INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment Agreement (this "Assignment"), dated as of December 30, 2016, is made by Custom Molded Products, Inc., a Georgia corporation ("Assignor"), in favor of Custom Molded Products, LLC, a Delaware corporation ("Assignee"), in conjunction with the conversion of Assignor into Assignee as of November 21, 2013, pursuant to Section 18-214 of the Delaware Limited Liability Act (the "Conversion"), as evidenced by the Certificate of Conversion attached hereto as Attachment A.

NOW THEREFORE, the parties agree as follows:

1. Assignment. Assignor, effective November 21, 2013 pursuant to the Conversion, transferred, conveyed and/or assigned to Assignee all of its right, title and interest in Assignor's Intellectual Property, and to the extent any of Assignor's Intellectual Property was not transferred, conveyed and/or assigned pursuant to the Conversion, Assignor hereby transfers, conveys, and assigns to Assignee all of its right, title and interest in Assignor's Intellectual Property, and Assignee hereby accepts from Assignor all of Assignor's right, title and interest in Assignor's Intellectual Property, defined as and including:

a. All registered trademarks listed in the attached Schedule 1, and any other trade names, trademarks, and service marks (registered and unregistered), trade dress, and similar rights and applications (including intent to use applications) to register any of the foregoing and registrations and renewals therefor, together with all the goodwill of the business symbolized thereby;

b. All domain names and other Internet addresses or identifiers, including the domain names listed in the attached Schedule 2 to this Assignment;

c. All patents and patent applications listed in the attached Schedule 3 to this Assignment, and any other patents or applications therefor, including any continuations, divisionals, continuations-in-part or reissue of a patent applications and patents issuing thereon, industrial design registrations and applications, design rights, and inventions (each, a "Patent"); and

d. Any other Intellectual Property owned by Assignor, including (i) works of authorship (whether or not published), copyrights, designs and mask works and registrations (and any similar rights) and applications therefor (each, a "Copyright"), (ii) non-public know-how, inventions, discoveries, improvements, concepts, ideas, methods, processes, designs, plans, schematics, drawings, formulae, technical data, customer lists, specifications, research and development information, technology and product roadmaps, databases, and other confidential information or trade secrets, in each case protectable under the governmental rules of an applicable jurisdiction, excluding any Copyrights or Patents that may cover or protect any of the foregoing; (iii) computer software programs and software systems, including databases, compilations, tool sets, compilers, higher level or "proprietary" languages and related documentation and materials, whether in source code, object code or human readable form, all descriptions, flow-charts and other work product used to design, plan, organize, maintain, support or develop any of the foregoing, the technology supporting, and the contents and

audiovisual displays on any websites, and all documentation, including programmers' notes and source code annotations, user manuals and training materials relating to any of the foregoing, including any translations thereof; and (iv) any other intellectual property rights of any kind or nature.

2. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights and any other governmental officials to record and register this Assignment upon request by Assignee. Assignor shall execute any documents, files, registrations, or other similar items, as Assignee may reasonably request to ensure that the Intellectual Property is properly assigned to Assignee, or any assignee or successor thereto.

3. Successors and Assigns. The rights and obligations under this Assignment shall be transferrable by the Assignee, and shall be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

4. Amendment. This Assignment may not be altered, modified, or amended except by a written instrument signed by each of the parties hereto.

5. Governing Law. This Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based on, arising out of or relating to this Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the Laws of the United States and the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the Laws of any jurisdiction other than those of the State of Delaware.

6. Counterparts. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

IN WITNESS WHEREOF, Assignor has duly executed and delivered this Assignment as of the date first set forth above.
