

THE MARTIN LEWIS SIGNATURE EDITION SKETCHPAD CARD RISE

EFFECT USED BY JOHNNY THOMPSON, DAVID COPPERFIELD, WHIT HAYDN, MICHAEL WEBER AND PROFESSIONAL MAGICIANS WORLDWIDE.

This is Martin's classic effect in which a card rises from a drawing and is then handed out as a souvenir. This signature version is designed and made by Martin's Magikraft Studios. It's better, faster, and far more durable than any other version ever. It includes DVD instruction on care, handling, and performance. Insights gained by 30 years of performing experience.

It features a hard wearing laminated cover and an extra heavyweight backboard. The oversize spiral makes the action fast and easy and the new plastic gimmick will never warp. No template required. Re-designed guidelines are pre-printed for you and are faster to draw and easier to use. Plus lots more improvements that come from those years of real world performance. This is the version the pros use, don't accept anything less!
