**Grant of Second Lien Security Interest  
in United States Patents and Trademarks**

FOR GOOD AND VALUABLE CONSIDERATION, receipt and sufficiency of which are hereby acknowledged, each of IPS Adhesives LLC, a Delaware limited liability company, IPS Corporation, a Delaware corporation, IPS Structural Adhesives, Inc., a Delaware corporation, and WATERTITE PRODUCTS, INC., a California corporation (collectively, the “Grantors”), each having its chief executive office at 455 West Victoria Street, Compton, California 90220, hereby grants to JEFFERIES FINANCE LLC, as Collateral Agent (the “Grantee”), with offices at 520 Madison Avenue, New York, New York 10022, a security interest in all of such Grantor’s right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the “Patent and Trademark Collateral”), whether presently existing or hereafter arising or acquired, which includes such Grantor’s rights to:

(i) all United States patents and patent applications, including, without limitation the patents and patent applications referred to in Schedule A hereto, and, with respect to any and all of the foregoing: (i) all reissues, reexaminations, divisions, continuations, continuations-in-part, revisions, renewals or extensions thereof; (ii) all claims for, and rights to sue for, past, present or future infringements and other violations thereof; (iii) all Proceeds of the foregoing, including, without limitation, all income, license fees, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including damages and payments for past, present or future infringements or other violations thereof; and (iv) all other rights corresponding thereto throughout the world; and

(ii) all United States trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, logos, certification marks, collective marks, brand names, trademark rights arising out of domain names and trade dress which are or have been used in the United States, in any state, province or territory or possession thereof, or in any other place, nation or jurisdiction, package and other designs, and any other source or business identifiers, and general intangibles of like nature, and the rights in any of the foregoing which arise under applicable Law, in each case whether registered or unregistered, and with respect to any and all of the foregoing: (i) the goodwill of the business symbolized thereby or associated therewith; (ii) all registrations and applications in connection therewith, including registrations and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state thereof or any other country or any political subdivision thereof, and including, without limitation, the registrations and applications referred to in Schedule (B) hereto; (iii) all extensions and renewals thereof; (iv) all claims for, and rights to sue for, past, present or future infringements, dilutions, and other violations thereof; (v) all Proceeds of the foregoing, including, without limitation, all income, license fees, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including damages and payments for past, present or future infringements, dilutions, or other violations thereof; and (vi) all other rights corresponding thereto throughout the world;

provided, however, that the Patent and Trademark Collateral shall not include and no Security Interest shall be deemed granted in any intent-to-use (ITU) United States application for a Trademark registration, for which an amendment to allege use or statement of use has not been filed under 15 U.S.C. § 1051(c) or 15 U.S.C. § 1051(d), respectively, in each case, only to the extent the grant of security interest in such intent-to-use Trademark is in violation of 15 U.S.C. § 1060 and only unless and until a “Statement of Use” or “Amendment to Allege Use” is filed with the United States Patent and Trademark Office.

THIS GRANT is granted in conjunction with the security interests granted to the Grantee pursuant to the Second Lien Security Agreement among the Grantors, the Grantee and certain other parties dated as of December 21, 2016, as amended, restated, supplemented or otherwise modified from time to time (the "Security Agreement"). The rights and remedies of the Grantee with respect to the security interests granted herein are without prejudice to, and are in addition to those set forth in the Security Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Agreement are deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall govern.

This Patent and Trademark Security Agreement may be authenticated by the parties hereto in any number of counterparts, each of which shall collectively and separately constitute one agreement.

Each Grantor authorizes and requests that the Commissioner of Patents and Trademarks and any other applicable government officer record this Patent and Trademark Security Agreement.

This Patent and Trademark Security Agreement shall be governed by, and construed in accordance with the laws of the State of New York.

This Patent and Trademark Security Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single agreement.

Notwithstanding anything herein to the contrary, the Liens and security interests granted to the Grantee pursuant to this Patent and Trademark Security Agreement in any Patent and Trademark Collateral and the exercise of any right or remedy by the Grantee with respect to any Patent and Trademark Collateral hereunder are subject to the provisions of the Intercreditor Agreement, dated as of December 21, 2016 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Intercreditor Agreement"), by and among IPS Acquisition, LLC, a Delaware limited liability company, as Holdings, IPS Intermediate Holdings Corporation and IPS Structural Adhesives Holdings, Inc., each a Delaware corporation, as the borrowers, the other Grantors (as defined in the Intercreditor Agreement) from time to time party thereto, Wells Fargo Bank, National Association, as ABL Agent, Jefferies Finance LLC ("Jefferies"), as First Lien Term Loan Agent, and Jefferies, as Second Lien Term Loan Agent, and certain other Persons party thereto or that may become party thereto from time to time. In the event of any conflict between the terms of the Intercreditor Agreement and this Patent and Trademark Security Agreement, the terms of the Intercreditor Agreement shall govern and control.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the parties hereto have duly executed this Agreement as of the day and year first above written.
