Dear Ron,

Thank you for your email, and please delete the 1a basis consistent with our discussion and priority action.

Best regards,

Nyall

Greetings

My name is Ron Aikens and I am the Examining Attorney prosecuting US Patent and Trademark Office Application Serial No. 90057085 for the mark THE ROARING TWENTIES. The only issue preventing the application from moving forward is the need for a removal of the 1(a) Use-based filing basis. As noted in the Priority Action, amending the application to a 1(b) Intent to Use status would allow the application to move forward. Indeed, a 1(b) filing basis was added to the application, but it was not substituted for the 1(a) filing basis. Currently, the application contains both a 1(a) and a 1(b) filing basis.

I would like to delete the 1(a) filing basis to allow the application to proceed on a 1(b) filing basis, consistent with the information contained in the Priority action dated February 10, 2021.

If you so authorize this amendment to be entered, I will enter the amendment via Examiner's Amendment, include the information in the file and move the application towards registration. If you prefer that I do not enter the amendment or have further questions before agreeing to the amendment, please contact me. Either way, responding via email to this specific request for a disclaimer is appropriate.

Thank you for your attention on this matter.

-Aikens
