Dear Ms. Nicholson,

I have now received my client's instructions.

Please add the following statement to the application: The English translation of the word "QUATTRO" in the mark is "four".

Please amend the identification of goods to read as follows:

Class 5: Balanced salt solution for medical purposes

Class 10: Ophthalmological and surgical apparatus and instruments; medical apparatus and instrument for use in phacoemulsification procedures; medical apparatus and instrument for use in vitrectomy procedures; infusion-aspiration tubes for medical use; aspirated fluid collection bags for medical purposes

Regards,

Ron Kadden

Dear Ms. Nicholson,

I need to write to my client about these proposed amendments. It is very unlikely that “capillary

reagent” and “blood storage” are accurate descriptions of the goods.

Regards,

Ron Kadden

Dear Mr. Kadden,

I am the trademark examining attorney handling the trademark application for QUATTRO CASSETTE (Ser. No. 97072201). I need to make small amendments to the application in order to move it forward. I need to add the following to the record:

ENGLISH TRANSLATION:

The following translation statement must be added to the record:

**The English translation of the word “QUATTRO” in the mark is “four”.**

IDENTIFICATION OF GOODS AMENDMENT:

The identification of goods should be amended to read as follows, if accurate:

- Class 5: **Mineral salts for medical purposes**
- Class 10: Ophthalmological **and** surgical apparatus and instruments; **medical** apparatus and instrument for **use in** phacoemulsification **procedures**; **medical** apparatus and instrument for **use in** vitrectomy **procedures**; **capillary reagent** tubes for medical **use**; **blood storage** bags for medical purposes

If these amendments are acceptable, I'll issue an Examiner's Amendment and suspend action on the application pending receipt of a copy of the foreign registration. Please let me know **by 5:00pm EST on June 24, 2022**. If you have any questions, please feel free to call or email me.

Thanks and best regards,

Kerry A. Nicholson
