WITNESSETH:

WHEREAS, reference is made to that certain Loan and Security Agreement, dated as of July 8, 2009 (as amended, amended and restated, modified, supplemented or restated and in effect from time to time, the "Loan and Security Agreement"), by and among (i) the Grantors and (ii) the Lender, pursuant to which the Lender has agreed to make Loans to the Borrower, and to issue Letters of Credit for the account of the Borrower, upon the terms and subject to the conditions specified in the Loan and Security Agreement; and

WHEREAS, pursuant to the terms of the Loan and Security Agreement, each Guarantor guarantees the payment and performance of the Obligations; and

WHEREAS, the obligations of the Lender to make Loans and to issue Letters of Credit are each conditioned upon, among other things, the execution and delivery by the Grantors of an agreement in the form hereof, pursuant to which each Grantor grants to the Lender a security interest in and to the IP Collateral (as defined herein), in order to secure the Secured Obligations (as defined herein).

NOW, THEREFORE, in consideration of the mutual conditions and agreements set forth in this Agreement, and for good and valuable consideration, the receipt of which is hereby acknowledged, the Grantors and the Lender hereby agree as follows:

85122291.4

Loan and Security Agreement, and as further security for the payment or performance, as the case may be, in full of the Secured Obligations, each of the Grantors hereby ratifies such Security Interest and grants to the Lender a continuing security interest, with a power of sale (which power of sale shall be exercisable only following the occurrence and during the continuance of an Event of Default), in all of the present and future right, title and interest of such Grantor in and to the following property, and each item thereof, whether now owned or existing or hereafter acquired or arising, together with all products, proceeds, substitutions, and accessions of or to any of the following property (collectively, the "IP Collateral");

- (a) All Copyrights and Copyright Licenses;
- (b) All Patents and Patent Licenses;
- (c) All Trademarks and Trademark Licenses;
- (d) All other Licenses;
- (e) All renewals of any of the foregoing;
- (f) All trade secrets, know-how and other proprietary information; and all tangible and intangible property embodying the foregoing; inventions (whether or not patentable) and all improvements thereto; books, records, writings, computer tapes or disks, flow diagrams, specification sheets, computer software, source code, object code, executable code, data, databases, and other physical manifestations, embodiments or incorporations of any of the foregoing, and any licenses in any of the foregoing, and all other Intellectual Property Rights and proprietary rights;
- (g) All general intangibles connected with the use of, or related to, any and all Intellectual Property (including, without limitation, all goodwill of each Grantor and its business, products and services appurtenant to, associated with, or symbolized by, any and all Intellectual Property and the use thereof);
- (h) All income, royalties, damages and payments now and hereafter due and/or payable under and with respect to any of the foregoing, including, without limitation, payments under all Licenses entered into in connection therewith and damages and payments for past or future infringements, misappropriations or dilutions thereof;
- (i) The right to sue for past, present and future infringements, misappropriations, and dilutions of any of the foregoing; and
- (j) All of the Grantors' rights corresponding to any of the foregoing throughout the world.

Notwithstanding the foregoing, no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in

which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal Law.

SECTION 3. Protection of Intellectual Property By Grantors. Except as set forth below in this SECTION 3, each of the Grantors shall undertake the following with respect to each of the items respectively described in Sections 2(a), (b), (c), (d), (e), (f) and (g) (collectively, the "Intellectual Property");

(a) Pay all renewal fees and other fees and costs associated with maintaining the Intellectual Property and with the processing and prosecution of the Intellectual Property and take all other steps reasonably necessary to maintain each registration of the Intellectual Property, except, in each case, to the extent that the failure to do so could not reasonably be expected to have a Material Adverse Effect.

(b) Take all actions reasonably necessary to prevent any of the Intellectual Property from becoming forfeited, abandoned, dedicated to the public, invalidated or impaired in any way, except, in each case, to the extent that the failure to do so could not reasonably be expected to have a Material Adverse Effect.

(c) At the Grantors' sole cost, expense, and risk, pursue the processing and prosecution of each application for registration of any Intellectual Property which is the subject of the security interest created herein and not abandon or delay any such efforts, except, in each case, to the extent that the failure to do so could not reasonably be expected to have a Material Adverse Effect.

(d) At the Grantors' sole cost, expense, and risk, take any and all action which the Grantors reasonably deem necessary or desirable under the circumstances to protect the Intellectual Property from infringement, misappropriation or dilution, including, without limitation, the prosecution and defense of infringement actions, except, in each case, to the extent that the failure to do so could not reasonably be expected to have a Material Adverse Effect.

SECTION 4. Grantors' Representations and Warranties. In addition to any representations and warranties contained in any of the other Loan Documents, each Grantor represents and warrants that:

(a) **EXHIBIT A** is a true, correct and complete list of all registered and pending applications for registration of United States Copyrights owned by such Grantor.

(b) **EXHIBIT B** is a true, correct and complete list of all issued United States Patents that are not expired and all pending applications for United States Patents owned by such Grantor and all written Patent Licenses to which such Grantor is a party as of the date hereof.

