Dear Examiner Valenti,

We confirm the proposed amendment to the mark description is acceptable. Specifically, we agree to amend the mark description to:

The mark consists of stairs leading to an **arch shaped** door within a **larger arch with the stylized** letters "RSR" underneath.

We look forward to receiving the Examiner's Amendment and eventual Publication Notice.

Best regards,

Jean

Dear Catherine Farrelly:

I am the USPTO Examiner reviewing the above-referenced application.

I have completed the search of the Office Records. However, I am unable to approve this application because of the below reasons. Nevertheless, I believe that these issues may be resolved informally. Specifically, if appropriate and with your express authorization, I can amend the application and issue an Examiner's Amendment.

Please respond as soon as is convenient, but no later than **noon (EST) on December 21 , 2021**

Mark Description

Applicant must amend the mark description because it does not fully and accurately describe the

mark. Applicant might consider amending to:

The mark consists of stairs leading to an **arch shaped** door with **in a larger arch with the stylized** letters "RSR" underneath.

If the above is acceptable and with your express authorization (e.g., return email, telephone call), I can amend the application, as noted above, and issue an Examiner's Amendment.

Although the USPTO will not accept a formal response by e-mail, an applicant may communicate informally by phone or e-mail with the trademark examining attorney to agree to a proposed amendment to the application that will immediately place the application in condition for publication for opposition, issuance of a registration, or suspension. See 37 C.F.R. §2.62(c); TMEP §707. All relevant e-mail communications will be placed in the official application record.

If you have any questions, please do not hesitate to contact me.

Best regards,

Sarah Valenti
