## PATENT AND TRADEMARK SECURITY AGREEMENT

THIS PATENT AND TRADEMARK SECURITY AGREEMENT (this "Agreement"), dated as of November 30, 2015, among WORLDWISE, INC., a California corporation (the "Grantor"), in favor of MONROE CAPITAL MANAGEMENT ADVISORS, LLC, a Delaware limited liability company, as Administrative Agent (the "Administrative Agent" and "Monroe Capital").

This Agreement refers to (a) a Credit Agreement dated as of the date hereof, entered into among Grantor, as Borrower, the financial institutions who are or become parties thereto as Lenders, Administrative Agent, and PNC Bank, National Association, as Servicing Agent (as amended, restated, supplemented, or otherwise modified from time to time, the "Credit Agreement"), pursuant to which the Lenders have agreed to make loans to, and issue or participate in letters of credit for the account of, Grantor; and (b) a Guaranty and Collateral Agreement dated as of the date hereof, entered into among Grantor, as a "Grantor" thereunder, the other Persons who are or become parties thereto as "Grantors" thereunder, and Administrative Agent (as amended, restated, supplemented, or otherwise modified from time to time, the "Guaranty and Collateral Agreement"), pursuant to which the Lenders have agreed to make loans to, and issue or participate in letters of credit for the account of, Grantor and/or its affiliates. Unless otherwise defined herein, all capitalized terms used herein shall have the respective meanings ascribed thereto in the Credit Agreement or the Guaranty and Collateral Agreement, as applicable.

Pursuant to the terms of the Credit Agreement and the Guaranty and Collateral Agreement, the Obligations of Grantor under the Credit Agreement are secured.

Pursuant to the Guaranty and Collateral Agreement, Grantor has granted to Administrative Agent, for the benefit of Agents and the Lenders, a security interest in substantially all of its assets, including all of its right, title, and interest in, to, and under all now owned and hereafter acquired patents, patent applications, patent licenses, trademarks, trademark applications and trademark licenses, and all products and proceeds thereof, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of the Secured Obligations. Pursuant to the Guaranty and Collateral Agreement, Grantor is required to execute and deliver to Administrative Agent, for the benefit of Agents and the Lenders, this Agreement.

In consideration of the mutual agreements set forth herein and in the Credit Agreement and the Guaranty and Collateral Agreement, Grantor does hereby grant to Administrative Agent, for the benefit of Agents and the Lenders, a continuing security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired:

- (1) Any and all trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks and service mark applications, including (i) the trade names, registered trademarks, trademark applications, registered service marks and service mark applications listed on Schedule 1, (ii) all renewals thereof, (iii) all licenses, income, royalties, damages

and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past or future infringements or dilutions thereof, (iv) the right to sue for past, present and future infringements and dilutions thereof, (v) the goodwill of each Grantor's business symbolized by the foregoing or connected therewith, and (vi) all of each Grantor's rights corresponding thereto throughout the world (collectively, the "Trademarks");

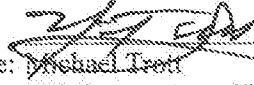

- (2) All patents and patent applications, including (i) the patents and patent applications listed on Schedule 2, (ii) all continuations, divisionals, continuations-in-part, re-examinations, reissues, and renewals thereof and improvements thereon, (iii) all licenses, income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past, present, or future infringements thereof, (iv) the right to sue for past, present, and future infringements thereof, and (v) all of each Grantor's rights corresponding thereto throughout the world (collectively, the "Patents");
- (3) The goodwill of the business symbolized by each of the Trademarks, including, without limitation, all customer lists and other records relating to the distribution of products or services bearing the Trademarks; and
- (4) Any and all proceeds of any of the foregoing, including, without limitation, any claims by Grantor against third parties for infringement of the Patents, the Trademarks or any licenses with respect to the Patents or the Trademarks.

This security interest is granted in conjunction with the security interests granted to Administrative Agent pursuant to the Guaranty and Collateral Agreement and subject to limitations set forth therein and in the Credit Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Administrative Agent with respect to the security interest in the Trademarks and the Patents made and granted hereby are more fully set forth in the Credit Agreement and in the Guaranty and Collateral Agreement, the terms and provisions of each of which are incorporated by reference herein as if fully set forth herein.
