SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor's right, title and interest in and to the following (the "*Collateral*"):

- (a) the patents and patent applications set forth in Schedule A hereto (the "*Patents*");
- (b) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the "*Trademarks*");

(c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this IP Collateral Agreement secures the payment of all Secured Obligations of such Grantor now or hereafter existing under or in respect of the Note Documents. Without limiting the generality of the foregoing, this IP Collateral Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by such Grantor to any Secured Party under the Note Documents but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Grantor.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Collateral Agreement.

SECTION 4. Execution in Counterparts. This IP Collateral Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Collateral Agreement has been entered into in conjunction with the provisions of the Collateral Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Collateral Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Certain Terms Concerning the Collateral Agent. The Collateral Agent is executing and delivering this IP Collateral Agreement solely in its capacity as Collateral Agent under the Collateral Agreement (and in no other capacity), and pursuant to direction set forth in the Indenture. The Collateral Agent shall not be responsible for the terms or sufficiency of this IP Collateral Agreement for any purpose, and the Collateral Agent shall have no duties or obligations under or pursuant to this IP Collateral Agreement other than such duties as may be expressly set forth in this IP Collateral Agreement as duties on its part to be performed or observed (and no other duties or obligations on its part shall be implied). In executing and delivering this IP Collateral Agreement, or in taking (or forbearing from) any action under or pursuant to this IP Collateral Agreement, the Collateral Agent shall have and be protected by all of the rights, immunities, indemnities, and other protections granted to it under the Collateral Agreement and the Indenture (including without limitation Section 10.11 of the Indenture).

[Remainder of Page Intentionally Blank]

IN WITNESS WHEREOF, each Grantor has caused this IP Collateral Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
