PATENT AND TRADEMARK SECURITY AGREEMENT dated as of August 7, 2015 (this "Agreement"), among NAVISTAR INTERNATIONAL CORPORATION, a Delaware corporation ("Parent"), NAVISTAR, INC., a Delaware corporation (the "Borrower"), the other Subsidiary Credit Parties from time to time party hereto and JPMorgan Chase Bank, N.A. ("JPMCB"), as Collateral Agent.

Reference is made to (a) the Credit Agreement dated as of August 17, 2012 (as amended and restated as of August 7, 2015, and as further amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), among Parent, the Borrower, the Lenders from time to time party thereto and JPMCB, as Administrative Agent and the Collateral Agent and (b) the Guarantee and Collateral Agreement dated as of August 17, 2012 (as amended, restated, supplemented or otherwise modified from time to time, the "Collateral Agreement"), among Parent, the Borrower, certain other Subsidiaries from time to time party thereto and JPMCB, as Collateral Agent. The Lenders have extended, and have agreed to extend credit to the Borrower subject to the terms and conditions set forth in the Credit Agreement. The obligations of the Lenders to extend such credit are conditioned upon, among other things, the execution and delivery of this Agreement. Parent and the Subsidiary Credit Parties party hereto (other than the Borrower) are Affiliates of the Borrower, will derive substantial benefits from the extension of credit to the Borrower pursuant to the Credit Agreement and are willing to execute and deliver this Agreement in order to induce the Lenders to extend such credit. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Each capitalized term used but not otherwise defined herein shall have the meaning specified in the Credit Agreement or the Collateral Agreement, as applicable. The rules of construction specified in Sections 1.2 and 1.3 of the Credit Agreement also apply to this Agreement, mutatis mutandis.

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Obligations (other than, in the case of security interests granted by any Subsidiary Credit Party, any Obligation of Parent), each Grantor pursuant to the Collateral Agreement did, and hereby does, grant to the Collateral Agent, its successors and permitted assigns, for the benefit of the Secured Parties, a security interest in all right, title and interest in, to and under any and all of the following assets now owned or at any time hereafter acquired by such Grantor or in, to or under which such Grantor now has or at any time hereafter may acquire any right, title or interest (collectively, the "U.S. Patent and Trademark Collateral"):

- (i) all letters patent of the United States of America, all registrations and recordings thereof, and all applications for letters patent of the United States of America, including registrations, recordings and pending applications in the United States Patent and Trademark Office, including those listed on Schedule I, and
- (ii) all reissues, continuations, divisions, continuations-in-part, renewals or

extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use and/or sell the inventions disclosed or claimed therein; and

(a) all U.S. trademarks, service marks, trade names, corporate names, company names, business names, fictitious business names, trade styles, trade dress, logos, other source or business identifiers, designs and general intangibles of like nature, all registrations and recordings thereof, and all registration and recording applications filed in connection therewith, including registrations and registration applications in the United States Patent and Trademark Office or any similar offices in any State of the United States of America, and all extensions or renewals thereof, including those listed on Schedule II.

Notwithstanding anything herein to the contrary, if, to the extent and for so long as any of the foregoing is an Excluded Asset, the security interest granted under this Section shall not attach to, and U.S. Patent and Trademark Collateral shall not include, such asset (it being understood that the security interest shall immediately attach to, and U.S. Patent and Trademark Collateral shall immediately include, any such asset (or any portion thereof) upon such asset (or such portion thereof) ceasing to be an Excluded Asset).

SECTION 3. Collateral Agreement. The security interests granted to the Collateral Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Collateral Agent pursuant to the Collateral Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the U.S. Patent and Trademark Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein (including, for the avoidance of doubt, Section 7.18 thereof). In the event of any conflict between the terms of this Agreement and the Collateral Agreement, the terms of the Collateral Agreement shall govern and control in all respects.

a) SECTION 4. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic imaging shall be effective as delivery of a manually executed counterpart of this Agreement.

b) SECTION 5. Termination. The security interests granted in this Agreement shall be terminated and released in accordance with Section 7.12 of the Collateral Agreement.
