WHEREAS, Assignor and Assignee entered into that certain Asset Purchase Agreement, on the date hereof (the “Purchase Agreement”), pursuant to which, among other things, Assignor agreed to assign all right, title and interest in the Purchased Intellectual Property (as defined in the Purchase Agreement).

NOW, THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the parties hereto agree as follows:

1. Definitions. All capitalized terms used in this Assignment but not otherwise defined herein are given the meanings set forth in the Purchase Agreement.

2. Assignment. Assignor hereby irrevocably sells, assigns and transfers unto Assignee, and Assignee hereby accepts, the entire right, title and interest in and to the Purchased Intellectual Property in the United States and all countries throughout the world, including without limitation, the intellectual property set forth on Exhibit A hereto, together with and all inventions described therein and all prior patent applications filed thereon and all non-provisional applications for patent that are converted from or claim priority to said applications, and in and to any and all direct and indirect divisions, continuations and continuations-in-part of said applications, and any and all patents in the United States and all foreign countries which may be granted therefor and thereon, and reissues, reexaminations, other rights from administrative proceedings and extensions of said patents, and all rights under the International Convention for the Protection of Industrial Property including all rights of priority, and all revisions thereof, to the full end of the term or terms for which the foregoing may be granted, renewed and/or extended, any and all rights of recovery based on past and future infringement of the Purchased Intellectual Property and the goodwill in the Purchased Intellectual Property, free and clear of all Encumbrances.
