INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment (the "Assignment") is made to be effective as of 12:00 A.M. (EST) on the 29th day of December, 2013 by and between UTRECHT MANUFACTURING CORPORATION, a Delaware corporation ("Assignor") and BLICK ART MATERIALS, LLC, a Delaware limited liability company ("Assignee", and, together with the Assignor, the "Parties").

RECITALS

WHEREAS, the Assignor desires to become a member of the Assignee and is required to make a capital contribution to the Assignee in order to receive its membership interest in the Assignee; and

WHEREAS, as a portion of its capital contribution, the Parties agreed to enter into this Assignment pursuant to which the Assignor shall assign and contribute to the Assignee all of the Assignor's right, title and interest in and to all of the Assignor's intellectual property and goodwill associated therewith.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

AGREEMENT

1. Assignment. The Assignor hereby assigns, transfers, conveys and contributes to the Assignee all of the Assignor's right, title and interest in and to the intellectual property and goodwill of the Assignor, including, but not limited to, all intellectual property listed on Exhibit A hereto, all other trademarks, service marks, domain names, software, websites, designs, modifications, concepts, ideas, formulas, devices, technology, know-how, research and development, inventions, methods, compositions, scripts, algorithms, databases, code, processes, discoveries, inventions, trade secrets, works of authorship (in any medium), logos, artwork, documents and other materials related to the business of the Assignor or otherwise conceived, created, or developed, alone or with others in connection with the business of the Assignor, whether or not patentable or copyrightable, together with any and all patents, copyrights, trade secrets and other intangible rights, including the goodwill associated with such intellectual property and all common law rights therein and applications to register therefor and all income, royalties, fees, damages, and payments now or hereafter due or payable with respect thereto, and all rights of actions and damages for any infringements occurring prior to or after the date of this Assignment (the "Intellectual Property"). Following such assignment, Assignee may exploit the Intellectual Property in any manner, including having third parties exercise its rights.

2. Recordation of Patents, Trademarks and Copyrights. The Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, Register of Copyrights of the United States and any official of any state or non-United States

country whose duty it is to issue intellectual property registrations, to issue all registrations from any applications for registration included in the Intellectual Property to the Assignee.

3. Assistance. The Assignor agrees that, on and after the date of this Assignment and upon request and without further compensation (except reimbursement of reasonable out-of-pocket costs of compliance herewith), the Assignor will, and will take reasonable actions to cause Assignor's legal representatives and assigns to, do all lawful acts as are consistent with the provisions of this Assignment, including the execution of papers and the giving of truthful testimony, that may be necessary or reasonably requested by the Assignee for obtaining, sustaining, maintaining, renewing and enforcing the rights in the Intellectual Property conveyed hereby, and for recording and maintaining the right and title conveyed to the Assignee herein, and Assignee's successors and assigns. The Assignor hereby appoints the Assignee as the Assignor's true and lawful attorney in fact, with full power of substitution and re-substitution, in whole or in part, in the name and stead of Assignor, to take any and all steps, including proceedings at law, in equity or otherwise, to execute, acknowledge and deliver any and all instruments and assurances necessary or expedient in order to vest or perfect the aforesaid rights and causes of action more effectively in the Assignee or to protect the same or to enforce any claim or right of any kind with respect thereto. The Assignor hereby declares that the foregoing power is coupled with an interest and as such is irrevocable.

4. Governing Law. This Assignment shall be governed by, and construed in accordance with, the laws of the State of Illinois applicable to contracts executed in and to be performed entirely within that State.

5. Successors. This Assignment shall be binding upon the parties and their respective heirs, legal representatives, successors and assigns.

6. Severability. In the event that any provision of this Assignment shall be held unenforceable or invalid, such provision shall be amended and interpreted so as to best accomplish the economic objectives of the original provision. The other parts of this Assignment shall remain in full force and effect.

7. Counterparts. This Assignment may be executed in one or more counterparts, and by the different Parties in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.
