

United States of America

United States Patent and Trademark Office

MISEQ

Reg. No. 6,105,138

Registered Jul. 21, 2020

Int. Cl.: 1, 5, 9, 10

Trademark

Principal Register

Illumina, Inc. (DELAWARE CORPORATION)
5200 Illumina Way
San Diego, CALIFORNIA 92122

CLASS 1: Biological agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for use in science and scientific research; diagnostic reagents and preparations, other than for medical or veterinary use; kits containing reagents and a protocol for use thereof for scientific and research purposes; biological agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for scientific and research use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology and metagenomics, biotechnology, agriculture, forensics, food safety, genetic testing, and genetics, not for medical or veterinary purposes; kits comprising nucleotides, reagents, enzyme substrates, buffers, chemical preparations, or biological preparations for scientific and research use including in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology and metagenomics, biotechnology, agriculture, forensics, food safety, genetic testing, and genetics, not for medical or veterinary purposes

FIRST USE 7-26-2011; IN COMMERCE 7-26-2011

CLASS 5: Biological agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical and veterinary use; diagnostic reagents and preparations for medical and veterinary use, namely, for use in medical diagnostics; kits containing reagents and a protocol for use thereof for medical purposes; kits comprised of nucleotides, reagents, enzyme substrates, buffers, chemical preparations, biological preparations for medical genetic testing and medical diagnostic purposes; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical and veterinary use in the fields of medical diagnostics, clinical diagnostics, veterinary diagnostics, medical forensics, laboratory medicine, veterinary medicine, genetic testing, and genetics

FIRST USE 7-26-2011; IN COMMERCE 7-26-2011

CLASS 9: Laboratory devices for detecting genetic sequences; diagnostic apparatus for the detection of pathogens for laboratory or research use; scientific apparatus and instruments for use in genetic analysis; apparatus for DNA and RNA testing for research and scientific purposes; apparatus and instruments for testing gases, liquids, or solids in the fields of nucleic acid sequencing, genotyping, medical diagnostics, veterinary diagnostics, clinical diagnostics, medical research, veterinary research, diagnostics, clinical research, drug development, pharmaceuticals, medical laboratory research, veterinary science and research, life sciences,

Andrei Iancu

Director of the United States
Patent and Trademark Office

biology, microbiology, biotechnology, agriculture, forensics, food safety, metagenomics, genetic testing, and genetics; DNA chips; data processing apparatus; computers; computer monitors; computer hardware; downloadable and recorded computer software for sequencing and analysis of data in the field of DNA and RNA testing, genotyping, diagnostic research, and biotechnology; downloadable and recorded computer software for use in data analysis in the fields of nucleic acid sequencing, genotyping, medical diagnostics, veterinary diagnostics, clinical diagnostics, medical research, veterinary research, diagnostic research, clinical research, drug development, drug development research, medical laboratory research, veterinary science and research, life sciences, biology, microbiology, biotechnology, agriculture, forensics, food safety, metagenomics, genetic testing and genetics; Scientific and research apparatus and instruments namely, nucleic acid sequencers and sequencing reagent cartridges and trays; micro processors; data processors; next-generation sequencing (NGS) bioinformatics data processor; cards with integrated circuits; computer chips; encoded electronic chip cards containing programming used for DNA sequencing

FIRST USE 7-26-2011; IN COMMERCE 7-26-2011

CLASS 10: Medical diagnostic apparatus and instruments for use in genetic analysis; medical diagnostic apparatus and instruments for the analysis of body fluids; apparatus for blood analysis; apparatus for DNA and RNA testing for medical purposes; medical and veterinary apparatus and instruments, namely for use in medical diagnostics for detecting genetic abnormalities and disease; analytical apparatus for medical purposes, namely apparatus that test and sequence genetic material for use in medical diagnostics; testing apparatus for medical purposes, for testing genetic material for use in medical diagnostics; medical diagnostic apparatus and instruments for use in preparing blood, bodily fluid and human biological samples for further testing and for the detection and identification of pathogen nucleic acids in blood, bodily fluids and biological samples; clinical and medical apparatus and instruments, including, nucleic acid sequencers; clinical and medical apparatus and instruments, namely, nucleic acid sequencers, nucleic acid analyzers, sample and library preparation devices for medical diagnosis, testing, and treatment purposes including in the fields of nucleic acid sequencing, genotyping, medical diagnostics, veterinary diagnostics, clinical diagnostics, diagnostics, drug development, pharmaceuticals, life sciences, biology, microbiology, biotechnology, agriculture, forensics, food safety, metagenomics, genetic testing, and genetics

FIRST USE 7-26-2011; IN COMMERCE 7-26-2011

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

SER. NO. 88-491,251, FILED 06-27-2019

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
