**BILL OF SALE AND ASSIGNMENT**  
**(IP Property)**

Reference is hereby made to that certain Asset Purchase Agreement dated as of February 29, 2016, by and between Outdoor Direct Corporation, a Texas corporation and Chapter 11 debtor in possession formerly known as The Brinkmann Corporation, and Q-Beam Corporation, a Texas corporation and Chapter 11 debtor in possession, as Sellers, and Viatek Consumer Products Group, Inc., a Florida corporation, as Buyer (the "*Purchase Agreement*"). Except for terms specifically defined in this Bill of Sale and Assignment (this "*Bill of Sale*"), all capitalized terms used herein shall have the same meanings as such terms have when utilized in the Purchase Agreement.

Pursuant to the Purchase Agreement, this Bill of Sale is entered into as of this 4th day of May, 2016 by the undersigned Assignors ("*Assignors*") in favor of Buyer under the Purchase Agreement ("*Assignee*") concurrently with the Closing under the Purchase Agreement.

NOW, THEREFORE, in consideration of the premises and covenants set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. **Assignment.** Subject to Section 2 hereof, Assignors hereby agree to assign and transfer to Assignee, and does hereby transfer and assign, all right, title, and interest of Assignors in and to the items identified in Schedule I.1 of the Purchase Agreement (the "*Flashlight Materials*") and any and all Intellectual Property Rights used in the design, manufacture, distribution, marketing or sale of the Flashlight Materials, including any and all renewals and extensions of such intellectual property rights that may be secured under the laws now or hereafter pertaining thereto in the United States or in any other country and also including the right to enforce, bring suit, and otherwise collect all damages related to infringement of the Flashlight Materials by any third party. For purposes of this Bill of Sale, "Intellectual Property Rights" means all rights in intellectual property (other than any Excluded Assets) owned by Assignors in any jurisdiction, including without limitation rights in, arising out of, or associated with Works of Authorship, including without limitation rights in maskworks, product packaging and advertising materials, and databases and rights granted under the Copyright Act ("Copyrights"); rights in, arising out of, or associated with inventions (whether patentable or not), including without limitation rights granted under the Patent Act ("Patent Rights"); rights in, arising out of, or associated with Trademarks, including without limitation rights granted under the Lanham Act and all common law trademark rights ("Trademark Rights") and all attendant goodwill associated with said Trademark Rights; rights in, arising out of, or associated with Confidential Information, including without limitation rights granted under the Uniform Trade Secrets Act, know-how, all information required to manufacture the products associated with the Flashlight Materials, customer lists, vendors, suppliers, etc. ("Trade Secret Rights"); rights in, arising out of, or associated with a person's name, voice, signature, photograph, or likeness, including without limitation rights of personality, privacy, and publicity ("Personality Rights"); rights of attribution and integrity and other moral rights of an author ("Moral Rights"); and rights in, arising out of, or associated with domain names ("Domain Name Rights") whether arising under the laws of the United States or any other country.
2. **Excluded Assets.** For avoidance of doubt, notwithstanding any other provision of this Bill of Sale or Schedule I.1 to the contrary, neither the "Flashlight Materials" nor the "Intellectual Property Rights" include any Excluded Assets or any right, title or interest of any of the Assignors therein or thereto, and nothing set forth in this Bill of Sale shall be construed to effect

or require the assignment, sale, transfer or conveyance of any Excluded Assets or any such right, title or interest.

3. **Consideration.** In exchange for assignments made by Assignor herein, Assignee shall pay Assignor an amount equal to Four Hundred Thousand Dollars (\$400,000) in cash in accordance with the terms of the Purchase Agreement.
4. **Cooperation Following the Execution.** Assignors covenant and agree to execute and deliver further instruments of transfer and assignment and take such other action as Buyer may reasonably request to more effectively transfer and assign to and vest in Buyer the IP Property; *provided, however*, that nothing herein shall be deemed to require Assignors to execute or deliver any such further document or instrument or take any such action to the extent that the same could in any material way increase the burdens, obligations or liabilities otherwise imposed upon Assignors by the Purchase Agreement, except in the event of additional monetary obligations, if Buyer advances the amount thereof to Assignors.
5. **Power of Attorney.** If at any time after the Closing Date the signature(s) of Assignors shall be required in connection with the filing of any application, registration, or other document reasonably necessary to further the prosecution of any letters patent, copyright, or trademark assignments or applications for registrations pertaining to the Flashlight Materials and the Intellectual Property, and Assignee has not received such signature(s) within fifteen (15) days of making written request therefor in accordance with the Purchase Agreement, and regardless of whether such signature(s) has/have not been received by reason of Assignors' inability or unwillingness to provide the same or otherwise, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as its agents and attorneys-in-fact, to execute and file on its behalf and stead any and all such applications, registrations, or other such documents with the same legal force and effect as if executed by Assignor; *provided, however*, that Assignee shall not be authorized under this Section 6 to execute any such application, registration, or other such document or take any other action to the extent that the same could in any material way increase the burdens, obligations or liabilities otherwise imposed upon Assignors by the Purchase Agreement, and Assignee shall indemnify and hold harmless Assignors from and against any costs, losses or liabilities arising out of any action taken by Assignee on behalf of Assignors in reliance upon this Section 5.
6. **Other Matters.** This Bill of Sale and the provisions hereof are subject to the terms and conditions set forth in the Purchase Agreement (including, without limitation, the acknowledgement and disclaimer set forth in Section 7 of the Purchase Agreement and the survival provisions set forth in Section 12.12 of the Purchase Agreement) and the IP Property Sale Order. Assignors and Buyer hereby acknowledge and agree that the provisions of this Bill of Sale shall not modify or extend the force and effect or survival of the terms and provisions of the Purchase Agreement and the IP Property Sale Order. In the event of a conflict between the terms and provisions of this Bill of Sale and the terms and provisions of the Purchase Agreement and the IP Property Sale Order, the terms and provisions of the Purchase Agreement and the IP Property Sale Order shall prevail, govern and control in all respects without limitation.

IN WITNESS WHEREOF, Assignors have executed this Bill of Sale and Assignment as of the day and year set forth above.