(c) **EXHIBIT C** is a true, correct and complete list of all registered United States Trademarks that are not expired and all pending applications for registration of United States Trademarks owned by such Grantor and all written Trademark Licenses to which such Grantor is a party as of the date hereof.

(d) Except as set forth in **EXHIBITS A, B and C**, none of the Intellectual Property owned by such Grantor is the subject of any written licensing or franchise agreement pursuant to which such Grantor is the licensor or franchisor as of the date hereof.

(e) All IP Collateral owned by such Grantor is, and shall remain, free and clear of all Liens, encumbrances, or security interests in favor of any Person, other than Permitted Liens or as described in Schedule 9.1.11 to the Loan and Security Agreement.

(f) Such Grantor owns, or is licensed to use, all Intellectual Property Rights reasonably necessary for the conduct of its business as currently conducted. No claim has been asserted and is pending by any Person challenging or questioning the use by such Grantor of any of its Intellectual Property or Intellectual Property Rights, or the validity or effectiveness of any of its Intellectual Property, that could reasonably be expected to have a Material Adverse Effect. The use by such Grantor of the Intellectual Property or Intellectual Property Rights does not infringe the rights of any Person in any material respect. No holding, decision or judgment has been rendered by any Governmental Authority which would limit, cancel or question the validity of, or such Grantor's rights in, any Intellectual Property in any respect that could reasonably be expected to have a Material Adverse Effect.

(g) Such Grantor shall from time to time, but no less frequently than quarterly, give the Lender written notice, with reasonable detail, following the occurrence of any of the following:

(i) Such Grantor's obtaining rights to, and filing applications for registration of, any patents, trademark registrations and copyright registrations, or otherwise acquiring ownership of any patents, trademark applications, trademark registrations, copyright applications or copyright registrations (other than the acquisition by such Grantor of the right to sell products containing the trademarks of others in the ordinary course of such Grantor's business).

(ii) Such Grantor's becoming entitled to the benefit of any registered Intellectual Property under a written license agreement whether as licensee or licensor (other than commercially available computer programs, products or applications that are non-proprietary to such Grantor and such Grantor's right to sell products containing the trademarks of others in the ordinary course of such Grantor's business).

(iii) Such Grantor's entering into any new Licenses under a written license agreement with respect to the Intellectual Property (other than commercially available computer programs, products or applications that are non-proprietary to such Grantor and such Grantor's right to sell products containing the trademarks of others in the ordinary course of such Grantor's business).

(iv) Such Grantor's knowing, or having reason to know, that any application or registration relating to any Intellectual Property may, other than as provided in SECTION 3 above, become forfeited, abandoned or dedicated to the public, or of any adverse determination or development (including, without limitation, the institution of, or any such determination or development in, any proceeding in the PTO, the Copyright Office or any court or tribunal) regarding such Grantor's ownership of, or the validity or enforceability of, any Intellectual Property or such Grantor's right to register the same or to own and maintain the same.

SECTION 5. Agreement Applies to Future Intellectual Property.

(a) The provisions of this Agreement shall automatically apply to any such additional property or rights described in subsections (i), (ii) and (iii) of SECTION 4(g), above, all of which shall be deemed to be and treated as "Intellectual Property" within the meaning of this Agreement. Upon the acquisition by any Grantor of any additional Intellectual Property, such Grantor shall from time to time, but no less frequently than quarterly, deliver to the Lender an updated **EXHIBIT A, B, and/or C** (as applicable) to this Agreement and hereby authorizes the Collateral Agent to file, at such Grantor's expense, such updated Exhibit as set forth in SECTION 5(b).

(b) Each of the Grantors shall execute and deliver, and have recorded, any and all agreements, instruments, documents and papers as the Lender may reasonably request to evidence the Lender's security interest in any Intellectual Property (including, without limitation, filings with the PTO, the Copyright Office or any similar office), and each of the Grantors hereby constitutes the Lender as its attorney-in-fact to execute and file all such writings for the foregoing purposes, all such acts of such attorney being hereby ratified and confirmed; provided, however, that the Lender's taking of such action shall not be a condition to the creation or perfection of the security interest created hereby.

SECTION 6. Grantors' Rights To Enforce Intellectual Property. Prior to the occurrence of an Event of Default, the Grantors shall have the exclusive right to sue for past, present and future infringement of the Intellectual Property, including the right to seek injunctions and/or money damages in an effort by the Grantors to protect the Intellectual Property against encroachment by third parties, provided, however, that:

(a) The Grantors provide the Lender with written notice of the Grantors' institution of any legal proceedings for enforcement of any Intellectual Property, the infringement of which could reasonably be expected to have a Material Adverse Effect.

(b) Any money damages awarded or received by the Grantors on account of such suit (or the threat of such suit) shall constitute IP Collateral.

