## AMENDED AND RESTATED INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Amended and Restated Intellectual Property Security Agreement (the “**IP Security Agreement**”) is entered into as of the 5th day of April, 2013 by and between MIDCAP FUNDING IV, LLC, a Delaware limited liability company (“**Agent**”) and each of DEN-MAT HOLDINGS, LLC, a Delaware limited liability company, DMHP LLC, a Delaware limited liability company, and PERIOPTIX, INC., a California corporation (each a “**Grantor**” and collectively, the “**Grantors**”).

### RECITALS

A. Grantors and Agent, as successor-in-interest to MidCap Financial, LLC, are parties to that certain Credit and Security Agreement, dated as of July 31, 2012, as amended by that certain Joinder and Amendment No. 1 to Credit and Security Agreement, dated as of December 10, 2012, whereby Perioptix was joined as a Borrower and Grantor, and that certain Amendment No. 2 to Credit and Security Agreement and Limited Waiver, dated as of January 29, 2013 (as so amended, the “**Original Credit Agreement**”), pursuant to which Agent and Lenders agreed to make certain advances of money and to extend certain financial accommodations to Grantors (the “**Loans**”) in the amounts and manner set forth therein.

B. In connection with the Original Credit Agreement, Grantors executed and delivered that certain Intellectual Property Security Agreement, dated as of July 31, 2012, by and among Grantors and Agent (as the same may be amended, modified, supplemented and restated from time to time, the “**Original IP Security Agreement**”).

C. The Grantors and the Lenders have agreed to amend and restate the Original Credit Agreement, pursuant to the terms and conditions of that certain Amended and Restated Credit and Security Agreement dated as of the date hereof, by and among Agent, the Lenders, the Grantors, as Borrowers, and the other Credit Parties that are party thereto (as the same may be amended, modified, supplemented and restated from time to time, the “**Credit Agreement**”), but only upon the condition, among others, that the Grantors execute and deliver this IP Security Agreement to Agent, for the ratable benefit of the Lenders, to amend and restate the Original IP Security Agreement in its entirety and to secure the obligations of the Grantors under the Credit Agreement.

D. Pursuant to the terms of the Credit Agreement, the Grantors granted to Agent, for the ratable benefit of the Lenders, a security interest in all of the Grantors’ right, title and interest, whether presently existing or hereafter acquired, in, to and under all of the Collateral.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, as collateral security for the prompt and complete payment when due of its obligations under the Credit Agreement, each Grantor hereby agrees to amend and restate the Original IP Security Agreement in its entirety as follows:

## AGREEMENT

In furtherance and as confirmation of the security interest granted by the Grantors to the Agent under the Credit Agreement, to secure its obligations under the Credit Agreement, each Grantor hereby ratifies such security interest and grants and pledges to the Agent, for the ratable benefit of the Lenders, a continuing security interest in all of such Grantor's right, title and interest in, to and under the intellectual property rights owned by such Grantor (all of which shall collectively be called the "**Intellectual Property Collateral**"), including, without limitation, the following:

(a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work or authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, in each case owned by such Grantor, now or hereafter existing, created or acquired, including without limitation those copyright registrations and applications set forth on Exhibit A attached hereto (collectively, the "**Copyrights**");

(b) Any and all trade secrets, and any and all intellectual property rights in computer software and computer software products, in each case owned by such Grantor, now or hereafter existing, created or acquired

(c) Any and all design rights that may be available to such Grantor, now or hereafter existing, created, acquired or held by such Grantor;

(d) All patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, in each case owned by such Grantor, including without limitation those patents and patent applications set forth on Exhibit B attached hereto (collectively, the "**Patents**");

(e) Any trademark and service mark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, in each case owned by such Grantor, including without limitation those trademark registrations and applications set forth on Exhibit C attached hereto.;

(f) All mask works or similar rights available for the protection of semiconductor chips, owned by such Grantor, now owned or hereafter acquired, including, without limitation those mask work registrations and applications set forth on Exhibit D attached hereto (collectively, the "**Mask Works**");

(g) Any and all claims for damages by way of past, present and future infringements of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(h) All licenses or other rights to use any of the Copyrights, Patents, Trademarks, or Mask Works and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(i) All amendments, extensions, renewals and extensions of any of the Copyrights, Trademarks, Patents, or Mask Works; and

(j) All proceeds and products of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

This security interest is granted in conjunction with the security interest granted to Agent, for the ratable benefit of the Lenders, under the Credit Agreement. The rights and remedies of Agent with respect to the security interest granted hereby are in addition to those set forth in the Credit Agreement and the other Financing Documents, and those which are now or hereafter available to Agent as a matter of law or equity. Each right, power and remedy of Agent provided for herein or in the Credit Agreement or any of the Financing Documents, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right, power or remedy provided for herein and the exercise by Agent of any one or more of the rights, powers or remedies provided for in this Intellectual Property Security Agreement, the Credit Agreement or any of the other Financing Documents, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by any person, including Agent, of any or all other rights, powers or remedies.

[Signature page follows.]

IN WITNESS WHEREOF, the parties have caused this Amended and Restated Intellectual Property Security Agreement to be duly executed by its officers thereunto duly authorized as of the first date written above.

## EXHIBIT B

### Patents

PERIOPTIX, INC.:

#### Patents:

1. Issued Patent number US 7,675,678 B2, Locking Inter-pupillary Distance and Convergence Adjustment Mechanism, issued March 9, 2010. The patent describes a design of a mechanism for connecting loupe barrels to loupe cross arm to lock the convergence alignment of the two barrels, specifically, the use of 2 couplings to connect each barrel to its arm – one pivotable, one slidable.

2. Continuation of application for 7,675,678, Number US 12/624,376, Locking Inter-pupillary Distance and Convergence Adjustment Mechanism, Application date November 23, 2009. The patent relates to the design of a mechanism for locking inter-pupillary distance of two loupe barrels.

3. Continuation in part of patent 7,675,678, number US 12/629,848, Convergence Adjustment Mechanism, filing date December 2, 2009 is allowed and issue fee is paid. The parent relates to a convergence locking mechanism that uses a pin for the pivotable coupling.
