U.S. INTELLECTUAL PROPERTY SECURITY AGREEMENT

This U.S. INTELLECTUAL PROPERTY SECURITY AGREEMENT dated as of December 17, 2009 (as may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*U.S. IP Security Agreement*”) is made by the Persons listed on the signature pages hereof (collectively, the “*Grantors*”) in favor of Bank of America, N.A., as Administrative Agent (the “*Administrative Agent*”) for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS Nortek, Inc., a Delaware corporation (the “*Specified U.S. Borrower*”) and the other Loan Parties party thereto have entered into a Credit Agreement, dated as of December 17, 2009 (as may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Credit Agreement*”), with Bank of America, N.A., as Administrative Agent, and the Lenders party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the making of Loans by the Lenders and the issuance of Letters of Credit by the L/C Issuers under the Credit Agreement and the entry into Secured Hedge Agreements by the Hedge Banks and the entry into Secured Cash Management Agreements by the Cash Management Banks from time to time, each Grantor has executed and delivered that certain Security Agreement, dated as of December 17, 2009 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Security Agreement*”) made by the Grantors to the Administrative Agent for the Secured Parties.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Administrative Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this U.S. IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Subject to Section 1 of the Security Agreement, each Grantor hereby grants to the Administrative Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor’s right, title and interest in and to the following (the “*Collateral*”):

- (a) the patents and patent applications set forth in Schedule A hereto (the “*Patents*”);
- (b) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the “*Trademarks*”);
- (c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the “*Copyrights*”);

- (d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;
- (e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- (f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this U.S. IP Security Agreement secures the payment of all Secured Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents. Without limiting the generality of the foregoing, this U.S. IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this U.S. IP Security Agreement.

SECTION 4. Execution in Counterparts. This U.S. IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This U.S. IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This U.S. IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Intercreditor Agreement Prevails. Reference is made to the Lien Subordination and Intercreditor Agreement dated as of December 17, 2009, among Bank of America, N.A., as collateral agent thereunder for the Revolving Facility Secured Parties (as defined in the Intercreditor Agreement) referred to therein; U.S. Bank National Association, as Trustee and as Noteholder Collateral Agent (as defined in the Intercreditor Agreement); Nortek, Inc.; and the other subsidiaries of Nortek, Inc. named therein (the "*Intercreditor Agreement*"). Notwithstanding any other provision contained herein, this Agreement, the Liens created hereby and the rights, remedies, duties and obligations provided for herein are subject in all respects to the provisions of the Intercreditor Agreement and, to the extent provided therein, the applicable Senior Secured Obligations Security Documents (as defined in the Intercreditor Agreement). In the event of any

conflict or inconsistency between the provisions of this Agreement and the Intercreditor Agreement, the provisions of the Intercreditor Agreement shall control.

[Remainder of Page Intentionally Blank]

IN WITNESS WHEREOF, each Grantor has caused this U.S. IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
