Dear Attorney Khosravi:

I am the Examining Attorney assigned to the above-referenced applications. There is one issue that must be resolved and it may be resolved via examiner's amendment.

1. Amended Mark Description Required – the mark description is inaccurate, although applicant may have intended for the stylized letters to mean GTA, the visual appearance is that of GYA because the stylization of the middle letter does not follow the contours of the letter “t”. Accordingly, the following is suggested and may be adopted:

Serial No 97603287: The mark consists of a square with the large stylized **letters "GYA"** over the words "Guide The Artist" inside it.

Serial No. 97603292: The mark consists of a **shaded** square with the large stylized **letters "GYA"** inside it.
