ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property (this "Assignment"), effective as of January 2, 2018 (the "Effective Date"), is by and between Lifespan Brands LLC, a Delaware limited liability company ("Assignor"), and Schylling Inc., a Delaware corporation ("Assignee").

WHEREAS, Assignor and Assignee entered into that certain Asset Purchase Agreement, on the date hereof (the "Purchase Agreement"), pursuant to which, among other things, Assignor agreed to assign all right, title and interest in the Purchased Intellectual Property (as defined in the Purchase Agreement).

NOW, THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the parties hereto agree as follows:

1. Definitions. All capitalized terms used in this Assignment but not otherwise defined herein are given the meanings set forth in the Purchase Agreement.

2. Assignment. Assignor hereby irrevocably sells, assigns and transfers unto Assignee, and Assignee hereby accepts, the entire right, title and interest in and to the Purchased Intellectual Property in the United States and all countries throughout the world, including without limitation, the intellectual property set forth on Exhibit A hereto, together with and all inventions described therein and all prior patent applications filed thereon and all non-provisional applications for patent that are converted from or claim priority to said applications, and in and to any and all direct and indirect divisions, continuations and continuations-in-part of said applications, and any and all patents in the United States and all foreign countries which may be granted therefor and thereon, and reissues, reexaminations, other rights from administrative proceedings and extensions of said patents, and all rights under the International Convention for the Protection of Industrial Property including all rights of priority, and all revisions thereof, to the full end of the term or terms for which the foregoing may be granted, renewed and/or extended, any and all rights of recovery based on past and future infringement of the Purchased Intellectual Property and the goodwill in the Purchased Intellectual Property, free and clear of all Encumbrances. Assignor hereby incorporates by reference the representations and warranties set forth in the Purchase Agreement relating to the Intellectual Property, and further represents and warrants that Assignee will have full right, title and interest to, and 100% ownership of, the Intellectual Property.

3. Terms of the Purchase Agreement. The terms of the Purchase Agreement, including, but not limited to, the representations, warranties, covenants, agreements and indemnities relating to the Intellectual Property are incorporated herein by this reference and the parties hereto acknowledge and agree that such representations, warranties, covenants, agreements and indemnities shall not be superseded hereby, but shall remain in full force and effect to the fullest extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern.

4. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Delaware.

5. Counterparts. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same instrument. A signed copy of this Assignment delivered by facsimile, email, portable document format (PDF) or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

6. Further Assurances. Assignor further covenants to execute all additional instruments and to do all things necessary for carrying out the purposes of this Assignment, including without limitation, the execution, delivery and filing with all applicable governmental bodies of any and all assignments of patents, patent applications, patent rights, trademarks, trademark applications, trademark rights and other instruments of assignment, conveyance or transfer of intangible or intellectual property rights and any other documents as Assignee shall deem necessary or determined to accomplish the purpose of this Assignment.
