This TRADEMARK ASSIGNMENT AGREEMENT (this "Assignment"), is entered into as of February 19, 2020 by and between F21 IpCo, LLC, a Delaware limited liability company ("Assignee") and each other Person that is a signatory hereto (each, an "Assignor" and collectively, "Assignors").

WHEREAS, this Assignment is made and entered into in connection with the Closing of the transactions contemplated by that certain Asset Purchase Agreement, dated as of February 2, 2020 (as amended, restated, supplemented and/or otherwise modified from time to time in accordance with the terms thereof, the "Purchase Agreement"), by and among F21 OpCo, LLC (f/k/a SPARC Group F21, LLC), a Delaware limited liability company ("Buyer") and each other Person that is a signatory thereto, including, without limitation, Assignors, which provides, subject to the terms and conditions set forth therein, effective as of the Closing, for the sale, transfer, assignment, conveyance and delivery by Assignors to Buyer and/or its designee of all of Assignors' right, title and interest in and to the Acquired Assets (as such term is defined in the Purchase Agreement), on the terms set forth in the Purchase Agreement;

WHEREAS, pursuant to that certain IpCo Designation Agreement, dated as of the date hereof, by and between Buyer and Assignee ("IpCo Designation Agreement"), Buyer designated Assignee to, *inter alia*, purchase a portion of the Acquired Assets from the Sellers as set forth in the IpCo Designation Agreement;

WHEREAS, this Assignment is being executed and delivered by the parties hereto contemporaneously with the Closing under the Purchase Agreement;

WHEREAS, the Acquired Assets includes all of Assignors' direct or indirect right, title and interest in, to and under certain assets, including, without limitation, all of Assignors' rights associated with the registered trademarks and trademark applications identified on Schedule A attached hereto (collectively, the "Trademarks");

WHEREAS, in accordance with the Purchase Agreement and the IpCo Designation Agreement, Assignors desire to assign and Assignee desires to acquire the Trademarks, including all goodwill associated therewith and symbolized thereby.

NOW THEREFORE, in consideration of the premises and the mutual warranties, representations, covenants and agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, agree as follows:

1. Definitions. Unless otherwise defined herein, each capitalized term used herein shall have the meaning assigned thereto in the Purchase Agreement.

2. Assignment. Assignors do hereby sell, assign, convey, transfer and deliver to Assignee, its successors and assigns, free and clear of all Liens (other than Permitted Post-Closing Liens), (a) all of Assignor's worldwide right, title and interest in, to and under, including any and all common law rights thereto, the Trademarks, including, without limitation, any

registrations, applications, renewals and extensions therefor, together with the ongoing and existing business of Assignor to which the Trademarks pertain and the goodwill associated with the Trademarks and symbolized thereby, effective as of the date hereof; and (b) all other rights accruing thereunder or pertaining thereto in any jurisdiction throughout the world for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as full and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, including: (i) claims, causes of actions and rights to pursue and collect damages, costs, injunctive relief and other remedies for past, current or future infringement, misappropriation, dilution, conflict with or other violation of any of the foregoing, and all income, royalties or payments due or payable as of the date hereof or hereafter in respect of any of the foregoing and (ii) rights to apply in any or all countries of the world for trademark protection for the Trademarks, in each case, effective as of the date hereof. Together with Assignors' worldwide right, title and interest in and to each of the Trademarks, as well as the goodwill of the business associated with said Trademarks being assigned to Assignee, are the rights to police, monitor and enforce said Trademarks against any and all past, current and future infringements (including, without limitation, the right to sue for and collect damages caused by any such infringement) which may have occurred at any time in the unlimited past, up to the date of this Agreement, together with any and all further privileges in the United States and throughout the world to establish use, ownership, and registration of the Trademarks.

3. Authorization and Recordation. Assignors hereby authorize and request the Commissioner for Patents and Trademarks and any other applicable governmental authority or registrar to record and register Assignee as the owner of the Trademarks, and to issue any and all Trademarks to Assignee, as assignee of all of Assignor's right, title and interest in and to the Trademarks. Assignee shall have the right to record this Assignment with all applicable governmental authorities and registrars so as to perfect ownership of the Trademarks.

4. Governing Law. All issues and questions concerning the formation, existence, termination, construction, validity, enforcement and interpretation of this Assignment will be governed by, and construed in accordance with, the laws of the State of New York without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

5. Counterparts. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same agreement. Such counterparts may be delivered in electronic format (including by fax and electronic mail).

6. Purchase Agreement. This Assignment is being executed and delivered pursuant to the Purchase Agreement. Notwithstanding anything in this Assignment to the contrary, nothing in this Assignment, express or implied, is intended or shall be construed to modify, expand or limit in any way the terms and conditions of the Purchase Agreement, all of which shall survive the delivery of this Assignment to the extent provided in the Purchase Agreement. To the extent that any provision of this Assignment conflicts or is inconsistent with the terms and conditions of the Purchase Agreement, the Purchase Agreement will govern.

7. Further Assurances. In accordance with the Purchase Agreement, without further consideration, each Assignor hereby agrees, for itself and its successors and assigns, to promptly execute and deliver, or promptly cause to be executed and delivered, all such further documents or perform all affirmative acts which may be necessary or desirable to record or perfect the above-described transfer of the Trademarks, or to secure registration before the United States Patent and Trademark Office or any foreign trademark office (including executing, acknowledging and delivering to Assignee such further assurances, deeds, assignments, powers of attorney, bills of sale, consents and other instruments and documents as Assignee may reasonably request) in order to more fully consummate the transactions contemplated herein and in order to more effectively vest, transfer, and confirm the right, title and interest of Assignee in the Trademarks. Assignors hereby grant to the designated attorneys of Assignee the authority and power to insert on this instrument any further identification which may be necessary or desirable for purposes of recordation by the United States Patent and Trademark Office or the trademark office of any other country throughout the world, provided that Assignee has given Assignors prior notice of the insertion of such further identification.

8. Closing. This Assignment is effective as of the Closing.

9. Severability; Amendment. Any provision in this Assignment which is illegal, invalid or unenforceable shall be ineffective to the extent of such illegality, invalidity or unenforceability, without affecting in any way the remaining provisions hereof.
