INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (“Assignment”), is effective as of March 25, 2013 between Wilson Electronics, Inc., a Utah corporation (“Assignor”), and Wilson Electronics, LLC, a Delaware limited liability company (“Assignee”). Assignee and Assignor are referred to herein individually as a “Party” and collectively, as the “Parties”.

RECITALS:

WHEREAS, Assignor and Assignee have entered into that certain Asset Purchase and Contribution Agreement as of March 25, 2013 whereby Assignor is selling and contributing certain assets of the Business (defined below) to Assignee and Assignee is assuming certain liabilities of the Business (the “Agreement”);

WHEREAS, Assignor desires to convey, transfer, assign and deliver to Assignee, and Assignee desires to accept from Assignor, all of Assignor’s right, title and interest in and to Assignor’s rights that are inherent in or relating to the business of the design, the operation, provision, development, maintenance, enhancement or support of distribution and sale of amplifiers, antennas, components and other accessories that are used or usable in connection with cellular phones, cellular data devices, and cellular networks (the “Business”); and

WHEREAS, pursuant to the foregoing, Assignor desires to convey, transfer, assign and deliver to Assignee, and Assignee desires to accept from Assignor, all of the Marks, Patents, Copyrights and Domains of Assignor associated with the Business as set forth below.

NOW, THEREFORE, for valuable consideration, including without limitation the consideration received by Assignor under the Agreement, the receipt of which is hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. **Marks**. Assignor hereby irrevocably sells, assigns, conveys, grants and transfers to Assignee, and its successors and assigns, all of Assignor’s right, title and interest, of whatever kind, throughout the world, in and to the trademarks, service marks, trade names and all applications therefore that are used in the Business (the “Marks”), together with all of the goodwill associated with and symbolized by the Marks, including any applications, registrations, renewals and extensions thereof for the Marks, including as further detailed in Exhibit A, attached, and all other corresponding rights at common law or otherwise that are or may be secured under the laws of the United States or any foreign country, now or hereafter in effect.

2. **Patents**. Assignor hereby irrevocably sells, assigns, conveys, grants and transfers to Assignee, and its successors and assigns, its entire right, title and interest in and to any and all worldwide patent rights and rights of similar nature that are used in the Business, including those items set forth on the attached Exhibit B (the “Patents”), along with its entire right, title and interest in and to the inventions claimed in the Patents, including the right to file foreign patent applications corresponding to such Patents, and the right to claim the priority date of said Patents and any legal equivalents thereof, and any and all corresponding patents and patent applications in the United States of America and all foreign countries which have been or may be granted therefor and thereon, and to any and all divisions, continuations, continuations-in-part,

reexaminations, substitutions, reissues, extensions and renewals of such patents, the same to be held and enjoyed by Assignee, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made.

3. **Copyrights.** Assignor hereby irrevocably sells, assigns, conveys, grants and transfers to Assignee, and its successors and assigns, its entire right, title and interest in and to the Copyrights and any registrations and copyright applications relating thereto and any renewals and extensions thereof, in and to all works based upon, derived from or incorporating the Copyrights, including those items set forth on the attached **Exhibit C** (the "**Copyrights**"), along with all other rights corresponding to the foregoing throughout the world.

4. **Domains.** Assignor hereby irrevocably sells, assigns, conveys, grants and transfers to Assignee, and its successors and assigns, its entire right, title and interest in and under the Domains and registrations therefor identified on the attached **Exhibit D** (the "**Domains**"), and any and all related or similar Domains, along with all associated goodwill.

5. **Rights.** The foregoing assignments all include rights to collect royalties, products and proceeds in connection with any of the foregoing and all rights to sue for past, present or future infringement, misappropriation or other violation of the foregoing, and all rights to recover damages or lost profits in connection therewith. In addition, Assignor agrees that it shall not oppose any application, seek to cancel any registration or initiate re-examination, object to any use by Assignee of the Marks, Patents, Copyrights and Domains, or assist any third party in any of the foregoing.

6. **Further Assurances.** Assignor will promptly take such actions, including, without limitation, the prompt execution and delivery of documents in recordable form, as may be reasonably requested by Assignee to vest, secure, and perfect, the rights and interests of Assignee in and to the Marks, Patents, Copyrights and Domains assigned herein.

7. **Binding Effect.** This Assignment inures to the benefit of and is binding upon Assignee and Assignor and their respective heirs, successors and permitted assigns. Neither this Agreement nor any of the rights, interests or obligations hereunder shall be assigned, directly or indirectly, including without limitation, by operation of law, by any party hereto without the prior written consent of the other party.

8. **Conflict With Agreement.** This Assignment is executed and delivered pursuant to the Agreement and shall be subject to the terms and conditions of, and interpreted in accordance with, the Agreement. To the extent of any conflict between the terms and conditions of this Assignment and the terms and conditions of the Agreement, the terms and conditions of the Agreement shall govern, supersede and prevail.

9. **Counterparts.** This Assignment may be executed in one or more counterparts, each of which will be deemed to be an original, but all of which together shall constitute one and the same instrument.

10. **Facsimile Signatures.** A signature to this Assignment delivered by telecopy or other electronic means will be deemed valid.

11. **Governing Law.** This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware (regardless of the laws that might otherwise govern under applicable principles of conflicts of laws thereof).

12. **Amendment.** This Agreement may not be amended, modified, waived, or terminated except in a writing signed by Assignor, on the one hand, and Assignee, on the other hand.
