## TRADEMARK ASSIGNMENT

WHEREAS, pursuant to that certain Intellectual Property Purchase Agreement (the "Purchase Agreement"), dated as of June 25, 2007, by and among The Spring Air Company, an Illinois corporation ("Assignor"), and Spring Air IP Holding, LLC, a Delaware limited liability company ("Assignee") Assignor has agreed to sell certain Trademarks (as defined in the Purchase Agreement) to Assignee; and

WHEREAS, in order to effectuate Assignor's assignment to Assignee of its entire rights, title and interests in and to the Trademarks of Assignor being sold to Assignee pursuant to the Purchase Agreement, Assignor is executing this instrument of assignment.

FOR GOOD AND VALUABLE CONSIDERATION, the sufficiency and receipt of which are hereby acknowledged, Assignor hereby assigns, transfers and conveys, as of June 25, 2007, to Assignee, Assignor's entire worldwide right, title and interest in and to, including, without limitation, any and all common law rights thereto, as well as the goodwill of the business symbolized by, the trademarks identified on **Exhibit A** attached hereto (collectively, the "Trademarks").

Together with Assignor's right, title and interest in and to each of the Trademarks, as well as the goodwill of the business associated with said Trademarks being assigned to Assignee, are the rights to police, monitor and enforce said Trademarks against any and all past, current and/or future infringements (including, without limitation, the right to sue for and collect damages caused by any such infringement) which may have occurred at any time in the unlimited past, up to the date of this present Trademark Assignment, together with any and all further privileges in the United States to establish use, ownership, and/or registration of the Trademarks.

Assignor hereby represents, warrants and covenants that, with respect to each Trademark, it has the full right to convey its above-described right, title, interest and goodwill by this instrument, free and clear of any encumbrances and that no other agreement has been or will be executed in conflict herewith.

Assignor agrees to perform all affirmative acts which may be necessary or desirable to record or perfect the above-described transfer of trademark rights, or to secure registrations before the United States Patent and Trademark Office or any foreign trademark office, at Assignee's expense, as well as to cooperate with Assignee in obtaining and/or providing information required in any proceedings relating to the Trademarks, again at Assignee's expense.

Assignor further authorizes the Commissioner of Patents and Trademarks of the United States, and the appropriate official in any other country, to issue any and all trademark registrations, amended registrations and/or renewals that may be granted upon any application or petition for same, to Assignee, and/or Assignee's successors and/or assigns.

Assignor hereby grants to the designated attorneys of Assignee, the authority and power to insert on this instrument, any further identification which may be necessary or desirable for purposes of recordation by the United States Patent and Trademark Office or the Trademark Office of any other country throughout the world.
