**INTELLECTUAL PROPERTY ASSIGNMENT AND ASSUMPTION AGREEMENT**

This Intellectual Property Assignment and Assumption Agreement (this “Assignment”) is made and entered into as of September 21, 2020 (the “Effective Date”) by and between Briggs & Stratton Corporation, a Wisconsin corporation, Billy Goat Industries, Inc., a Missouri corporation and Allmand Bros., Inc., a Nebraska corporation (together, “Assignors”) and Briggs & Stratton, LLC, a Delaware limited liability company (“Assignee”). The Assignors, on the one hand, and the Assignee, on the other hand, are referred to herein collectively as the “Parties” and individually as a “Party.” Capitalized terms used but not defined herein shall have the meanings set forth in the Purchase Agreement (as defined below).

**RECITALS**

**WHEREAS**, this Assignment is made and entered into in connection with the Closing of the Transactions contemplated by that certain Stock and Asset Purchase Agreement, dated effective as of July 19, 2020, by and between Assignors and Bucephalus Buyer, LLC, a Delaware limited liability company (“Buyer”) (as amended from time to time, the “Purchase Agreement”);

**WHEREAS**, capitalized terms used but not defined herein shall have the respective meanings given to such terms in the Purchase Agreement;

**WHEREAS**, pursuant to the Purchase Agreement, Assignors agreed to sell to Buyer, and Buyer agreed to purchase from Assignors, the Intellectual Property included in the Acquired Assets, including the registered Intellectual Property and applications for registration of Intellectual Property set forth on Exhibit A (collectively, the “Assigned IP”);

**WHEREAS**, pursuant to that certain Assignment and Assumption Agreement, dated as of September 17, 2020 (the “Assignment and Assumption Agreement”), Buyer assigned and delegated to Assignee (a) all of Buyer’s rights and obligations to purchase, acquire and accept from each Assignor the Acquired Assets, pursuant to Section 2.1(b) of the Purchase Agreement and all of Buyer’s obligations arising thereunder and therefrom, and (b) all of Buyer’s rights and obligations to assume and become responsible for the Assumed Liabilities, pursuant to Section 2.2 of the Purchase Agreement and all of Buyer’s obligations arising thereunder and therefrom;

**WHEREAS**, in accordance with the Purchase Agreement and the Assignment and Assumption Agreement, Assignee shall acquire the Assigned IP in accordance with the terms of this Assignment; and

**WHEREAS**, the execution and delivery of this Assignment is contemplated by Section 2.5(c)(iii) and Section 2.5(d)(iii) of the Purchase Agreement.

**NOW, THEREFORE**, in consideration of the promises contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors and Assignee agree as follows:

1. **Assignment.** Each Assignor hereby sells, conveys, assigns and transfers to Assignee, and Assignee hereby accepts from each Assignor, all of such Assignor’s entire worldwide right, title and interest in and to the Assigned IP, together with any and all goodwill connected with and symbolized by the Assigned IP, the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, assigns and other legal representatives as fully and entirely as the same would have been held and enjoyed by the applicable Assignor if this assignment and

sale had not been made, as assignee of its respective entire right, title and interest therein, including all rights in and to all income, royalties, damages and payments now or hereafter due or payable with respect thereto, all causes of action (whether in law or in equity) with respect thereto, and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment.

