INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "IP Security Agreement") dated June 12, 2002, is made by the Persons listed on the signature pages hereof (collectively, the "Loan Parties") in favor of Bank of America, N.A. ("Bank of America"), as administrative agent (the "Administrative Agent") for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, DESA INTERNATIONAL, INC., a Delaware corporation and a debtor and debtor-in-possession in a case pending under chapter 11 of the Bankruptcy Code ("Borrower"), and DESA HOLDINGS CORPORATION, a Delaware corporation and a debtor and debtor-in-possession in a case pending under chapter 11 of the Bankruptcy Code (the "Parent Guarantor"), has entered into a Senior Secured Superpriority Debtor-In-Possession Credit Agreement dated as of June 12, 2002 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), with Bank of America, as Administrative Agent, and the Lender Parties party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, under the terms of Article XI of the Credit Agreement, the Loan Parties have granted to the Administrative Agent, for the ratable benefit of the Secured Parties, a continuing first priority lien and security interest in, among other property, certain intellectual property of the Loan Parties, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Loan Party agrees as follows:

SECTION 1. Grant of Security. Each Loan Party hereby grants to the Administrative Agent for the ratable benefit of the Secured Parties a continuing first priority lien and security interest in all of such Loan Party's right, title and interest in and to the following (the "Collateral"):

- (i) the patents and patent applications set forth in Schedule A hereto (the "Patents");
- (ii) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no lien or security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a lien or security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the "Trademarks");
- (iii) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Loan Party, including, without limitation, the

copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");

(iv) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Loan Party accruing thereunder or pertaining thereto;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a continuing first priority lien and security interest in, the Collateral by each Loan Party under this IP Security Agreement secures the payment of all Obligations of such Loan Party now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise.

SECTION 3. Recordation. Each Loan Party authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of Article IX of the Credit Agreement. Each Loan Party does hereby acknowledge and confirm that the grant of the continuing first priority lien and security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in Article IX of the Credit Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, each Loan Party has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
