SECTION 1. Definitions. Unless otherwise defined herein or the context otherwise requires, terms used in this Agreement, including its preamble and recitals, have the meanings provided (or incorporated by reference) in the Security Agreement.

SECTION 2. Grant of Security Interest. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, to secure all of the Secured Obligations, each Grantor hereby assigns and pledges to the Administrative Agent for its benefit and for the ratable benefit of each of the Secured Parties and hereby grants to the Administrative Agent for its benefit and for the ratable benefit of each of the Secured Parties a first priority security interest and Lien in such Grantor's trademarks and service marks, trade name, corporate names, company names, business names, fictitious business names, trade styles, service marks, logos, and any other designs or sources of business identifiers, indicia of origin or similar devices, all registrations with respect thereto, all applications with respect to the foregoing, and all extensions and renewals with respect to any of the foregoing, together with all of the goodwill associated with any and all of the foregoing, throughout the world, in each case whether now or hereafter existing, together with all rights and interests associated with the foregoing, including, without limitation, license royalties, claims or rights against third parties for any past, present or future infringement of any trademark or similar device or registration thereof, or for any injury to the goodwill associated therewith, and all corresponding rights throughout the world, in each case whether now owned or hereafter acquired or existing by such Grantor (any and all of the foregoing being the "Trademarks"), including the Trademarks set forth on Schedule I (as such schedule may be amended or supplemented from time to time).

Notwithstanding the foregoing, "Trademarks" shall not include any property as to which the grant of a security interest would constitute a violation of a valid and enforceable restriction on such grant in favor of a Governmental Authority or in favor of a third party, unless and until any required consents shall have been obtained. Each Grantor agrees to use its commercially reasonable best efforts to obtain any such required consent.

SECTION 3. No Present Assignment. Neither this Security Agreement, nor any other document, instrument or agreement creates or is intended to create a present assignment of the Trademarks. SECTION 4. Security Agreement. This Agreement has been executed and delivered by each Grantor for the purpose of recording the security interest of the Administrative Agent in the Trademarks with the United States Patent and Trademark Office and corresponding offices in other countries of the world. The security interest granted hereby has been granted as a supplement to, and not in limitation of, the security interest granted to the Administrative Agent for its benefit and the benefit of each Secured Party under the Security Agreement. The Security Agreement (and all rights and remedies of the Administrative Agent and each Secured Party thereunder) shall remain in full force and effect in accordance with its terms.

SECTION 5. Release of Security Interest. Upon payment in full in cash of all Secured Obligations, including the termination or expiry of all Letters of Credit, the termination of all Swap Contracts to which a Secured Party is a party and the termination of all Commitments, the Administrative Agent shall, at the Grantors' expense, execute and deliver to the Grantors all
