NINTENDO

---

## Changed

- Issued Examiner's Amendment and Entered Changes

Dear Ms. Lorenzo,

I would like to request an Examiner's Amendment to address the objections raised in the attached Office Action issued for US Serial No. 79344950 for the mark NINTENDO. The Office Action raises several objections to the goods and services description.

With one exception, we would like to accept the proposed amendments set forth in the Office Action. The only exception is that instead of amending "*Office requisites, namely, binders and folders*" to read "*Office requisites, namely, **loose-leaf** binders and **file** folders*" as proposed in the Office Action, we would like to amend this wording to read "*Office requisites, namely, **office** binders and **file** folders*"

Please let me know if anything further is needed to place this application in condition for publication, and otherwise please issue the appropriate Examiner's Amendment at your convenience.

Best regards,

**Steven M. Espenshade**
