Subject: [EXTERNAL] Your client Conopco, Inc. - U.S. Trademark Application Serial No. 97655383 (DOVE): proposed amended identification

Dear Counsel,

I have received and reviewed applicant's April 11, 2023 response to Office action in the above-referenced application. I appreciate applicant's effort to amend the identification of goods, but there are a couple of items in the amended identification in Class 008 that require further clarification. I am writing to see if we can resolve this issue by agreement.

The original identification in Class 008 is:

Facial tools, apparatus and instruments

The proposed amended identification is:

Facial tools, apparatus and instruments in the nature of razors, electric or non-electric; *razor blades; disposable razors*

The wording that is *italicized* in the proposed amended identification, above, is too broad because it exceeds the scope of the original identification, which was limited to facial tools, apparatus, and instruments.

Any or all of the following would be an acceptable identification, if accurate (**changes in bold**).

Facial tools, apparatus and instruments in the nature of razors, electric or non-electric; razor blades **being facial tools, apparatus and instruments**; disposable razors **being facial tools, apparatus and instruments**

Would you let me know if the applicant would agree to amend the identification? If we are able to agree on an amended identification by the end of the day on Tuesday, May 9, I can make the changes on my end so the application can proceed.

I look forward to hearing from you.

Very truly yours,

Jeanine
