**Reg. No. 6,436,406**

**Registered Aug. 03, 2021**

**Int. Cl.: 7, 9, 11, 37, 42**

**Service Mark**

**Trademark**

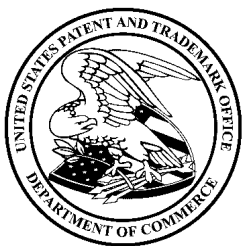

**Principal Register**

Oerlikon Textile GmbH & Co. KG (GERMANY GMBH & CO. KG)  
Leverkuser Str. 65  
42897 Remscheid  
FED REP GERMANY

CLASS 7: Machines and apparatus for the automation of melt spinning machines and textile machines, namely, industrial robots for handling threads, tubes and bobbins, industrial robots for handling maintenance work; mechanical transporters, electromechanical transporters, pneumatic transporters, hydraulic transporters, aero-mechanical conveyors, rail conveyors, belt conveyors, chain conveyors, roller conveyors, horizontal conveyors, and vertical conveyors, all being machines for transporting tubes and bobbins; ball transfer units and roll transfer units for tubes and bobbins, sorting machines for bobbins and tubes, bobbin packing machines; mechanical apparatus, parts and components for the production of thermoplastics, namely, plastic processing machines, structural parts and components for the aforementioned goods

CLASS 9: Electrical apparatus for the automation of melt spinning machines and textile machines, in particular, mechanical coding units, electronic coding units, RFID coding units, bar code printers, readers for bar, optical, mechanical, electrical, and RFID codes, inspection devices in the nature of optical and electro-optical inspection apparatuses for industrial use, and electrical and mechanical inspection machines for the physical inspection of melt spinning machines and textile machines for industrial use; visualisation devices in the nature of cameras and electronic display screens for monitoring automated industrial processes; electric control devices for machines, namely, electric control panels, electric installations for the remote control of industrial operations, electric control devices for the on-site control of industrial operations; downloadable computer software for the automation of melt spinning machines and textile machines; recorded computer software for the automation of melt spinning machines and textile machines; downloadable artificial intelligence computer software and hardware for industrial process monitoring and control; recorded artificial intelligence computer software and hardware for industrial process monitoring and control; downloadable machine learning computer software; recorded machine learning computer software; electrical equipment and components for monitoring, inspection and control of chemical plants for plastics production, namely, electric installations for the remote control of industrial operations, electric control devices for the on-site control of industrial operations, electric control panels; downloadable computer software for monitoring, inspection and control of chemical plants for plastics production; recorded computer software for monitoring, inspection and control of chemical plants for plastics production

CLASS 11: Plants for chemical processing in plastics production for the man-made

Performing the Functions and Duties of the  
Under Secretary of Commerce for Intellectual Property and  
Director of the United States Patent and Trademark Office

fibre industry, namely, heated polymerisation plants for the production of thermoplastic polymer, heated polycondensation plants for the production of thermoplastic polymer; apparatus, parts and components for industrial treatment plants for the further processing of thermoplastics, namely, steamers for chemical processing, distillers for chemical processing, drying apparatus for chemical processing, heat pumps for chemical processing; apparatus, parts, components and industrial treatment and recycling plants for plastics consisting thereof, namely, steamers for chemical processing, distillers for chemical processing, drying apparatus for chemical processing, heat pumps for chemical processing

CLASS 37: Construction, assembly as part of installation, installation and maintenance of chemical plants for plastics production

CLASS 42: Engineering services and engineering consultancy for the automation of melt spinning machines and textile machines; engineering services and engineering consultancy for the design, planning, construction, installation supervision, commissioning, inspection, maintenance and repair of chemical plants for plastics production

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 10-25-2019 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1546087 DATED 02-28-2020, EXPIRES 02-28-2030

SER. NO. 79-291,885, FILED 02-28-2020

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**
