## PATENT AND TRADEMARK SECURITY AGREEMENT

This PATENT AND TRADEMARK SECURITY AGREEMENT (this "IP Security Agreement") is made this 21<sup>st</sup> day of May, 2013, among POOF-Slinky, LLC ("Grantor"), and Bank of America, N.A. (together with its successors, "Bank").

WITNESSETH:

WHEREAS, pursuant to that certain Loan Agreement of even date herewith (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement") among Grantor, Alex Toys, LLC ("Alex Toys" and, together with Grantor, "Borrower") and Bank, Bank is willing to make certain financial accommodations available to Borrower pursuant to the terms and conditions thereof; and

WHEREAS, Bank is willing to make the financial accommodations to Borrower as provided for in the Credit Agreement, but only upon the condition, among others, that Borrower shall have executed and delivered to Bank, that certain Security Agreement dated of even date herewith (including all annexes, exhibits or schedules thereto, as from time to time amended, restated, supplemented or otherwise modified, the "Security Agreement");

WHEREAS, pursuant to the Security Agreement, Grantor is required to execute and deliver to Bank this IP Security Agreement;

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement or the Credit Agreement.

2. GRANT OF SECURITY INTEREST IN TRADEMARK COLLATERAL. Grantor hereby grants to Bank a continuing security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Trademark Collateral"):

- (a) all of its trademarks including those referred to on Schedule I hereto (the "Trademarks");
- (b) all renewals of the items described in 2(a), above;
- (c) all goodwill of the business connected with the use of, and symbolized by, each Trademark;
- (d) all contract rights, documents, applications and licenses (other than any computer software license or agreement from a third party which by its express terms cannot be encumbered as contemplated by the Security Agreement) related to the Trademarks;
- (e) all tangible property embodying or incorporating any of the Trademarks; and
- (f) all products and proceeds of the foregoing, including any claim by Grantor against third parties for past, present or future (i) infringement or dilution of any Trademark or (ii) injury to the goodwill associated with any Trademark or any Trademark licensed under any intellectual property license.

3. GRANT OF SECURITY INTEREST IN PATENTS. Grantor hereby grants to Bank a continuing security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Patent Collateral" and, together with the Trademark Collateral, collectively, the "IP Collateral"):

- (a) all of its patents including those referred to in Schedule II hereto (the "Patents");
- (b) all other extant letters patent of the United States or any other country or political subdivision, all formulations, inventions, registrations and recordings thereof in the United States or any other country or political subdivision, all applications for letters patent of the United States or any other country or political subdivision (the "Future Patents"), including, without limitation, all formulations, inventions, registrations, recordings and applications in the United States Patent and Trademark Office or any other country or political subdivision;
- (c) all reissues, continuations, divisions, continuations in part or extensions of any of the foregoing;
- (d) all formulations and inventions disclosed and claimed therein, including all improvements thereto and the right to make, use and/or sell the formulations and inventions disclosed and claimed therein;
- (e) the right to sue for past, present and future infringement of any of the foregoing;
- (f) any written agreement executed or to be executed by Grantor granting to any third party any right to practice any formulation and/or invention disclosed or claimed in a patent, now or hereafter held by Grantor, or granting to Grantor any right to practice any formulations and/or inventions disclosed and claimed in a patent now or hereafter owned by any third party;
- (g) any claim of Grantor against third parties for past, present or infringement of any patent or patent license, and any and all other amounts from time to time paid or payable in connection with any of the foregoing, and any and all other products and proceeds of the foregoing.

4. SECURITY FOR OBLIGATIONS. This IP Security Agreement and the security interest created hereby secures the payment and performance of all the Indebtedness, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this IP Security Agreement secures the payment of all amounts that constitute part of the Indebtedness owed by Grantor to Bank, whether or not they are unenforceable or not allowable due to the existence of an insolvency proceeding involving Grantor.

