PATENT AND TRADEMARK SECURITY AGREEMENT

THIS PATENT AND TRADEMARK SECURITY AGREEMENT (this "Agreement"), dated as of November 30, 2015 among WORLDWISE, INC., a California corporation (the "Borrower"), QUAKER DOG, LLC, a Delaware limited liability company ("Quaker Dog"), QPG SHERPA, LLC, a Delaware limited liability company ("QPG Sherpa"), and QUAKER PET GROUP, INC., a Delaware corporation ("QPG" and together with the Borrower, Quaker Dog and QPG Sherpa, the "Grantors" and each, a "Grantor"), in favor of PRAESIDIAN CAPITAL OPPORTUNITY FUND III, LP, a Delaware limited partnership ("Fund III"), as agent (Fund III, in such capacity, the "Agent") for the Lenders (as such term is defined in the Securities Purchase Agreement).

This Agreement refers to (a) a Second Amended and Restated Securities Purchase Agreement dated as of the date hereof, entered into among the Borrower, Mistral Worldwide Holdings, Inc., a Delaware corporation, the Agent, Fund III and Praesidian Capital Opportunity Fund III-A, LP, a Delaware limited partnership (as amended, restated, supplemented, or otherwise modified from time to time, the "Securities Purchase Agreement"), pursuant to which the Lenders have agreed to make loans to the Borrower; and (b) a Guaranty and Collateral Agreement dated as of the date hereof, entered into among the Grantors, the other Persons who are or become parties thereto as "Grantors" thereunder, and the Agent (as amended, restated, supplemented, or otherwise modified from time to time, the "Guaranty and Collateral Agreement"), pursuant to which the Obligations of the Borrower under the Securities Purchase Agreement are secured. Unless otherwise defined herein, all capitalized terms used herein shall have the respective meanings ascribed thereto in the Securities Purchase Agreement or the Guaranty and Collateral Agreement, as applicable.

Pursuant to the Guaranty and Collateral Agreement, each Grantor has granted to the Agent, for the benefit of the Agent and the Lenders, a security interest in substantially all of its assets, including all of its right, title, and interest in, to, and under all now owned and hereafter acquired patents, patent applications, patent licenses, trademarks, trademark applications and trademark licenses, and all products and proceeds thereof, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of the Secured Obligations. Pursuant to the Guaranty and Collateral Agreement, each Grantor is required to execute and deliver to the Agent, for the benefit of the Agent and the Lenders, this Agreement.

In consideration of the mutual agreements set forth herein and in the Securities Purchase Agreement and the Guaranty and Collateral Agreement, each Grantor does hereby grant to the Agent, for the benefit of the Agent and the Lenders, a continuing security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired:

- (1) Any and all trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks and service mark applications, including (i) the trade names, registered trademarks, trademark applications, registered service marks and service mark applications listed on Schedule 1, (ii) all renewals thereof, (iii) all licenses, income, royalties, damages

and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past or future infringements or dilutions thereof, (iv) the right to sue for past, present and future infringements and dilutions thereof, (v) the goodwill of such Grantor's business symbolized by the foregoing or connected therewith, and (vi) all of such Grantor's rights corresponding thereto throughout the world (collectively, the "Trademarks");

- (2) All patents and patent applications, including (i) the patents and patent applications listed on Schedule 2, (ii) all continuations, divisionals, continuations-in-part, re-examinations, reissues, and renewals thereof and improvements thereon, (iii) all licenses, income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past, present, or future infringements thereof, (iv) the right to sue for past, present, and future infringements thereof, and (v) all of such Grantor's rights corresponding thereto throughout the world (collectively, the "Patents");
- (3) The goodwill of the business symbolized by each of the Trademarks, including, without limitation, all customer lists and other records relating to the distribution of products or services bearing the Trademarks; and
- (4) Any and all proceeds of any of the foregoing, including, without limitation, any claims by such Grantor against third parties for infringement of the Patents, the Trademarks or any licenses with respect to the Patents or the Trademarks.

This security interest is granted in conjunction with the security interests granted to the Agent pursuant to the Guaranty and Collateral Agreement and subject to limitations set forth therein and in the Securities Purchase Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Agent with respect to the security interest in the Trademarks and the Patents made and granted hereby are more fully set forth in the Securities Purchase Agreement and in the Guaranty and Collateral Agreement, the terms and provisions of each of which are incorporated by reference herein as if fully set forth herein.
