Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, the Grantors have entered into a Credit and Security Agreement dated as of June 7, 2013, (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), with Wilmington Trust, National Association, as Agent and the Lenders party thereto.

WHEREAS, as a condition precedent to the making of Loans by the Lenders under the Credit Agreement, certain of the Grantors granted to the Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain Intellectual Property of such Grantors, and, as a condition thereof, are required to execute this IP Security Agreement for the purposes of recording the Agent's security interest.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. As security for the payment or performance, as the case may be, in full of the Obligations, each Grantor hereby collaterally assigns and pledges to the Agent, its successors and assigns, for the ratable benefit of the Secured Parties, and hereby grants to the Agent, its successors and assigns, for the ratable benefit of the Secured Parties, a security interest (the "Security Interest"), in all right, title or interest in or to any and all of the following Collateral (to the extent the following is not Excluded Collateral) now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest:

- (i) Patents, including the U.S. patents and patent applications set forth in Schedule A hereto (the "Patent Collateral");

- (ii) Trademarks, including the U.S. trademark and service mark registrations and applications set forth in Schedule B hereto (provided that the Trademark Collateral shall not include, and the Security Interest granted hereunder shall not attach to, any applications for trademarks or service marks filed in the PTO on the basis of any Grantor's intent to use any such mark pursuant to 15 U.S.C. § 1051 Section 1(b) unless and until evidence of use of the mark in interstate commerce is submitted to the PTO pursuant to 15 U.S.C. § 1060(a), at which point the term "Trademark Collateral" shall include, and the Security Interest granted hereunder shall attach to, such application), together with the goodwill symbolized thereby (the "Trademark Collateral");
- (iii) Copyrights, including the U.S. copyright registrations set forth in Schedule C hereto (the "Copyright Collateral");
- (iv) Copyright Licenses, including the exclusive copyright licenses set forth in Schedule C hereto;
- (v) Patent Licenses
- (vi) Trademark Licenses
- (vii) Software
- (viii) Trade Secrets
- (ix) General Intangibles
- (x) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- (xi) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of the Security Interest in the Collateral by the Grantors under this IP Security Agreement secures the payment of all Obligations of the Grantors now or hereafter existing under or in respect of the Credit Agreement and the Other Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this IP Security Agreement secures, as to the Grantors, the payment of all amounts that constitute part of the Obligations and that would be owed by the Grantors to any Lender under the Credit

Agreement and the Other Documents but for the fact that such Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Credit Party.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original but all of which when taken together shall constitute a single contract and shall become effective as provided in Section 16.13 of the Credit Agreement. Delivery of an executed signature page to this IP Security Agreement by facsimile transmission shall be as effective as delivery of a manually signed counterpart of this IP Security Agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into as contemplated by the provisions of the Credit Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the Security Interest hereunder to, and the rights and remedies of, the Agent with respect to the Collateral are more fully set forth in the Credit Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.
