This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "IP Assignment") is dated as of July 31, 2017, by and between Staging Concepts Acquisition, LLC, a Delaware limited liability company ("Assignor"), and Trex Commercial Products, Inc., a Delaware corporation ("Assignee"). Assignor and Assignee, and the other parties named therein, are parties to that certain Asset Purchase Agreement (the "Purchase Agreement"), dated as of even date herewith, pursuant to which Assignee will, among other things, purchase all rights, title and interests in and to Assignor's IP (the "IP Rights"), effective on the Closing Date. All capitalized terms not otherwise defined in this IP Assignment will have their respective meanings set forth in the Purchase Agreement.

RECITALS:

WHEREAS, pursuant to the Purchase Agreement, Assignor has agreed to convey to Assignee all rights, title and interests in and to all of the IP Rights, which includes, without limitation, the IP Rights listed on Exhibit A attached hereto (collectively, the "Assigned IP Rights").

AGREEMENTS:

NOW, THEREFORE, in consideration of the covenants and agreements contained herein and in the Purchase Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. Assignor hereby irrevocably sells, conveys, assigns, transfers, and delivers to Assignee and its successors and assigns forever, without any restrictions, limitations, or reservations, all of Assignor's right, title, and interest in and to the IP Rights, as fully and entirely as the same would have been held and enjoyed by Assignor had this IP Assignment not been made, including, without limitation, (a) any and all rights of priority thereto and renewals thereof, as may now or hereafter be granted to it by law, (b) all associated goodwill, (c) all income, royalties, or payments now or hereafter due or payable with respect thereto, and (d) any and all rights corresponding thereto throughout the world, including, without limitation, rights, interests, claims, and demands recoverable in law or equity that Assignor has or may have in profits and damages for past, present and future infringements of the IP Rights, including, without limitation, the right to compromise, sue for, and collect such profits and damages, and Assignee does hereby accept assignment of the IP Rights from Assignor.

2. Terms of IP Assignment. Assignor and Assignee hereby agree and acknowledge that this IP Assignment is being entered into pursuant to and subject to the terms and conditions set forth in the Purchase Agreement and does not create any additional representations or warranties or alter or amend any of the representations or warranties contained in the Purchase Agreement, nor shall this IP Assignment impair or diminish any of the rights or obligations of the parties to the Purchase Agreement, as set forth therein. In the event of any irreconcilable inconsistency between this IP Assignment and the Purchase Agreement, the Purchase Agreement shall control.

3. Recordation. This IP Assignment has been executed and delivered by Assignor with the intention of recording the assignment herein, as applicable, with the U.S. Patent and Trademark Office, the State of Minnesota Secretary of State, the State of Delaware Secretary of State, and any other similar governmental authorities throughout the United States and the world, and Assignee shall have the right to record this IP Assignment with any applicable governmental authority so as to perfect its ownership of the IP Rights. Without limiting the foregoing generalities, the undersigned hereby authorizes Woods Rogers PLC to file this IP Assignment with the United States Patent and Trademark Office and take all other necessary actions to effect and record the aforementioned release of Assignor's security interest in the IP Rights.

4. Further Assurances. Assignor covenants and agrees, at its own expense, to execute and to deliver, at the request of Assignee, such further instruments of transfer and assignment and to take such other action as Assignee may reasonably request from time to time to more effectively consummate the transfers and assignments contemplated by this IP Assignment, and to take such other action as Assignee may reasonably request of Assignor from time to time, to perfect or record the right or title of Assignee to the IP Rights transferred hereby.

5. Survival. Notwithstanding anything herein to the contrary, the terms and conditions of the Purchase Agreement shall survive the execution and delivery of this IP Assignment.

6. Dispute Resolution. Any dispute arising out of or relating to the negotiation, execution, delivery, interpretation, performance, non-performance or enforcement of this IP Assignment will be governed by Section 11.5 of the Purchase Agreement.

7. Assignment. This IP Assignment shall be binding upon and shall inure to the benefit of Assignee, Assignor, and each of their respective successors and permitted assigns.

8. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
