SHORT FORM
INTELLECTUAL PROPERTY SECURITY AGREEMENT

This SHORT FORM INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “**Agreement**”) dated September 28, 2012, (the “**Closing Date**”), is made among THE TRIZETTO GROUP, INC., a Delaware corporation (“**Borrower**”), TZ US HOLDCO, INC., a Delaware corporation (“**Holdings**”), GATEWAY EDI, LLC, a Delaware limited liability company (“**Gateway**”), and OPTION SERVICES GROUP INC., an Illinois corporation (“**Option Services**”, and together with Borrower, Holdings and Gateway, the “**Grantors**”) in favor of ROYAL BANK OF CANADA (“**RBC**”), as Collateral Agent for the Secured Parties. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Credit Agreement and the Intellectual Property Security Agreement referred to therein.

WHEREAS, the Borrower, Holdings, each Lender from time to time party thereto, RBC, as Administrative Agent and Collateral Agent, and each other party thereto have entered into the Second Lien Credit Agreement dated as of September 28, 2012 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “**Credit Agreement**”), pursuant to which the Lenders have severally agreed to make Loans upon the terms and subject to the conditions therein.

WHEREAS, in connection with the Credit Agreement, the Grantors have entered into the Intellectual Property Security Agreement dated September 28, 2012 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “**Intellectual Property Security Agreement**”) in order to induce the Lenders to make Loans.

WHEREAS, under the terms of the Intellectual Property Security Agreement, the Grantors have granted to the Collateral Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor’s right, title and interest in and to the following (the “**Collateral**”):

the United States Patents (as defined in the Intellectual Property Security Agreement) set forth in Schedule A hereto;

the United States registered Trademarks (as defined in the Intellectual Property Security Agreement) and Trademarks for which United States applications are pending set forth in Schedule B hereto; and

the United States registrations of Copyrights (as defined in the Intellectual Property Security Agreement) set forth in Schedule C hereto.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or

contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the secured Obligations and that would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that such secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.

SECTION 3. Recordation. This Agreement has been executed and delivered by the Grantors for the purpose of recording the grant of security interest herein with the United States Patent and Trademark Office and the United States Copyright Office. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks record this Agreement.

SECTION 4. Execution in Counterparts. This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This Agreement has been entered into in conjunction with the provisions of the Intellectual Property Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Intellectual Property Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the terms of the Intellectual Property Security Agreement, the terms of the Intellectual Property Security Agreement shall govern.

SECTION 6. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Severability. In case any one or more of the provisions contained in this Agreement should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and in the Intellectual Property Security Agreement shall not in any way be affected or impaired thereby (it being understood that the invalidity of a particular provision in a particular jurisdiction shall not in and of itself affect the validity of such provision in any other jurisdiction). The parties hereto shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

SECTION 8. Intercreditor Agreement. Notwithstanding anything herein to the contrary, the liens and security interest granted to the Collateral Agent, for the benefit of the Secured Parties, pursuant to or in connection with this Agreement and the exercise of any right or remedy by the Collateral Agent, for the benefit of the Secured Parties, hereunder are subject to the provisions of that certain Intercreditor Agreement, dated as of September 28, 2012 (the "Intercreditor Agreement"), among Royal Bank of Canada, as First Lien Collateral Agent, and Royal Bank of Canada, as Second Lien Collateral Agent, and such other parties as may be added thereto from time to time in accordance with the terms thereof and as the Intercreditor Agreement may be amended, restated, amended and restated, supplemented or otherwise modified from time to time in accordance with the terms thereof. In the event of any conflict between the terms of the Intercreditor Agreement and this Agreement the terms of the Intercreditor Agreement shall govern. Any reference to "priority" or words of similar effect in describing any of the security interests created hereunder shall be understood to refer to such priority as set forth in the Intercreditor Agreement. All representations, warranties and covenants in this Agreement shall be

subject to the provisions and qualifications set forth in this paragraph. Notwithstanding anything herein to the contrary, at any time prior to the Discharge of First Lien Secured Obligations (as defined in the Intercreditor Agreement), to the extent any Grantor is required to deliver (or grant "control" over) Collateral to the Collateral Agent and the First Lien Collateral Agent, delivery thereof (or "control" with respect thereto) to the First Lien Collateral Agent shall be deemed to satisfy the requirements hereunder.

[Remainder of Page Intentionally Blank]
