Director of the United States
Patent and Trademark Office

recorded computer software for monitoring, repairing, and operating print server of computer; downloadable and recorded computer software for diagnostics and troubleshooting of document printers, copies, scanners, and facsimile machines; downloadable and recorded software for developing digital print applications; downloadable and recorded application software for monitoring printer performance, image analysis, natural language processing, translation, and character recognition; downloadable and recorded application software, namely, printer driver software; downloadable and recorded computer programs for monitoring printer performance and development of digital print software applications; toner cartridges, unfilled; toner cartridges, unfilled for printers and copies; ink cartridges, unfilled; personal digital assistants; downloadable and recorded electronic publications, namely, electronic books, magazines, brochures, and instruction manuals in the field of document reproduction, digital printing, remote and flexible working, digital transformation, graphic arts, cloud and mobile computing, artificial intelligence, and cost control; print heads for document printers and plotters

CLASS 16: Recycled paper; printing paper; paper; paper for copies; paper for printers; paper and cardboard; stationery; printed matter, namely, books, magazines, brochures, and instruction manuals in the field of document reproduction, digital printing, remote and flexible working, digital transformation, graphic arts, cloud and mobile computing, artificial intelligence, and cost control; containers of paper, for packaging

CLASS 35: Rental of copiers, printers, scanners, typewriters, word processors, and other office machines; photocopying services; document reproduction, namely, photocopying; consultancy relating to purchase and operation of copiers, printers, scanners, other office machines and industrial equipment and providing information relating thereto; providing office functions in the nature of preparation of documents using printers, photocopiers, copiers, scanners, facsimile machines, other office machines and industrial equipment; business management and consultancy concerning the reproduction, digitization and editing of documents and images using computers; operation of computers for document management; operation of computers, typewriters, teletypewriters, other office machines and industrial equipment; preparation and auditing of financial statements; filing of documents or magnetic tapes; computerized file management; providing information and consultancy about systemization of information into computer databases; compilation of information into computer databases; input of information into computer databases; registration of written communications and data in the field of customer inquiries relating to hardware and software support requests and customer support matters; business management analysis; business consultancy; marketing research or analysis; provision of information concerning commercial sales; consultancy in the field of computerized processing of information, namely, data processing

CLASS 37: Installation, maintenance and repair of printers, photocopiers, copiers, scanners, plotters, facsimiles and office machines and providing information relating thereto; repair and maintenance of 3D printers and providing information relating thereto; cleaning of office machines; refilling of toner cartridges; repair or maintenance of printing or bookbinding machines and apparatus; disinfecting of telephone handsets; installation, maintenance and repair of computer hardware; electric appliance installation and repair; installation, maintenance and repair of industrial machinery and providing information relating thereto; repair and maintenance of electronic machines and apparatus and providing information relating thereto; repair or maintenance of telecommunication machines and apparatus, other than telephone sets, radio receivers and television receivers and providing information relating thereto

CLASS 40: Digital printing; consultancy and information services relating to printing; printing services; recycling of toner cartridge; recycling of office machines and industrial equipment; recycling of waste and trash; rental of printing machines and apparatus; rental of 3D printers

CLASS 42: Consultancy relating to computer software and computer for printing;

design and development of electronic data security systems; rental of computers; providing temporary use of non-downloadable computer programs for document management, document editing, metering hardware usage, document scanning, document photocopying, document imaging, graphic design, image analysis, natural language processing, translation, character recognition, and printer driver software; computer programming; testing of machines, apparatus and instruments of others to assure compliance with industry standards; scientific research in the field of machines, namely, in the field of printers, photocopiers, copiers, scanners, facsimiles machines, other office machines and industrial equipment; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; digitization of documents in the nature of scanning; cloud computing featuring software for customer relationship management, for providing business card sharing, customer contact information management, analytics tools, online document management, and for website visitor tracking; cloud computing featuring software for image analysis, natural language processing, translation, character recognition, and printer driver software; electronic data storage; computer technology consultancy; information technology (IT) consultancy; technological advice relating to computers, automobiles and industrial machines; electronic document authentication services, namely, attesting of financial statements; consultancy and information services relating to printing technology using computers and their related equipments

The color(s) black and red is/are claimed as a feature of the mark.

PRIORITY CLAIMED UNDER SEC. 44(D) ON JAPAN APPLICATION NO. JP2019-16671, FILED 12-25-2019, REG. NO. 6374774, DATED 04-08-2021, EXPIRES 04-08-2031

PRIORITY CLAIMED UNDER SEC. 44(D) ON JAPAN APPLICATION NO. JP2020-03552, FILED 04-01-2020, REG. NO. 6422957, DATED 07-30-2021, EXPIRES 07-30-2031

The mark consists of the stylized word "FUJIFILM" in black except that the stylized dot in the first letter "I" is red.

SER. NO. 88-939,530, FILED 05-29-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
