective screens for protecting against exposure to x-rays, all for medical purposes, namely, patient x-ray radiation shields, x-ray aprons, x-ray shields, lead gloves, medical safety glasses; apparatus for ECG long-term storage and computerized

Andrei Iancu

Director of the United States
Patent and Trademark Office

ECG evaluation electroencephalography, namely, electrocardiographs, electrocardiograph recorders, and electrocardiograph apparatus incorporating medical computer software to record, process and analyze ECG data; electro-medical apparatus and equipment for x-ray diagnostics and x-ray therapy, namely, x-ray diagnostic apparatus for medical purposes; medical equipment for digital image recording, for contrast medium analysis with real time image reproduction, namely, electromagnetic medical diagnostic imaging apparatus; urine analysis apparatus for medical purposes; measuring apparatus for cardiac catheterization for medical purposes; medical x-ray CT scanners; peripheral devices of medical CT scanners, namely, integral component of the image chain of a CT scanner for capturing X-rays and converting them to information that creates the image; dental x-ray CT scanners; structural parts and fittings of dental x-ray CT scanners; magnetic resonance imaging (MRI) apparatus for medical purposes; gloves for medical purposes; patient monitoring sensors and alarms; biometric medical scanners for health check and diagnosis, namely, sensors for medical use to be worn by a human to gather human biometric data; biometric identification medical apparatus for health check and diagnosis, namely, sensors for medical use to be worn by a human to gather human biometric data

CLASS 12: Connected vehicles, namely, land vehicles connected to internet; driverless cars being autonomous cars; structural parts and fittings for autonomous vehicles; electric reversing alarms for vehicle incorporating parking assistance apparatus with foreview and rearview sensors, namely, back-up warning alarms for vehicles; anti-theft warning apparatus for motor cars with software and hardware for internet of things

CLASS 44: Medical information services provided via the internet; medical and pharmaceutical consultation; hygienic and beauty care for humans and animals; cosmetic and medical services for the care of the skin; dentistry services; conducting physical examination for medical purposes; hospital services; medical clinics; telemedicine services; providing health information; medical equipment rental; conducting physical examination for medical purposes via the internet

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 09-14-2018 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1449910 DATED 09-17-2018, EXPIRES 09-17-2028

The English translation of "SAMSUNG" in the mark is "THREE STARS".

SER. NO. 79-251,914, FILED 09-17-2018

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
