INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT, dated as of July 19, 2016 (such date, the “Effective Date”, and such agreement, this “IP Assignment”), is entered into by and between Allergan Finance, LLC (f/k/a Actavis, Inc.) (“Assignor”) and Actavis Holdco US, Inc. (“Assignee”). Capitalized terms used but not defined herein shall have the meanings given to them in the Master Purchase Agreement, dated as of July 26, 2015 (the “Master Purchase Agreement”), by and between Allergan plc (“Allergan Parent”) and Teva Pharmaceutical Industries Ltd. (“Teva”), as it may be amended from time to time.

WITNESSETH:

WHEREAS, Allergan Parent and Teva have entered into that certain Master Purchase Agreement, pursuant to which Teva agreed to indirectly acquire and assume the Acquired Assets through the acquisition of the outstanding equity interests of certain Controlled Affiliates of Allergan Parent;

WHEREAS, Assignor owns certain Intellectual Property included in the Acquired Assets, including the (a) trademark and service mark registrations and trademark and service mark applications set forth on Schedule A, (b) patents and patent applications (including provisional applications) set forth on Schedule A and (c) the Internet domain names set forth on Schedule A (such owned Intellectual Property, collectively, the “Assigned IP”); and

WHEREAS, Assignor desires to assign, transfer, convey and deliver to Assignee, and Assignee wishes to acquire from Assignor, all of its right, title and interest in and to the Assigned IP and all goodwill associated therewith or symbolized thereby;

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants herein contained and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

1. Assignment. As of the Effective Date, Assignor hereby irrevocably assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts from Assignor, all right, title and interest that Assignor has in and to the Assigned IP, together with (a) all goodwill of the business associated with or symbolized by the Assigned IP, (b) all common law rights in, and all rights derived from, the Assigned IP and all registrations that may be granted thereon, and any renewals thereof and (c) any past, present or future claims or causes of action (either in law or in equity) arising out of or related to any infringement, misappropriation, dilution or other violation of any of the Assigned IP, and the right to sue for damages, injunctive relief, lost profits in connection therewith or any other remedy or otherwise recover therefor. The assignment contemplated herein is meant to be an absolute assignment and not by way of security.

2. Scope of Assignment. The parties hereto agree that certain of the Assigned IP may be jointly owned by Assignor and third parties and that assignment of such Assigned IP may require the consent of such third parties. Therefore, notwithstanding anything to the contrary contained herein, this Agreement shall not constitute an agreement to assign or transfer any

Assigned IP if an assignment or transfer thereof, without the consent of a third-party joint owner thereof, would constitute a breach or a violation of any agreement with such joint owner or would be ineffective under, or would constitute a violation of, any applicable law (and such consent is not obtained at or prior to the Effective Date). If Assignor and Assignee are not successful in obtaining such consent at or prior to the Closing or such assignment would constitute a violation of such laws, then Section 2.5(b) of the Master Purchase Agreement shall apply to the applicable Assigned IP.

3. Recordation. Assignee shall be solely responsible for all actions associated with the perfection of Assignee's right, title and interest in and to the Assigned IP and recordation and/or registration of this IP Assignment or any other document evidencing the assignment to Assignee of the Assigned IP. The Assignor hereby authorizes the Director of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record Assignee as the assignee and owner of the Assigned IP and to deliver to Assignee, and to Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this IP Assignment.

4. Entire Agreement. This IP Assignment, together with the Master Purchase Agreement, constitutes the sole and entire agreement of the parties to this IP Assignment with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings, representations and warranties and agreements, both written and oral, with respect to such subject matter. To the extent of any conflict between this IP Assignment and the Master Purchase Agreement, the Master Purchase Agreement will govern.

5. Governing Law. THIS AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

6. General Provisions. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment. Neither this IP Assignment nor any provision hereof shall be waived, amended, modified, changed, supplemented, discharged or terminated except by an instrument in writing executed by the parties. This IP Assignment is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

[Remainder of this page intentionally left blank]

IN WITNESS WHEREOF, the parties hereto have duly executed this IP Assignment with effect as of the Effective Date.
