WHEREAS, the Grantor has executed and delivered a Security Agreement, dated as of the date hereof, in favor of the Note Collateral Agent, for the benefit of the holders of the Note Obligations (as amended, supplemented or otherwise modified from time to time, the "Company Security Agreement").

DC1 - 307278.5

1. Defined Terms

(a) Definitions. Unless otherwise defined herein or the context otherwise requires, terms used in this Agreement, including its preamble and recitals, have the meanings provided in the Company Security Agreement.

(b) Other Definitional Provisions. (i) The words "hereof," "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement, and section and paragraph references are to this Agreement unless otherwise specified.

(ii) The meanings given to terms defined herein shall be equally applicable to both the singular and plural forms of such terms.

2. Grant of Security Interest. As collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of the Note Obligations, the Grantor hereby grants to the Note Collateral Agent, for the benefit of the holders of the Note Obligations, a security interest in all of the following property now owned or at any time hereafter acquired by the Grantor or in which the Grantor now has or at any time in the future may acquire any right, title or interest (collectively, the "Trademark Collateral"):

(a) all trademarks, service marks, trade names, trade dress or other indicia of trade origin, trademark and service mark registrations, and applications for trademark or service mark registrations and any renewals thereof, including, without limitation, each registration and application identified in Schedule 1 attached hereto and made a part hereof, and including without limitation (i) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations thereof, (ii) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past or future infringements thereof), and (iii) all rights corresponding thereto throughout the United States and all other rights of any kind whatsoever of the Grantor accruing thereunder or pertaining thereto, together in each case with the goodwill of the business connected with the use of, and symbolized by, each such trademark, service mark, trade name, trade dress or other indicia of trade origin (the "Trademarks"); provided that, for purposes hereof, the term "Trademarks" shall not include those rights which are not created by, or do not arise or exist under, the laws of the United States or any State or political subdivision thereof;

(b) all license agreements with any other Person in connection with any of the Trademarks of the Grantor, or such other Person's trademarks, whether the Grantor is a licensor or licensee under any such license agreement, including, without limitation, the

license agreements listed on Schedule 3 to the Company Security Agreement, subject, in each case, to the terms of such license agreements, including, without limitation, terms requiring consent to the grant of a security interest (the "Trademark Licenses"); provided that, for purposes hereof, the term "Trademark Licenses" shall not include those rights which are not created by, or do not arise or exist under, the laws of the United States or any State or political subdivision thereof; and

(c) to the extent not otherwise included, all Proceeds (including, to the extent not otherwise included therein, cash) and products of any and all of the foregoing.

Notwithstanding anything to the contrary contained herein, the Trademark Collateral described herein shall constitute collateral security only for those Note Obligations with respect to which the Proceeds of such Trademark Collateral are applied pursuant to Section 4.2(b) (or, if applicable, 4.8) and 4.2(e) of the Collateral Agency Agreement and the Lien and security interest provided hereby shall encumber the Trademark Collateral only to the extent of such Note Obligations.

5. Acknowledgment. The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Note Collateral Agent with respect to the security interest in the Trademark Collateral granted hereby are more fully set forth in the Company Security Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein.

6. Note Obligation Document, etc. This Agreement is a Note Obligation Document executed pursuant to the Indenture and shall (unless otherwise expressly indicated herein) be construed, administered and applied in accordance with the terms and provisions of the Indenture.
