INTELLECTUAL PROPERTY SECURITY AGREEMENT (TRADEMARKS)

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (TRADEMARKS) (as amended, amended and restated, supplemented or otherwise modified from time to time, the “IP Security Agreement”) dated May 18, 2018, is made by GIBSON BRANDS, INC., a Delaware corporation (in its capacity as Grantor hereunder, the “Grantor”) in favor of CORTLAND CAPITAL MARKET SERVICES LLC, as administrative and collateral agent (in such capacities, the “Agent”) for the Secured Parties (as defined in the Loan Agreement referred to below).

WHEREAS, the Grantor, in its capacity as Borrower thereunder (in such capacity, the “Borrower”) has entered into a Debtor-in-Possession Term Loan Agreement dated as of May 4, 2018 (as amended, amended and restated, supplemented or otherwise modified from time to time, the “Loan Agreement”), with the Agent, the lenders party thereto from time to time, and the guarantors party thereto from time to time. Terms defined in the Loan Agreement and not otherwise defined herein are used herein as defined in the Loan Agreement.

WHEREAS, as a condition precedent to the making of Loans by the Lenders under the Loan Agreement by certain of the Lenders and their Affiliates from time to time, the Grantor has executed and delivered that certain Pledge and Security Agreement dated as of May 4, 2018 made by the Grantors thereunder to the Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the “Security Agreement”).

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to the Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantor, and has agreed as a condition thereof to execute this IP Security Agreement for recording with the United States Patent and Trademark Office and other applicable governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. The Grantor hereby grants to the Agent for the ratable benefit of the Secured Parties a security interest in all of the Grantor’s right, title and interest in and to the following (the “IP Collateral”):

- (i) all trademarks, service marks, domain names, trade dress, logos, designs, slogans, trade names, business names, fictitious business names, corporate names, certification marks, collective marks, and other source identifiers, whether registered or unregistered, including the trademark and service mark registrations and applications set forth in **Schedule A** hereto (provided that no security interest shall be granted in any United States intent-to-use trademark application for registration of a trademark filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing of a “Statement of Use” pursuant to Section 1(d) of the Lanham Act or an “Amendment to Allege Use” pursuant to Section 1(c) of the Lanham Act with respect thereto, solely to the extent that and solely during the period in which the grant of a security interest therein would impair the validity or enforceability of any registration that issues from such intent-to-use trademark application under applicable federal law), together, in each case, with the goodwill symbolized thereby (the “Trademarks”);
- (ii) all reissues, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto

throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(iii) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(iv) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by the Grantor under this IP Security Agreement secures the payment of all Obligations of the Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, the security interest created under this IP Security Agreement secures, as to the Grantor, the payment of all amounts that constitute part of the Obligations and that would be owed by the Grantor to any Secured Party under the Loan Documents but for the fact that such Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving an Obligor.

SECTION 3. Recordation. The Grantor authorizes and requests that the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. The Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, the Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
