ASSIGNMENT OF INTELLECTUAL PROPERTY

This ASSIGNMENT OF INTELLECTUAL PROPERTY is made as of December 17, 2010 (this "IP Assignment"), by and between Weber-Stephen Products Co., an Illinois corporation ("Assignor"), and Weber-Stephen Products LLC, formerly known as WSPC Acquisition Company, L.L.C., a Delaware limited liability company ("Assignee"). Capitalized terms used herein that are not otherwise defined shall have the meanings ascribed thereto in the Purchase Agreement (defined below).

RECITALS

WHEREAS, pursuant to that certain Asset Purchase Agreement, dated as of December 10, 2010 (the "Purchase Agreement"), by and between Assignor and Assignee, Assignee has agreed to purchase and accept from Assignor, and Assignor has agreed to sell, assign, transfer and convey to Assignee, all of Assignor's right, title and interest, to and under the Business Assets, upon the terms and subject to the conditions of the Purchase Agreement;

WHEREAS, pursuant to the Purchase Agreement and in connection with Assignee's acquisition of the Business Assets, Assignee has agreed to acquire, and Assignor has agreed to convey, Assignor's entire right, title and interest in, to and under all Intellectual Property included in the Business Assets owned by Seller, which includes all Intellectual Property related to the Restaurant Business, including, without limitation, all Intellectual Property set forth on Schedule A hereto (collectively, the "Intellectual Property Assets"); and

WHEREAS, Assignor and Assignee desire to carry out the intent and purpose of the Purchase Agreement by the execution and delivery of this IP Assignment, subject to the provisions of the Purchase Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee agree as follows:

1. Assignment. In accordance with the provisions of the Purchase Agreement, Assignor hereby sells, assigns, transfers and conveys to Assignee all of Assignor's right, title and interest in, to and under the Intellectual Property Assets, for Assignee's own use and behalf, and for the use and behalf of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this IP Assignment and sale had not been made; and the right to file any action and recover damages by reason of past, present or future infringement, misappropriation, dilution or other unauthorized use of said Intellectual Property Assets, with the right to sue for, and collect same for its own use and behalf, and for the use and behalf of its successors, assigns, or other legal representatives; and Assignee hereby purchases and accepts the Intellectual Property Assets.

2. Documentation. Assignor hereby agrees to execute, acknowledge and deliver to Assignee all reasonable documents, instruments and agreements as may be necessary to make a

record with any governmental authorities (both foreign and domestic) or third parties of, and to otherwise more fully and confirm, Assignee's ownership of all right, title and interest in, to and under the Intellectual Property Assets, to have and to hold for its proper benefit forever, free and clear of all liens (other than Permitted Liens).

3. Construction. This IP Assignment is subject in all events to the terms and conditions of the Purchase Agreement and shall not in any way alter any of the rights, obligations and responsibilities of any of the parties to the Purchase Agreement. In the event of a conflict between the terms of this IP Assignment and the Purchase Agreement, the terms of the Purchase Agreement shall prevail.

4. Governing Law. This IP Assignment shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to the principles of conflicts of laws thereof. The parties hereto agree that any disputes which may arise out of this IP Assignment which relate to either party's rights and/or obligations hereunder shall be resolved in accordance with the provisions of the Purchase Agreement.

5. Successors and Assigns. This IP Assignment shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors and assigns.

6. Headings. Titles and headings of sections of this IP Assignment are inserted for convenience only and shall not affect in any way the meaning or interpretation of this IP Assignment.

7. Amendment. This IP Assignment cannot be amended, waived or terminated except by a writing signed by both Assignor and Assignee.

8. Severability. If any provision of this IP Assignment shall be declared by any court of competent jurisdiction to be illegal, void or unenforceable, all other provisions of this IP Assignment shall not be affected and shall remain in full force and effect.

9. Counterparts. This IP Assignment may be executed and delivered in multiple counterparts, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument. A facsimile or other copy of a signature shall be deemed an original for purposes of this IP Agreement.
