This SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*IP Security Agreement*") dated November 10, 2010, is made by the Persons listed on the signature pages hereof (collectively, the "*Grantors*") in favor of BANK OF AMERICA, N.A., as Administrative Agent (the "*Administrative Agent*") for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, Chemtura Corporation, a Delaware corporation (the "*Company*") and the Subsidiary Borrowers referred to therein (together with the Company, the "*Borrowers*") have entered into a Senior Secured Revolving Facility Credit Agreement dated as of November 10, 2010 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Credit Agreement*"), with Bank of America, N.A., as Administrative Agent, and the Lender Parties and the other agents party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the making of Advances and the issuance of Letters of Credit by the Lender Parties under the Credit Agreement and the entry into Secured Cash Management Agreements by the Cash Management Banks from time to time, each Grantor has executed and delivered that certain Security Agreement dated November 10, 2010 made by the Grantors to the Administrative Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Security Agreement*").

- (ii) all trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in any United States intent-to-use trademark application for registration of a trademark filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing of a "Statement of Use" pursuant to Section 1(d) of the Lanham Act or an "Amendment to Allege Use" pursuant to Section 1(c) of the Lanham Act with respect thereto, solely to the extent, if any, that, and solely during the period, if any, in which, the grant of a security interest therein would impair the validity or enforceability or result in the voiding of such

application or any registration that issues from such application under applicable federal law), together, in each case, with the goodwill symbolized thereby (the “**Trademarks**”);

(iii) all copyright registrations and applications set forth in Schedule C hereto (the “**Copyrights**”);

(iv) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions and all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this IP Security Agreement secures the payment of all Obligations of each Loan Party or Subsidiary of a Loan Party now or hereafter existing under or in respect of the Loan Documents (including, without limitation, the Secured Cash Management Agreements), whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise; *provided however* that if the aggregate principal or notional amount of Obligations under all Secured Cash Management Agreements exceeds \$10,000,000 at any time outstanding, then the Obligations under the Secured Cash Management Agreements secured hereunder shall exclude all Obligations under the Secured Cash Management Agreements other than those Obligations under the Secured Cash Management Agreements (“**Included Obligations**”) designated in a writing delivered by the Company to the Administrative Agent as being included in the Obligations secured hereunder, subject to a maximum aggregate principal or notional amount for all Included Obligations of \$10,000,000 at any time outstanding. Without limiting the generality of the foregoing, this IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by any Loan Party or Subsidiary of a Loan Party to any Secured Party under the Loan Documents but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party or Subsidiary of a Loan Party.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement. In the event of a conflict between the provisions of this IP Security Agreement and the provisions of the Security Agreement, the provisions of the Security Agreement shall control.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Intercreditor Agreement. **Reference is made to the Lien Subordination and Intercreditor Agreement dated as of November 10, 2010, among the Administrative Agent, Bank of America, N.A., as administrative agent for the Term Facility Secured Parties referred to therein, the Company and the Subsidiaries of the Company named therein (as amended, supplemented or otherwise modified from time to time, the “Intercreditor Agreement”). Notwithstanding any other provision contained herein, this IP Security Agreement, the Liens created hereby and the rights, remedies, duties and obligations provided for herein are subject in all respects to the provisions of the Intercreditor Agreement and, to the extent provided therein, the applicable Senior Secured Obligations Security Documents (as defined in the Intercreditor Agreement). In the event of any conflict or inconsistency between the provisions of this IP Security Agreement and the Intercreditor Agreement, the provisions of the Intercreditor Agreement shall control.**

IN WITNESS WHEREOF, each Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
