INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, this “IP Security Agreement”) dated as of November 23, 2021, is made by and between Dart Industries Inc., a Delaware corporation (the “Grantor”), and Wells Fargo Bank, National Association, as Administrative Agent (the “Administrative Agent”) for the benefit of the Secured Parties (as defined in the Security Agreement referred to below).

WHEREAS, contemporaneously herewith, the Grantor and the Administrative Agent are entering into a Security Agreement dated as of the date hereof (as amended, restated, supplemented or otherwise modified from time to time, the “Security Agreement”). Terms defined in the Security Agreement and not otherwise defined in this IP Security Agreement are used in this IP Security Agreement as defined in the Security Agreement.

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to the Administrative Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantor, and has agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office.

WHEREAS, it is a material condition precedent to the agreement of the applicable Secured Parties to extend credit to the Borrowers as contemplated by the Credit Agreement that Dart grant to the Administrative Agent, for the ratable benefit of the Secured Parties and as security for the Obligations, a first priority perfected lien on and security interest in the Collateral as provided herein and in the Security Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. The Grantor hereby grants to the Administrative Agent for the ratable benefit of the Secured Parties a security interest in all of the Grantor’s right, title and interest in and to the following (the “Collateral”):

- (i) the trademark and service mark registrations and applications set forth in Schedule A hereto (*provided* that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the “Trademarks”);
- (ii) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation or other violation with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- (iii) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by the Grantor under this IP Security Agreement secures the payment of all Obligations of the Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or

contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this IP Security Agreement secures the payment of all amounts that constitute part of the Obligations and that would be owed by the Grantor to any Secured Party under the Loan Documents but for the fact that such Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving the Grantor.

SECTION 3. Recordation. The Grantor authorizes and requests that the Commissioner for Trademarks and any other applicable government officer at the U.S. Patent and Trademark Office record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this IP Security Agreement by telecopier or other electronic imaging means shall be effective as delivery of an original executed counterpart of this IP Security Agreement.

SECTION 5. Grants, Rights and Remedies. The security interests granted to the Administrative Agent herein are granted in connection with, and not in limitation or expansion of, the security interests granted to the Administrative Agent pursuant to the Security Agreement. The Grantor hereby acknowledges and affirms that the rights and remedies of the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this IP Security Agreement and the Security Agreement, the terms of the Security Agreement shall govern.

SECTION 6. Incorporation by Reference. The provisions of Sections 15, 18(b), 21, 22 and 24 of the Master Collateral Agreement are hereby incorporated by reference herein as if set forth in full force herein, mutatis mutandis.

[signature page follows]

IN WITNESS WHEREOF, the parties hereto have caused this IP Security Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.
