TRADEMARK AND SOFT IP ASSIGNMENT

THIS TRADEMARK AND SOFT IP ASSIGNMENT (this "Assignment") is made and entered into as of the date listed below (the "Effective Date"), by and between Mullen Technologies, Inc., a California corporation ("Assignor"), and DBI Lease Buyback Servicing LLC, a Delaware limited liability company ("Assignee"). Assignor and Assignee are sometimes collectively referred to herein as the "Parties."

RECITALS

A. Assignor is the sole and exclusive owner of certain trademarks, copyrights, domain names, websites, designs, and other associated non-patented or non-patentable intellectual property, including without limitation the assets set forth on Exhibit A attached hereto (collectively, the "Trademarks"), for which it has accrued certain rights through usage, and/or for which it has intended to use in commerce and has filed trademark applications with the United States Patent and Trademark Office based on its bona fide intent to use such marks in commerce, but for which has not yet filed an allegation of use under Section 1(c) or 1(d) of the Trademark Act (15 USC § 1051(c) or (d)), and further is the sole and exclusive owner of the goodwill associated therewith and symbolized thereby worldwide.

B. Assignor has agreed to assign its ownership of and all rights, title, and interest in the Trademarks and all business goodwill related therewith.

NOW, THEREFORE, incorporating the Recitals, and in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Assignor hereby irrevocably assigns, grants, conveys, and transfers to Assignee all of Assignor's rights, title, and interest in and to the Trademarks in the above-identified applications as part of the entire business or portion thereof to which the Trademark pertains as required by Section 10 of the Trademark Act (15 USC §1060), including, without limitation, the goodwill of the Assignor's business connected with the use of and symbolized by the Trademarks, Assignor's common law rights and rights under the laws of unfair competition, all registration rights and all of Assignor's rights to obtain renewals, reissues and extensions with respect to the Trademarks, free of all liens and monetary encumbrances, and all rights to damages or profits, due or to become due, accrued or to accrue, arising out of past, present, or future infringement of the Trademarks or injury to said goodwill, together with the right to sue or recover the same in the name of Assignor.

2. The terms of this Assignment shall bind and inure to the benefit of the Parties hereto and their respective heirs, legal representatives, successors, and assigns.

3. The Parties hereby agree to execute such other documents and perform such other acts as may be necessary or desirable to carry out the purposes of this Assignment.

4. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

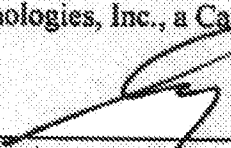

5. This Assignment shall be governed by the laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of the law of any jurisdiction other than the State of California.