2. Filing and Recordation. The Parties agree that Assignors shall, at their sole cost and expense, promptly file and record this Assignment, or the equivalent of this Assignment to the extent required with the United States Patent and Trademark Office, United States Copyright Office or any corresponding foreign offices worldwide as necessary to record Assignee as the assignee and owner of the Assigned IP.
3. Severability. The invalidity or unenforceability of any provision of this Assignment shall not affect the validity or enforceability of any other provisions of this Assignment. In the event that any of the provisions of this Assignment shall be held by a court or other tribunal of competent jurisdiction to be illegal, invalid or unenforceable, such provisions shall be limited or eliminated only to the minimum extent necessary so that this Assignment shall otherwise remain in full force and effect.
4. Entire Agreement. This Assignment (including the Exhibits hereto), the Purchase Agreement, the other Related Agreements, the Confidentiality Agreement and the Assignment and Assumption Agreement constitute the entire agreement between the Parties and supersede any prior understandings, agreements or representations (whether written or oral) by or between the Parties to the extent they relate in any way to the subject matter hereof.
5. Terms of the Purchase Agreement. This Assignment is entered into pursuant to, and subject to all of the terms and conditions of, the Purchase Agreement, and all of the obligations, agreements, covenants and warranties of the parties contained therein (including as assigned and delegated pursuant to the Assignment and Assumption Agreement). Nothing contained in this Assignment shall be deemed to supersede, amend, alter, enlarge on or modify any of the obligations, agreements, covenants or warranties of any party contained in the Purchase Agreement in any manner whatsoever. In the event of any conflict or inconsistency between the terms and conditions of this Assignment and those of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall control and prevail.
6. Amendments and Waiver. No amendment of any provision of this Assignment shall be valid unless the same shall be in writing and signed by each Party except as expressly provided herein. No waiver of any breach of this Assignment shall be construed as an implied amendment or agreement to amend or modify any provision of this Assignment. No waiver by any Party of any default, misrepresentation or breach of warranty or covenant hereunder, whether intentional or not, shall be valid unless the same shall be in writing and signed by each Party, nor shall such waiver be deemed to extend to any prior or subsequent default, misrepresentation or breach of warranty or covenant hereunder or affect in any way any rights arising by virtue of any prior or subsequent default, misrepresentation or breach of warranty or covenant. No conditions, course of dealing or performance, understanding or agreement purporting to modify, vary, explain, or supplement the terms or conditions of this Assignment shall be binding unless this Assignment is amended or modified in writing pursuant to the first sentence of this Section 6 except as expressly provided herein. Except where a specific period for action or inaction is provided herein, no delay on the part of any Party in exercising any right, power or privilege hereunder shall operate as a waiver thereof.

7. Governing Law. This Assignment and any claim or controversy hereunder, including matters of validity, construction, effect, enforceability, performance and remedies, and with respect to statute of limitations or any other applicable limitations period shall be governed by and construed in accordance with the internal laws of the State of Delaware (without giving effect to the principles of conflict of Laws thereof), except to the extent that the Laws of such state are superseded by the Bankruptcy Code.
8. Submission to Jurisdiction; Service of Process; Waiver of Jury Trial. Each of the Parties irrevocably and unconditionally submits to the exclusive jurisdiction of the Bankruptcy Court in any Litigation arising out of or relating to this Assignment and agrees that all claims in respect of such Litigation may be heard and determined in any such court. Each Party also agrees not to (a) attempt to deny or defeat such exclusive jurisdiction by motion or other request for leave from the Bankruptcy Court or (b) bring any action or proceeding arising out of or relating to this Assignment in any other court; provided, however, that if the Bankruptcy Case has not been commenced or upon the closing of the Bankruptcy Case, the Parties agree to unconditionally and irrevocably submit to the exclusive jurisdiction of the Court of Chancery of the State of Delaware and any appellate court from any thereof, for the resolution of any such claim or dispute. Each of the Parties irrevocably and unconditionally waives any objection to the laying of venue in, and any defense of inconvenient forum to the maintenance of, any Litigation so brought and waives any bond, surety or other security that might be required of any other Party with respect thereto. Each Party agrees that a final judgment in any Litigation so brought shall be conclusive and may be enforced by Litigation or in any other manner provided by Law or in equity. The Parties intend that all foreign jurisdictions will enforce any Decree of the Bankruptcy Court in any Litigation arising out of or relating to this Assignment. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY PROCEEDING ARISING OUT OF THIS ASSIGNMENT.
9. Succession and Assignment. This Assignment shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns. No Party may assign either this Assignment or any of its rights, interests, or obligations hereunder without the prior written consent of the other Parties.
10. Titles and Headings. Titles and headings of Sections of this Assignment are inserted for convenience only and shall not affect in any way the meaning or interpretation of this Assignment.
11. Counterparts; Facsimile and Electronic Signatures. This Assignment may be executed in two or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument. This Assignment or any counterpart may be executed and delivered by facsimile copies or delivered by electronic communications by portable document format (.pdf), each of which shall be deemed an original.
12. Further Assurances. Assignors shall, at Assignors' expense, execute, deliver, and record such additional instruments, documents, conveyances and assurances, and take, or cause to be taken, all such other actions reasonably necessary, proper or advisable in order to carry out the intent and purposes of this Assignment.
