ABL INTELLECTUAL PROPERTY SECURITY AGREEMENT

This ABL INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, this "*IP Security Agreement*") dated as of November 6, 2020, is made by the undersigned (the "*Additional Grantor*") in favor of Wells Fargo Bank, National Association, as Administrative Agent (the "*Administrative Agent*") for the Secured Parties (as defined in the Credit Agreement referred to below). Terms defined in the Credit Agreement or the Security Agreement and not otherwise defined in this IP Security Agreement are used herein as defined in the Credit Agreement or the Security Agreement, respectively.

WHEREAS, Vista Outdoor Inc., a Delaware corporation (the "*Parent Borrower*") and certain Subsidiaries of the Parent Borrower have entered into (i) the Asset-Based Revolving Credit Agreement dated as of November 19, 2018 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Credit Agreement*"), among the Parent Borrower, the Additional Borrowers from time to time party thereto, the Lenders from time to time party thereto, the L/C Issuers from time to time party thereto, and Wells Fargo Bank, National Association, as Administrative Agent (together with any successor Administrative Agent appointed pursuant to Article IX of the Credit Agreement, the "*Administrative Agent*"), and (ii) the ABL Security Agreement dated as of November 19, 2018 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Security Agreement*") made by the Parent Borrower and any other Grantors from time to time party thereto in favor of the Administrative Agent for the Secured Parties.

WHEREAS, under the terms of the Security Agreement, the Additional Grantor shall grant to the Administrative Agent, for the benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Additional Grantor, and shall agree as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the U.S. Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Additional Grantor agrees as follows:

1. Grant of Security. The Additional Grantor hereby grants, collaterally assigns and pledges to the Administrative Agent, for the benefit of the Secured Parties to secure the Secured Obligations (whether now existing or hereafter arising), a continuing security interest in such Grantor's right, title and interest in and to the following, other than any Excluded Assets (the "*Collateral*");

(a) the patents and patent applications set forth on Schedule A hereto (the "*Patents*");

(b) the trademark and service mark registrations and applications set forth on Schedule B hereto, together with the goodwill symbolized thereby (the "*Trademarks*");

(c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by the Additional Grantor, including, without limitation, the copyright registrations and applications set forth on Schedule C hereto (the "*Copyrights*");

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of the Additional Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

2. Security for Secured Obligations. The grant of a security interest in, the Collateral by the Additional Grantor under this IP Security Agreement secures the payment of all Secured Obligations now or hereafter existing, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise.

3. Recordation. The Additional Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and Trademarks and any other applicable U.S. government officer record this IP Security Agreement.

4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. The Additional Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

6. Governing Law. This IP Security Agreement and any claims, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this IP Security Agreement and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the State of New York.

[Signature page follows]

IN WITNESS WHEREOF, the Additional Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