5. SECURITY AGREEMENT. This IP Security Agreement has been executed and delivered by Grantor for the purpose of registering the security interest of Bank in the IP Collateral with the United States Patent and Trademark Office. The security interests granted pursuant to this IP Security Agreement are granted in conjunction with the security interests granted to Bank, pursuant to the Security Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Bank with respect to the security interest in the IP Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. AUTHORIZATION TO SUPPLEMENT. If Grantor shall obtain rights to any new Trademarks or Patents, the provisions of this IP Security Agreement shall automatically apply thereto. Grantor shall give prompt notice in writing to Bank with respect to any such new trademarks or patents or renewal or extension of any trademark or patent registration. Without limiting Grantor's obligations under this Section, Grantor hereby authorizes Bank unilaterally (but with notice to Grantor) to modify this Agreement by (i) amending Schedule I to include any such new trademark rights of Grantor and (ii) amending Schedule II to include any such new patent rights of Grantor. Notwithstanding the foregoing,

no failure to so modify this IP Security Agreement or amend Schedule I or Schedule II shall in any way affect, invalidate or detract from Bank's continuing security interest in all IP Collateral, whether or not listed on Schedule I or Schedule II. Grantor shall execute and deliver to Bank such amendments, modifications and/or supplements to this IP Security Agreement as Bank reasonably requests so as to cause this IP Security Agreement to apply to any such new Trademarks or Patents.

7. POWER OF ATTORNEY. Grantor hereby constitutes and appoints Bank the true and lawful attorney of Grantor with full power of substitution to take any and all appropriate action and to execute any and all documents, instruments or applications that may be necessary or desirable to accomplish the purpose and carry out the terms of this IP Security Agreement. The foregoing power of attorney (i) is coupled with an interest, (ii) may be used by Bank only following an Event of Default under the Credit Agreement and (iii) shall be irrevocable until all of the Indebtedness have been paid in full. Neither Bank nor anyone acting on Bank's behalf shall be liable for acts, omissions, errors in judgment, or mistakes in fact in such capacity as attorney-in-fact. Grantor ratifies all acts of Grantor as attorney-in-fact. Grantor agrees to take such other actions, at Grantor's expense, as might be requested for the perfection, continuation and assignment, in whole or in part, of the security interests granted herein and to assure and preserve Bank's intended priority position.

8. COUNTERPARTS. This IP Security Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all such separate counterparts shall together constitute but one and the same instrument. In proving this IP Security Agreement or any other Loan Document in any judicial proceedings, it shall not be necessary to produce or account for more than one such counterpart signed by the party against whom such enforcement is sought. Any signatures delivered by a party by facsimile transmission or by e-mail transmission shall be deemed an original signature hereto.

9. CONSTRUCTION. Unless the context of this IP Security Agreement or any other Loan Document clearly requires otherwise, references to the plural include the singular, references to the singular include the plural, the terms "includes" and "including" are not limiting, and the term "or" has, except where otherwise indicated, the inclusive meaning represented by the phrase "and/or." The words "hereof," "herein," "hereby," "hereunder," and similar terms in this IP Security Agreement or any other Loan Document refer to this IP Security Agreement or such other Loan Document, as the case may be, as a whole and not to any particular provision of this IP Security Agreement or such other Loan Document, as the case may be. Section, subsection, clause, schedule, and exhibit references herein are to this Agreement unless otherwise specified. Any reference in this IP Security Agreement or in any other Loan Document to any agreement, instrument, or document shall include all alterations, amendments, changes, extensions, modifications, renewals, replacements, substitutions, joinders, and supplements, thereto and thereof, as applicable (subject to any restrictions on such alterations, amendments, changes, extensions, modifications, renewals, replacements, substitutions, joinders, and supplements set forth herein). Any reference herein or in any other Loan Document to the satisfaction or repayment in full of the Indebtedness shall mean the repayment in full in cash (or cash collateralization in accordance with the terms of the Credit Agreement) of all Indebtedness. Any reference herein to any person shall be construed to include such person's successors and assigns. Any requirement of a writing contained herein or in any other Loan Document shall be satisfied by the transmission of a record and any record so transmitted shall constitute a representation and warranty as to the accuracy and completeness of the information contained therein.
