(iii) all of the goodwill of the business connected with the use of, and symbolized by, the items described in clause (i);

(iv) the right to sue third parties for past, present and future infringements of any Trademark Collateral (as defined herein) described in clause (i) and, to the extent applicable, clause (ii);

(v) all proceeds of, and rights associated with, the foregoing, including any claim by SSW against third parties for past, present or future infringement or dilution of any Trademark, Trademark registration or Trademark license, or for any injury to the goodwill associated with the use of any such Trademark or for breach or enforcement of any Trademark license, and all rights corresponding thereto throughout the world (all of the foregoing items in this clause (v), collectively with all the items in clauses (i) through (iv), being called the "Trademark Collateral");

(vi) all letters patent and applications for letters patent throughout the world, including all patent applications in preparation for filing anywhere in the world and including each patent and patent application referred to in Schedule II attached hereto;

(vii) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the items described in clause (vi);

(viii) all patent licenses and other agreements providing SSW with the right to use any of the items of the type referred to in clauses (vi) and (vii);

(ix) the right to sue third parties for past, present or future infringements of any Patent Collateral (as defined herein) described in clauses (vi) and (vii) and, to the extent applicable, clause (viii); and

(x) all proceeds of, and rights associated with, the foregoing (including license royalties and proceeds of infringement suits), the right to sue third parties for past, present or future infringements of any patent or patent application, including any patent or patent application referred to in Schedule II attached hereto, and for breach or enforcement of any patent license, and all rights corresponding thereto throughout the world (all of the foregoing items in this clause (x), collectively with all the items in clauses (vi) through (ix), being called the "Patent Collateral").

Section 2. Security Agreement. This Supplement has been executed and delivered by SSW for the purpose of registering the security interest of the Administrative Agent in the Trademark Collateral and in the Patent Collateral with the United States Patent and Trademark Office and corresponding offices in other countries of the world, as relevant. The security interest granted hereby has been granted as a supplement to, and not in limitation of, the security interest granted to the Administrative Agent for its benefit and the benefit of each Secured Party under the Security Agreement, and the rights and remedies of the Administrative Agent with respect to the security interest granted

hereby are without prejudice to, and are in addition to those set forth in the Security Agreement. The Security Agreement (and all rights and remedies of the Administrative Agent and each Secured Party thereunder) shall remain in full force and effect in accordance with its terms.

Section 3. Representations. SSW hereby represents and warrants as follows:

(a) Ownership. SSW is the owner of (i) each item of Trademark Collateral listed in Schedule I hereto and (ii) each item of Patent Collateral listed in Schedule II hereto.

(b) Full Force and Effect; Limited Supplement. Except as expressly supplemented hereby, the Security Agreement shall remain unchanged and shall continue to be, and shall remain, in full force and effect in accordance with its terms.

(c) Loan Document, etc. This Supplement constitutes a Loan Document executed pursuant to the Amended Credit Agreement and shall (unless otherwise expressly indicated herein) be construed, administered and applied in accordance with the terms and provisions of the Amended Credit Agreement.

(d) Acknowledgment. SSW does hereby further acknowledge and affirm that the rights and remedies of the Administrative Agent with respect to the security interest in the Trademark Collateral and the Patent Collateral granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein.

(e) Counterparts; Effectiveness. This Supplement may be executed by the parties hereto in several counterparts, each of which shall be deemed to be an original and all of which shall constitute together but one and the same agreement. This Supplement shall become effective when the Administrative Agent shall have received counterparts of this Supplement that, when taken together, bear the signatures of SSW and the Administrative Agent.

(f) Severability. Any provision of this Supplement that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such

prohibition or unenforceability without invalidating the remaining provisions thereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

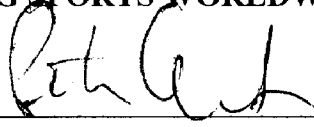

(g) Fees. Without limiting the provisions of the Amended Credit Agreement (or any other Loan Document, including the Security Agreement), SSW agrees to reimburse the Administrative Agent for its reasonable out-of-pocket expenses in connection with this Supplement, including reasonable attorneys' fees and expenses of the Administrative Agent.
