TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT (this "Assignment"), dated as of January 3, 2017 (the "Effective Date"), is by and between Air Products and Chemicals, Inc., a Delaware corporation ("Assignor"), and Evonik Degussa GmbH, a German *Gesellschaft mit beschränkter Haftung* ("Assignee"), (each a "Party" and collectively, the "Parties"). All capitalized terms used, but not defined herein, shall have the meanings ascribed to such terms in the Purchase Agreement.

WHEREAS, the Parties and certain of their Affiliates have entered into that certain Purchase Agreement, dated as of May 6, 2016, as amended (the "Purchase Agreement"); and

WHEREAS, in contemplation of the Purchase Agreement, Assignor has agreed to, and has agreed to cause certain of its Affiliates to, assign, transfer and convey to Assignee all of Assignor's and certain of its Affiliates' right, title, and interest in and to the trademark and service mark registrations and applications set forth on Schedule A hereto (collectively, the "Assigned Trademarks"), pursuant to the terms of the Purchase Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements, provisions and covenants contained in this Assignment, the Parties hereby agree as follows:

1. Conveyance. Assignor does hereby assign, transfer and convey to Assignee all of Assignor's right, title and interest in and to the Assigned Trademarks, together with the goodwill symbolized by any of the foregoing, in each case together with all rights and remedies against past, present, and future infringement or other violation thereof. Without limiting the foregoing, with respect to any Assigned Trademark that is registered to or otherwise in the name of an Affiliate of Assignor, including as indicated on Schedule A hereto, Assignor shall cause such Affiliate to effect the assignment of such Assigned Trademark to Assignee in accordance herewith and subject to the terms and conditions hereof, it being understood and agreed that Assignee shall have the right to use such Assigned Trademark as if assigned to it by Assignor hereunder as of the Effective Date.

2. Recordation. The Parties agree to reasonably cooperate with each other with respect to preparing instruments to record Assignee as the owner of the Assigned Trademarks in the United States Trademark and Trademark Office and any other applicable foreign Governmental Entity or registrar, in each case in form and substance reasonably acceptable to the Parties and in accordance with the applicable Laws of the jurisdiction to which such instrument pertains (with Assignee principally preparing such documents), and Assignee shall have the right and responsibility to record such instrument with the applicable Governmental Entity or registrar, in each case at Assignee's sole cost and expense. Notwithstanding anything to the contrary in any such instrument, to the extent of any conflict or inconsistency between this Assignment and such instrument, this Assignment shall control.

3. Disclaimer of Representations and Warranties. Except as and to the extent set forth in the Purchase Agreement, ASSIGNEE (ON BEHALF OF ITSELF AND EACH OF ITS AFFILIATES) UNDERSTANDS AND AGREES THAT NO PARTY TO THIS ASSIGNMENT IS REPRESENTING OR WARRANTING IN ANY WAY, AND HEREBY DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, AS TO THE ASSIGNED TRADEMARKS, INCLUDING THE NONINFRINGEMENT OR ABSENCE OF OTHER VIOLATION, VALIDITY OR ENFORCEABILITY OR ANY OTHER MATTER CONCERNING THE ASSIGNED TRADEMARKS, AND ALL OF THE ASSIGNED TRADEMARKS ARE BEING TRANSFERRED ON AN "AS IS, WHERE IS" BASIS.

4. Further Assurances. Without limitation to Section 2 above, at any time and from time to time hereafter, at any Party's request and expense, each Party shall take any and all steps and shall execute, acknowledge and deliver to the other party any and all future instruments and assurances necessary or reasonably requested in order to more fully carry out the purposes hereof.

5. No Conflict. Notwithstanding anything to the contrary contained in this Assignment, nothing contained in this Assignment is intended to, shall or shall be deemed to supersede, modify, alter, amend, expand upon or otherwise change any of the rights, remedies or obligations of the Parties and their respective Affiliates under the Purchase Agreement.

6. Successors and Assigns. The provisions of this Assignment and the obligations and rights hereunder shall be binding upon, inure to the benefit of and be enforceable by (and against) the Parties and their respective heirs, beneficiaries, executors, representatives, successors and permitted transferees and assigns.

7. Counterparts. This Assignment may be executed in more than one counterpart, all of which shall be considered one and the same agreement, and shall become effective when one or more such counterparts have been signed by each of the Parties and delivered to each of the Parties.

8. Title and Headings. Titles and headings to sections herein are inserted for the convenience of reference only and are not intended to be a part of or to affect the meaning or interpretation of this Assignment.

9. Governing Law. This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws thereof.

10. Jurisdiction; Forum, Etc.

(a) The parties hereto agree that the appropriate, exclusive, and convenient forum for any disputes between any of the parties hereto arising out of this Assignment or the transactions contemplated hereby shall be in any court in the State of Delaware and each of the parties hereto irrevocably submits to the jurisdiction of such courts solely in respect of any action or proceeding arising out of or related to this Assignment. The parties hereto further agree that

the parties will not bring suit with respect to any disputes arising out of this Assignment or the transactions contemplated hereby in any court or jurisdiction other than the above specified courts; provided, however, that the foregoing shall not limit (i) Assignor's or any of its Subsidiaries' ability or right to join, implead or otherwise bring any third-party claim against Assignee or any of its Subsidiaries in an action brought against Assignor or any of its Subsidiaries by a third party in a jurisdiction outside of the State of Delaware and Assignee agrees that, pursuant to Section 10(b), Assignee (and its Subsidiaries, as applicable) will submit to such jurisdiction or (ii) Assignee's or any of its Subsidiaries' ability or right to join, implead or otherwise bring any third-party claim against Assignor or any of its Subsidiaries in an action brought against Assignee or any of its Subsidiaries by a third party in a jurisdiction outside of the State of Delaware and Assignor agrees that, pursuant to Section 10(b), Assignor (and its Subsidiaries, as applicable) will submit to such jurisdiction. The parties hereto further agree, to the extent permitted by law, that final and unappealable judgment against a party in any action or proceeding contemplated above shall be conclusive and may be enforced in any other jurisdiction within or outside the State of Delaware by suit on the judgment, a certified or exemplified copy of which shall be conclusive evidence of the fact and amount of such judgment.

(b) To the extent that any party hereto has or hereafter may acquire any immunity from jurisdiction of any court or from any legal process (whether through service or notice, attachment prior to judgment, attachment in aid of execution, execution or otherwise) with respect to itself or its property, each such party hereby irrevocably (i) waives such immunity in respect of its obligations with respect to this Assignment, and (ii) submits to the personal jurisdiction of any court described in Section 10(a).

(c) THE PARTIES HERETO AGREE THAT THEY HEREBY IRREVOCABLY WAIVE THE RIGHT TO TRIAL BY JURY IN ANY ACTION OR PROCEEDING TO ENFORCE OR INTERPRET THE PROVISIONS OF THIS ASSIGNMENT.

11. Amendment. This Assignment only may be amended, modified or supplemented by an instrument in writing signed by the Parties.