(c) Upon the occurrence and during the continuance of any Event of Default, the Lender, by notice to the Grantors, may terminate or limit the Grantor's rights under this SECTION 6.

SECTION 7. Collateral Agent's Actions To Protect Intellectual Property. In the event of

(a) any Grantor's failure, within fifteen (15) days of written notice from the Lender, to cure any failure by such Grantor to observe or perform any of such Grantor's covenants, agreements or other obligations under this Agreement; and/or

(b) the occurrence and continuance of any other Event of Default,

the Lender, acting in its own name or in that of any Grantor, may (but shall not be required to) act in any Grantor's place and stead and/or in the Lender's own right in connection therewith.

SECTION 8. Rights Upon Default. Upon the occurrence and during the continuance of an Event of Default, in addition to all other rights and remedies under this Agreement and the other Loan Documents, the Lender may exercise all rights and remedies of a secured party under the Uniform Commercial Code as adopted in the State of Texas, with respect to the IP Collateral, in addition to which the Lender may sell, license, assign, transfer, or otherwise dispose of the IP Collateral, subject to those restrictions to which such Grantor is subject under Applicable Law and by contract. Any person may conclusively rely upon an affidavit of an officer of the Lender that an Event of Default has occurred and that the Lender is authorized to exercise such rights and remedies.

SECTION 9. Lender As Attorney-In-Fact.

(a) Each of the Grantors hereby irrevocably makes, constitutes and appoints the Lender as and for such Grantor's true and lawful agent and attorney-in-fact, and in such capacity the Lender shall have the right, with power of substitution for each Grantor and in each Grantor's name or otherwise, for the use and benefit of the Lender and the other Loan Parties:

(i) To supplement and amend from time to time **EXHIBITS A, B and C** of this Agreement to include any newly developed, applied for, registered, or acquired IP Collateral of such Grantor.

(ii) Following the occurrence and during the continuance of any Event of Default, to exercise any of the rights and powers referenced herein.

(iii) Following the occurrence and during the continuance of any Event of Default, to execute all such instruments, documents, and papers as the Lender reasonably determines to be necessary or desirable in connection with the exercise of such rights and remedies and to cause the sale, license, assignment, transfer, or other disposition of the Intellectual Property, subject to those restrictions to which such Grantor is subject under Applicable Law and by contract.

(b) The power of attorney granted herein, being coupled with an interest, shall be irrevocable until this Agreement is terminated in writing by a duly authorized officer of the Lender.

(c) The Lender shall not be obligated to do any of the acts or to exercise any of the powers authorized by SECTION 9(a), but if the Lender elects to do any such act or to exercise any of such powers, it shall not be accountable for more than it actually receives as a result of such exercise of power, and shall not be responsible to any Grantor for any act or omission to act, except where a court of competent jurisdiction determines by final and nonappealable judgment that the subject act or omission to act has resulted from the gross negligence or willful misconduct of the Lender.

SECTION 10. Lender's Rights. Any use by the Lender of the IP Collateral, as authorized hereunder in connection with the exercise of the Lender's rights and remedies under this Agreement and the Loan and Security Agreement shall be coextensive with the Grantor's rights thereunder and with respect thereto and without any liability for royalties or other related charges.

SECTION 11. Intent. This Agreement is being executed and delivered by the Grantors for the purpose of registering and confirming the grant of the security interest of the Lender in the IP Collateral with the PTO, the Copyright Office and other such governmental offices, whether in the United States or in other jurisdictions throughout the world. It is intended that the security interest granted pursuant to this Agreement is granted as a supplement to, and not in limitation of, the Security Interest granted to the Lender under the Loan and Security Agreement. All provisions of the Loan and Security Agreement (including, without limitation, the rights, remedies, powers, privileges and discretions of the Lender thereunder) shall apply to the IP Collateral, and the provisions of the Loan and Security Agreement are incorporated herein by reference as if fully set forth herein. In the event of a conflict between this Agreement and the Loan and Security Agreement, the terms of this Agreement shall control with respect to the IP Collateral and the terms of the Loan and Security Agreement shall control with respect to all other Collateral.

SECTION 12. Further Assurances. Each Grantor agrees, at its own expense, to execute, acknowledge, deliver and cause to be duly filed all such further documents, financing statements, agreements and instruments and take all such further actions as the Lender may from time to time reasonably request to better assure, preserve, protect and perfect the security interest in the IP Collateral granted pursuant to this Agreement and the rights and remedies created hereby or

the validity or priority of such security interest, including the payment of any fees and taxes required in connection with the execution and delivery of this Agreement, the granting of the security interest and the filing of any financing statements or other documents in connection herewith or therewith.

SECTION 13. Choice of Laws. It is intended that all rights and obligations under this Agreement, including matters of construction, validity, and performance, shall be governed by the laws of the State of Texas.

SECTION 14. Counterparts. This Agreement may be executed in counterparts, each of which shall constitute an original but all of which, when taken together, shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or other electronic transmission shall be as effective as delivery of a manually executed counterpart of this Agreement.
