Patent and Trademark Office

newsletters, all in the field of enterprise resource planning; computer hardware and peripheral devices; Downloadable computer software and computer hardware for the integration of technologies, computer hardware, applications and the Internet of Things; software and computing devices used for hosting of computer devices, software applications, apps, integration platforms and service platforms; Downloadable computer software, applications, computer hardware and computing systems associated with digital marketing, and digital marketing technologies; Downloadable computer software, applications, computer hardware and computing systems associated with business intelligence and context aware systems; computer software for consumer intelligence, social intelligence, the sharing economy, digital security, risk management, and project management

FIRST USE 4-00-2010; IN COMMERCE 4-00-2010

CLASS 16: Printed matter, namely, training manuals concerning computer software; publications, namely, instructional, training, operational, reference and informational brochures, training manuals and newsletters, all in the field of enterprise resource planning

FIRST USE 4-00-2010; IN COMMERCE 4-00-2010

CLASS 35: Retail store services, wholesale store services, and online retail store and wholesale store services featuring computer software and other information technology products; enterprise resource planning; business management assistance; professional business consultancy services; business research; compilation and systemization of information into computer databases; recruitment and personnel management services; provision of personnel, including temporary staff; business consultancy in relation to administration of information technology, namely, cloud computing, internet, web services, Application Programming Interfaces (APIs), project management; provision of marketing services in relation to digital marketing and digital marketing technologies, including software, applications, devices, and computing systems; arranging and conducting business conferences in the field of enterprise resource planning, cloud computing, internet, web services, Application Programming Interfaces (APIs), and information technology

FIRST USE 4-00-2010; IN COMMERCE 4-00-2010

CLASS 41: Education and training, namely, providing classes, seminars, tutorials and workshops in the field of enterprise resource planning, cloud computing, internet, web services, Application Programming Interfaces (APIs), and information technology; arranging and conducting educational seminars, educational tutorials and educational conferences in the field of enterprise resource planning, cloud computing, internet, web services, Application Programming Interfaces (APIs), and information technology; providing non-downloadable electronic publications in the nature of brochures, newsletters and training manuals in the field of enterprise resource planning; arranging and conducting business tutorial sessions and business seminars in the fields of enterprise resource planning, cloud computing, internet, web services, Application Programming Interfaces (APIs), and information technology

FIRST USE 4-00-2010; IN COMMERCE 4-00-2010

CLASS 42: Services in relation to computing devices, software and the Internet, namely, computer consultation and computer software consultation concerning the use of software and the Internet in managing the computing requirements of organizations or individuals; computer software design, development, consultation, installation and maintenance services, including in the field of mobile applications; computer services, namely, management of information technology (IT) systems employed in the areas of enterprise administration, accounting, manufacturing, distribution, retailing, services, rental, project management and costing, maintenance management, forecasting, budgeting, reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales, supply chains, mobility solutions, scheduling, payroll, document management content management, master data management, cloud services, web services, sharing economy, collaboration, provision of service, device or application connectivity, web apps, and Application Programming Interfaces (APIs); other information technology services, namely, providing information regarding information technology (IT) and the planning and design of information technology systems; Cloud computing featuring software for use business

process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); software as a service (SAAS) services featuring software for business process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); platform as a service (PAAS) featuring computer software platforms for use in business process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); providing temporary use of on-line non-downloadable software for use in for business process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); providing temporary use of a web-based software application for use in business process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); computer and technology services for integration of technologies, platforms, devices, applications, apps and the Internet of Things; application service provider, namely, hosting and managing software and applications in the fields of business process management and enterprise resource planning for supporting areas of accounting, manufacturing, distribution, retailing, equipment rental management, project management and costing, equipment maintenance management, business forecasting, budgeting and sales reporting, customer and supplier relationship management, inventory and warehouse management, quality management, web sales management, supply chain management, management of mobile computing equipment, employee scheduling and payroll, document management, content database management, master database management, software management relating to cloud services and web services, network management relating to network connectivity, web applications, and Application Programming Interfaces (APIs); software as a service (SAAS) services, namely, hosting software for use by others for

use with software applications, apps, integration platforms, service platforms, databases, websites software, weblogs and web portal services; providing search engines for the Internet and the cloud; providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet; computer technological and software consultancy services; rental of web servers; web site design consultancy; computer security services in the nature of user identity and access management, user authentication and digital certificate management, computer project management services

FIRST USE 4-00-2010; IN COMMERCE 4-00-2010

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
